The story of a woman's search for strength and independence Meet Akhilandeshwari, Akhila for short: forty-five and single, an income tax clerk and a woman who has never been allowed to live her own life—always the daughter, the sister, the aunt, the provider. Until the day

she gets herself a one-way ticket to the seaside town of Kanyakumari, gloriously alone for the first time in her life and determined to break free of all that her conservative Tamil brahmin life has bound her to. In the intimate atmosphere of the ladies coupe which she shares with five other women, Akhila gets to know her fellow travellers: Janaki, pampered wife and confused mother; Margaret Shanti, a chemistry teacher

married to the poetry of elements and an insensitive tyrant too self-absorbed to recognize her needs; Prabha Devi, the perfect daughter and wife, transformed for life by a glimpse of a swimming pool; fourteen-year-old Sheela, with her ability to perceive what others cannot; and Marikolanthu, whose innocence was destroyed by one night of lust. As she listens to the women's stories, Akhila is drawn into the most private moments of their

lives, seeking in them a solution to the question that has been with her all her life: Can a woman stay single and be happy, or does a woman need a man to feel complete? Note: This book is in the Hindi language and has been made available for the Kindle, Kindle Fire HD, Kindle Paperwhite, iPhone and iPad, and for iOS, Windows Phone and Android devices. Fingersmith Artisan This book is the first book-length study to explore the sartorial

politics of identity in the literature of the South Asian diaspora in Britain. Using fashion and dress as the main focus of analysis, and linking them with a myriad of identity concerns, the book takes the reader on a journey from the eighteenth century to the new millennium, from early travel account by South Asian writers to contemporary British-Asian fictions. Besides sartorial readings of other key authors and texts, the book provides an in-depth

exploration of Kamala Markandaya's *The Nowhere Man* (1972), Hanif Kureishi's *The Buddha of Suburbia* (1990), Meera Syal's *Life Isn't All Ha Ha Hee Hee* (1999) and Monica Ali's *Brick Lane* (2003). This work examines what an analysis of dress contributes to the interpretation of the featured texts, their contexts and identity politics, but it also considers what literature has added to past and

present discussions on the South Asian dressed body in Britain. Endowed with an interdisciplinary emphasis, the book is of interest to students and academics in a variety of fields, including literary criticism, socio-cultural studies and fashion theory.

privilege, set around a young black babysitter, her well-intentioned employer, and a surprising connection that threatens to undo them both. Alix Chamberlain is a woman who gets what she wants and has made a living, with her confidence-driven brand, showing other women how to do the same. So she is shocked when her babysitter, Emira Tucker, is confronted while watching the Chamberlains' toddler one night, walking the aisles of their local high-end supermarket. The store's security guard, seeing a young black woman out late with a white child, accuses Emira of kidnapping two-year-old Briar. A small crowd gathers, a bystander films everything, and Emira is furious and humiliated. Alix resolves to make things right. But Emira herself is aimless, broke, and wary of Alix's desire to help. At twenty-five, she is about to lose her health insurance and has no idea what to do with her life. When the video of Emira unearths someone from Alix's past, both women find themselves on a crash course that will upend everything they think they know about themselves, and each other. With empathy and piercing social commentary, *Such a Fun Age* explores the stickiness of transactional relationships, what it means to make someone "family," and the complicated reality of being a grown up. It is a searing debut for our

times.

Whereas most scholarship on Japanese Americans looks at historical case studies or the 1.5 generation assimilating, this pioneering anthology, *Japanese American Millennials*, captures the experiences, perspectives, and aspirations of Asian

Americans born between 1980 and 2000. The editors and contributors present multiple perspectives on who Japanese Americans are, how they think about notions of community and culture, and how they engage and negotiate multiple social identities. The essays by scholars both in the United States and Japan draw upon the Japanese American millennial experience to examine

how they find self-expression in Youth Basketball Leagues or Christian youth camps as well as how they grapple with being mixed-race, bicultural, or queer. Featuring compelling interviews and observations, *Japanese American Millennials* dislodges the dominant generational framework to address absences in the current literature and suggests how we might alternatively

study Japanese Americans as a whole. Handle with Care Hyperion

Why I Write Springer 300 years ago, in April 1721, a smallpox epidemic was raging in England. Lady Mary Wortley Montagu knew that she could save her 3-year-old daughter using the process of inoculation. She had witnessed this at first hand in Turkey, while she was living there as the wife of the British ambassador. She also knew that by inoculating - making her daughter the first person protected in the West - she would face opposition from doctors, politicians and clerics. Her courageous action eventually led to the eradication of smallpox and the prevention of millions of deaths. But Mary was more than a scientific campaigner. She mixed with the greatest politicians, writers, artists and thinkers of her day. She was also an important

early feminist, writing powerfully and provocatively about the position of women. She was best friends with the poet Alexander Pope. They collaborated on a series of poems, which made her into a household name, an 'It Girl.' But their friendship turned sour and he used his pen to vilify her publicly. Aristocratic by birth, Mary chose to elope with Edward Wortley Montagu, whom she

knew she did not love, so as to avoid being forced into marrying someone else. In middle age, her marriage stale, she fell for someone young enough to be her son - and, unknown to her, bisexual. She set off on a new life with him abroad. When this relationship failed, she stayed on in Europe, narrowly escaping the coercive control of an Italian con man. After twenty-two years abroad, she returned

home to London to die. The son-in-law she had dismissed as a young man had meanwhile become Prime Minister. Behind the Beautiful Forevers Laurence King Publishing
A New York Times Bestseller In the tradition of Out of My Mind, Wonder, and Mockingbird, this is an intensely moving middle grade novel about being an outsider, coping with loss, and discovering the true meaning of family. Willow Chance is a

twelve-year-old genius, obsessed with nature and diagnosing medical conditions, who finds it comforting to count by 7s. It has never been easy for her to connect with anyone other than her adoptive parents, but that hasn't kept her from leading a quietly happy life . . . until now. Suddenly Willow's world is tragically changed when her parents both die in a car crash, leaving her alone in a baffling world. The triumph of this book is that it is not a tragedy.

This extraordinarily odd, but extraordinarily endearing, girl manages to push through her grief. Her journey to find a fascinatingly diverse and fully believable surrogate family is a joy and a revelation to read. * "Willow's story is one of renewal, and her journey of rebuilding the ties that unite people as a family will stay in readers' hearts long after the last page." —School Library Journal starred review * "A graceful, meaningful tale featuring a cast of

charming, well-rounded characters who learn sweet—but never cloying—lessons about resourcefulness, community, and true resilience in the face of loss." —Booklist starred review * "What sets this novel apart from the average orphan-finds-a-home book is its lack of sentimentality, its truly multicultural cast (Willow describes herself as a "person of color"; Mai and Quang-ha are of mixed Vietnamese, African American, and

Mexican ancestry), and its tone. . . . Poignant." —The Horn Book starred review "In achingly beautiful prose, Holly Goldberg Sloan has written a delightful tale of transformation that 's a celebration of life in all its wondrous, hilarious and confounding glory. Or even like her own anti-social, anti-cheerleader attitude. When a family fight results in some tearful sisterly bonding, Alexis realizes that her life is creeping from dysfunction into danger. Kasey is acting stranger than ever: her blue eyes go green, sometimes she uses old-fashioned language, and she even loses track of chunks of time, claiming to know

Water boils on the unlit stove, and an unplugged air conditioner turns the house cold enough to see their breath in. Alexis knows she's the only person who can stop Kasey—but what if that green-eyed girl isn't even Kasey anymore?
