Life in the United Kingdom Simon and Schuster
This 'Practical Guide to Living in the UK' supports new citizens with the information needed to adjust to everyday life in the UK. It is packed full of information about living and working in the UK and will give readers guidance on how to get by in daily life. Detailed information on the following topics is included: UK Laws and the legal system - identifies ways in which the law affects people, both before and after arriving in the UK; The world of work - details the information needed when trying to find work, advice on being employed and setting up a business; Housing - helps with setting up home and the day to day running of a household in the UK; Schools and education - gives information to help new residents understand the way education works in the UK and ways to discover what is available in the local area; Healthcare in the UK - provides information on what health care is available as a resident of the UK, where to go to seek medical advice and how to register with local GP practices and surgeries; Out and about - explains how the transport system works and aspects of the UK beyond the local area

a journey to citizenship Lulu.com
Since 2005, everyone who applies to become a British citizen has to show their knowledge of the English language and of life in the UK in one of two ways: by taking a special ESOL (English for Speakers of Other Languages) course, or by taking the Life in the UK test. From April 2007, everyone who applies for permanent residence in the UK will also be required to take one of these two tests. This is the second edition of the official handbook which covers all the questions that may be asked in the test, and it is valid for all tests taken from April 2007. The handbook contains chapters on: the making of the United Kingdom, summarising its history; a changing society, including issues of migration and the changing role of women; a profile of Britain today, including its nations and regions, religion, customs and traditions; how Britain is governed, including the British Constitution and its role in Europe and the world; everyday needs, covering topics of housing, health, education, money, leisure and travel; employment issues; knowing the law, including the civil and criminal legal system; sources of help and information, including public libraries and the police service; and building better communities, including participating in the local community and opportunities for volunteering.

The Political Force Transforming Britain The Stationery Office
This work focuses on the largest cities in England, Scotland, Wales and Northern Ireland, countries which make up the United Kingdom. It provides basic history and geography with an emphasis on life in contemporary times. Other subjects covered include cultural diversity, demographic composition and many other aspects of life in the nation's largest urban centres. The United Kingdom is one of the most urbanised countries in the world and, because of that, the cities covered in the book collectively constitute a microcosm of this metropolitan nation. When you learn about the cities, you also learn about the country in general especially the urban aspect of the United Kingdom as a highly industrialised nation. The industrial revolution led to the establishment of towns and cities and today these urban centres are central to life in this vibrant nation. If you are going to the United Kingdom for the first time, you may find this work to be useful. But even those who don't intend to go to the UK may learn some important things about some of the most dynamic urban centres in the world including London.

Life In The United Kingdom: Pass First Time! Oxford University Press
This book documents the fundamental transformations of the UK ' s population that have major implications for the economy, society, politics and environment.

Beautiful Historical photographs with high resolution quality. 10 Practice Tests 'realistic tests with answers'. Has got everything you need to pass Life in the UK Test First Time.

a journey to citizenship [large print version] The Stationery Office
A sweeping history of nineteenth-century Britain by one of the world's most respected historians. "An evocative account . . . [Cannadine] tells his own story persuasively and exceedingly well. " —The Wall Street Journal To live in nineteenth-century Britain was to experience an astonishing and unprecedented series of changes. Cities grew vast; there were revolutions in transportation, communication, science, and work--all while a growing religious skepticism rendered the intellectual landscape increasingly unrecognizable. It was an exhilarating time, and as a result, most of the countries in the world that experienced these changes were racked by political and social unrest. Britain, however, maintained a stable polity at home, and as a result it quickly found itself in a position of global leadership. In this major new work, leading historian David Cannadine has created a bold, fascinating new interpretation of nineteenth-century Britain. Britain was a country that saw itself at the summit of the world and, by some measures, this was indeed true. It had become the largest empire in history: its political stability positioned it as the leader of the new global economy and allowed it to construct the largest navy ever built. And yet it was also a society permeated with doubt, fear, and introspection. Repeatedly, politicians and writers felt themselves to be staring into the abyss and what is seen as an era of irritating self-belief was in fact obsessed with its own fragility, whether as a great power or as a moral force. Victorious Century is a comprehensive and extraordinarily stimulating history--its author catches the relish, humor and staginess of the age, but also the dilemmas faced by Britain's citizens, ones we remain familiar with today.

Uk Cities New Africa Press
This is a comprehensive introduction to the United Kingdom and its people and culture. It provides a lot of basic information about the UK including the way people live in this island nation which is composed of Great Britain and Northern Ireland. All the countries which constitute the United Kingdom - England, Wales, Scotland and Northern Ireland - are looked at in terms of history, culture, geography, and contemporary life. Subjects covered include cities and their demographic composition; distinctive regional identities and cultural and linguistic variations; what you should and should not do when you are in the UK; life in the cities, educational institutions, and much more. Also, an entire chapter is devoted to London. All the other major cities in the entire United Kingdom, and their history as well as contemporary life, are also covered in the book. The book can be very useful to tourists, students and members of the general public. Immigrants to the United Kingdom and foreign students will find this book to be very helpful in a number of areas. Even those who specialise in the United Kingdom can find it to be useful in their fields. If you want to know about the United Kingdom today, and its general background, this book may be for you.

Life in the United Kingdom: A Guide for New Residents Penguin
Based on new archaeological finds, this book introduces a novel rethinking of the whole of British history before the coming of the Romans. So many extraordinary archaeological discoveries (many of them involving the author) have been made since the early 1970s that our whole understanding of British prehistory needs to be updated. So far only the specialists have twigged on to these developments; now, Francis Pryor broadcasts them to a much wider, general audience. Aided by aerial photography, coastal erosion (which has helped expose such coastal sites as Seahenge) and new planning legislation which requires developers to excavate the land they build on, archaeologists have unearthed a far more sophisticated life among the Ancient Britons than has been previously supposed. Far from being the woaded barbarians of Roman propaganda, we Brits had our own religion, laws, crafts, arts, trade, farms, priesthood and royalty. And the Scots, English and Welsh were fundamentally one and the same people.

A Contextual Analysis TSO

Life in the United Kingdom Oxford University Press
Until the Brexit referendum, there was widespread doubt as to whether English nationalism existed at all, at least beyond a small fringe. Since then, it has come to be regarded an obvious explanation for the vote to Leave the European Union. Subsequent opinion polls have raised doubts about the extent of continuing English commitment to the Union of the United Kingdom itself. Yet even as Englishness is apparently reshaping Britain's place in world and perhaps, ultimately, the state itself, it remains poorly understood. In this book Ailsa Henderson and Richard Wyn Jones draw on data from the Future of England Survey, a specially commissioned public attitudes survey programme exploring the political implications of English identity, to make new and original arguments about the nature of English nationalism. They demonstrate that English nationalism is emphatically not a rejection of Britain and Britishness. Rather, English nationalism combines a sense of grievance about England's place within the United Kingdom with a fierce commitment to a particular vision of Britain's past, present, and future. Understanding its Janus-faced nature - both England and Britain - is key not only to understanding English nationalism, but also to understanding the ways in which it is transforming British politics.

Everything You Need to Study for the British Citizenship Test Wiley

It contains all the official learning material for the test and is written in clear, simple language - making it easy to understand. It covers a range of topics you need to know to pass your test and apply for UK citizenship or permanent residency, including: the process of becoming a citizen or permanent resident; the values and principles of the UK; traditions and culture from around the UK; the events and people that have shaped the UK's history; the government and the law; getting involved in your community. A glossary and index are included.

Population Change in the United Kingdom Oxford University Press

The three kingdoms or 'four nations' which became the United Kingdom of Great Britain and Ireland in 1801 have distinct, but not separate, histories. Sensitive questions of religion, local loyalty, and allegiance to the state, shaped politics within and between the four nations - and still give an edge to politics in parts of modern Britain. In 1660, the restoration of Charles II to all three of his kingdoms, was followed by an attempt to impose religious uniformity across his kingdoms. It failed. The make-up of the British Isles was too diverse. Tories, Jacobites, radicals and Whigs each had strong links to a Church or religious faction. Politics and religion could intermingle dangerously. Fear of popery was a major cause of the revolution of 1688, and at the beginning of the eighteenth century Presbyterians led Scottish opposition to a union until they were recognised as an established church. At the end of the century the architects of the act of union with Ireland hoped, finally, to resolve the 'Catholic Question', but (as it does today) constitutional change brought issues of national identity to the fore. The eighteenth century witnessed the triumph of unionism on the larger island, and the rise of nationalism and separatism across the Irish sea. "The Making of the United Kingdom" seeks to explain that crucial divergence, and gives an incisive account of the forging of Britishness the sense of a new nation. Jim Smyth is Professor of History, University of Notre Dame."

The Constitution of the United Kingdom TSO

How does the UK Supreme Court approach human rights law? This book provides the first comprehensive overview of human rights in the highest UK court, criticizing the failure of UK judges to develop the common law in sympathy with human rights.

Essential Practical Advice New Africa Ppress

First published as part of the best-selling The Oxford Illustrated History of Britain, John Morrill's Very Short Introduction to Stuart Britain sets the Revolution into its political, religious, social, economic, intellectual, and cultural contexts. It thus seeks to integrate what most other surveys pull apart. It gives a graphic account of the effects of a century-long period during which population was growing inexorably and faster than both the food supply and the employment market. It looks at the failed attempts of successive governments to make all those under their authority obedient members of a unified national church; it looks at how Charles I blundered into a civil war which then took on a terrifying momentum of its own. The result was his trial and execution, the abolition of the monarchy, the house of lords, the bishops, the prayer book and the celebration of Christmas. As a result everything else that people took for granted came up for challenge, and this book shows how painfully and with what difficulty order and obedience was restored. Vividly illustrated and full of startling detail, this is an ideal introduction to those interested in getting into the period, and also contains much to challenge and stimulate those who already feel at home in Stuart England. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Life in the United Kingdom Ch Publications

When Queen Victoria stepped onto the throne of Great Britain and Ireland in 1837, gone were the days when the monarch had supreme authority over the kingdom. Victoria ruled at the head of a government with which she was meant to converse, debate, and ultimately guide, and it was a job she sometimes struggled to perform.
