Life at the Speed of Light: From the Double Helix to the ...

Life at the Speed of Us weaves dyslexia, math, cutting-edge science, genius, and love into a young woman ' s reluctant journey toward grace. Sovern decides to stop talking at all, after surviving a car crash that killed her dear mother, as she blamed her own voice for the cause of it. That eventually distances her relationship with her father.

In *Life at the Speed of Light*, scientist J. Craig Venter, best known for sequencing the human genome, shares the dramatic account of how he led a team of researchers in this pioneering effort in synthetic genomics—and how that work will have a profound impact on our existence in the years to come. This is a fascinating and authoritative study that provides readers an opportunity to ponder afresh the age-old question “ What is life? ” at the dawn of a new era of biological engineering.
