Brown-Eyed Girl is a collection of poems and photography born from the author's heartache, transformed into vulnerable and inspirational art. I have been many things in my life, but in my subconscious core, I've always been a writer. I've been telling stories and creating worlds for as long as I can remember. I wrote poems as a young girl, but it wasn't until the pandemic lockdown that I rediscovered this part of myself at the bottom of heartache.

Overwhelmed with loneliness, poetry poured out of me. As my sadness faded, I shelved my poetry journal. Weeks later, mesmerized by the sun and inspired by joy, a poem meandered into my mind. I had

been operating under the false belief that artists had to be in pain to create; realizing any emotion could create art was a revelation. Positive poems burst out of me. Months after that, an intuitive told me to bask in the bliss of the book I was writing. I told her I wasn't writing a book. One day, while writing a poem on the beach, I realized I rarely read my poems after writing them. I simply let them flow out of me and moved forward with my day, feeling a little lighter. Approximately 55 poems were in my journal, full of gladness and sorrow. I flipped to the very first page and read what I had written on March 18, 2020: A Book of Poems by TF. Chills covered my body: this was the book. Half of this book was born of longing when I was isolated during the

shutdown, while the other half emerged from a place of happiness and power. Everyone is made of darkness and light; one cannot exist without the other. The contrast between them is what makes life meaningful. So much of the beauty in our lives is born of situations that, at the time, felt earth shattering. *Brown-Eyed Girl* is for everyone. If you've had a broken heart, been in love, felt something while reading poetry, are passionate about photography, or feel deeply, this book is for you. May my words and photos within these covers inspire you to look for love within yourself and to express gratitude for the beauty that surrounds each of us. I dare you to pick up a pen and write about your feelings, start your own self-care practice, chase your dreams, and live fully. I began writing poems to heal myself. That led to the realization this book had begun without my knowing, and here, to this very moment, you are holding its physical manifestation. Anything is possible. No aspiration is too big. Dream. Create. Believe.

the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-

rescuer CPR and adult and child AED.

Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuer- the responsibility to save lives.

“There are ... stipulations on your

inheritance, Ms. Clarke.” Lara J. Clarke is used to getting her own way. Motherless at ten and raised by her oft-absent eco-warrior/philanthropist grandfather, she lives the high life afforded by her seemingly bottomless trust fund—swanky downtown Vancouver loft, apartments and villas around the world just a chartered flight away, a passport overflowing with stamps from the chicest hot spots, a closet bursting with catwalk couture, and a spoiled B-list actor boyfriend whose interest in Lara is tied to her exclusive L’Inconnu wallet. That is, until Grandfather Archibald sheds his mortal coil in a very public manner, and Lara’s privileged life is set adrift—and headed for a collision course with the gorgeous, private Thalia Island off the coast of British Columbia. According to the will, Lara will step into the role of Project Administrator, wherein she has one year to fulfill her late grandfather’s dream of a self-sustaining, eco-friendly, family-centered utopia. The stakes are real: fail, and lose access to the family fortune—forever. Convinced Thalia Island will be an extension of the heiress lifestyle she’s long led, Lara is surprised to find her new coworkers—and neighbors—aren’t as pliable as the underlings of her former life. Even with the hunky lead engineer Finan Rowleigh showing her the ropes, Lara quickly learns just how unprepared she is to trade her Louboutins for steel-toed Timberlands. When a series of calamities reveals a sinister element undermining the security of the island and her residents, Lara

and Finan must reach beyond their job descriptions to protect Archibald's precious utopia from those who would do her harm. And while keeping her late grandfather's flame alight, Lara finds her own flame burning hot for a charming, kind man who wants nothing from her but her heart.
