Alfred Busi lives alone in his villa overlooking the waves. Famed in his tiny Mediterranean town for his music, he is mourning the recent death of his wife and quietly living out his days. Then one night, Busi is viciously attacked by an intruder in his own courtyard—bitten and scratched. He insists his assailant was neither man nor animal. Soon, Busi's

account of what happened is being embellished to fan the flames of old rumor—of an ancient race of people living in the surrounding forest. It is also used to spark new controversy, inspiring claims that something must finally be done about the town's poor, whose numbers have been growing. In trademark crystalline prose, Jim Crace portrays a man taking stock of his life and looking into an uncertain future, while bearing witness to a community in the throes of great change.

The son of a zookeeper, Pi Patel has an encyclopedic knowledge of animal behavior and a fervent love of stories. When Pi is sixteen, his family emigrates from India to North America aboard a Japanese cargo ship, along with their zoo animals bound for new homes. The ship sinks. Pi finds himself alone in a lifeboat, his only companions a hyena, an orangutan, a wounded zebra, and Richard Parker, a 450-pound Bengal tiger. Soon the tiger has dispatched all but Pi, whose fear, knowledge, and cunning allow him to coexist with Richard Parker for 227 days while lost at sea. When they finally reach the coast of

Mexico, Richard Parker flees to the jungle, never to be seen again. The Japanese authorities who interrogate Pi refuse to believe his story and press him to tell them "the truth." After hours of coercion, Pi tells a second story, a story much less fantastical, much more conventional--but is it more true?

ABOUT THE BOOK Author Yann Martel conceived of the story *Life of Pi* (2002) during his extended travels in India, reading castaway stories and survival tales. *Life of Pi* is a fantastical chronicle of the adventures of a young boy and his animal companions lost at sea. It has had a tumultuous journey since its arrival in print. The work features a discourse exploring survival, order, danger, chaos and captivity. Yann Martel was born to French-Canadian parents in Spain. Before *Life of Pi*, he wrote two novels that were

not well-received. With the almost instantaneous popularity of *Life of Pi*, Martel became a lively and outspoken figure and went on to write two more novels of note. According to Martel's talk with the Big Think, "When you have faith in anything it's just a disposition to be open and to trust and to move forward that way. And I find a view of life that entertains a transcendental that engages with the transcendental makes things wealthy. It also it makes things wealthier in their significance and it also it's a way that makes suffering more bearable". Knowledge is power. It is said that the greatest chess masters can envision a match's outcome ten moves before it occurs. Imagine a person who can visualize ten steps

ahead, not simply in the game of chess, but in every human interaction. Imagine a person who can see a punch before it is thrown; who knows what you are going to say before you say it; who can see every political and economic move long before it happens. Imagine a secret that can make this all possible. Mathematics professor Albert Puddles exposes this secret for himself as he is thrust into a murder investigation on the Princeton campus. The discovery leads Albert to delve into ancient religious interpretation and unmask new analytical abilities, all while teaming up with an aging mentor, a curious teaching assistant, and an elite Book Club on a frantic chase across America to recover this world-changing knowledge before it falls into dangerous hands. Albert-now embedded in a national cat-and-mouse political power play-rediscovered a woman from his past and is forced to confront his own understanding of love, rationality,

power, and the true limits of the human mind.

Life of Pi

After the tragic sinking of a cargo ship, one solitary lifeboat remains bobbing on the wild, blue Pacific. The only survivors from the wreck are a sixteen-year-old boy named Pi, a hyena, a zebra with a broken leg, a female orang-utan - and a 450-pound Royal Bengal tiger. Since it was first published in 2002, Life of Pi has entered mainstream consciousness and remains one of the most extraordinary works of fiction in recent years. In October 2005 Canongate launched a competition with The Times to find an artist to illustrate Yann Martel's international bestseller. Soon the competition expanded as the Globe and Mail and The Age newspapers also launched a search in Canada and Australia. From thousands of entries, Croatian artist Tomislav Torjanac was chosen as the illustrator for this new edition of Life of Pi. Now readers can enjoy

this extraordinary tale with his glorious colour illustrations.

"From the prize-winning author of *The Beekeeper of Aleppo*, a stunning novel about the disappearance of a Sri Lankan nanny and how the most vulnerable people find their voices. "It began with a crunch of leaves and earth. So early, so cold, the branches shone with ice. I'd returned to collect the songbirds. They are worth more than their weight in gold." Yiannis is a poacher, trapping the tiny protected songbirds that stop in Cyprus as they migrate each year from Africa to Europe and selling them on the black market. He dreams of finding a new way of life, and of marrying Nisha, who works on the island as a nanny and maid--having left her native Sri Lanka to try to earn enough to support her daughter, left behind and raised by relatives. But Nisha has vanished; one evening, she steps out on a mysterious errand and doesn't return.

The police write off her disappearance as just another runaway domestic worker, so her employer, Petra, undertakes the investigation. Petra's unravelling of Nisha's last days in Cyprus lead her to Nisha's friends--other maids in the neighborhood--and to the darker side of a migrant's life, where impossible choices leave them vulnerable, captive, and worse. Based on the real-life disappearance of domestic workers in Cyprus, Christy Lefteri has crafted a poignant, deeply empathetic narrative of the human stories behind the headlines. With infinite tenderness and skill, *Songbirds* offers a triumphant story of the fight for truth and justice, and of women reclaiming their lost voices"--

Life of Pi - A Comprehensive Summary
Though it raises complex philosophical and religious questions, Life of Pi's plot is almost ridiculously easy to summarize: dude gets stuck on a lifeboat in the middle of the Pacific Ocean with a tiger, thinks about God. Done! Okay, maybe that's a little too simplistic. So we'll take

you through the main events in a tad more detail—but remember much of the novel happens through digression and in Pi's meditations sprinkled throughout the novel. The book doesn't begin with Pi, but with an "Author's Note." We learn how the "author" (who shares some of Yann Martel's biography) found Pi's story. We should note one point of complexity: the author admits any mistakes in the narrative are due to him and not Pi, since he's presumably put together Pi's story from interviews, notes, and Pi's diary.

What we read, then, in Part 1 and Part 2 is Pi's voice as the author has written it. And then, without further ado, we launch into Pi's story. Here is a Preview of What You Will Get: A Detailed Introduction

"I know you're very busy, Mr. Harper. We're all busy. But every person has a space next to where they sleep, whether a patch of pavement or a fine bedside table. In that space, at night, a book can glow. And in those moments of docile wakefulness, when we begin to let go of the day, then is the perfect time to pick up a book and be someone else, somewhere else, for a few minutes, a few pages, before we fall asleep." From the author of *Life of Pi* comes a literary correspondence — recommendations to Canada's Prime Minister of great short books that will

inspire and delight book lovers and book club readers across our nation. Every two weeks since April 16th, 2007, Yann Martel has mailed Stephen Harper a book along with a letter. These insightful, provocative letters detailing what he hopes the Prime Minister may take from the books — by such writers as Jane Austen, Gabriel Garcia Marquez and Stephen Galloway — are collected here together. The one-sided correspondence (Mr. Harper's office has only replied once) becomes a meditation on reading and writing and the necessity to allow ourselves to expand stillness in our lives, even if we're not head of government. *Life of Pi* by Yann Martel (Book Analysis) Gale, Cengage
