Queer Kinship after Wilde investigates the afterlife of the Decadent Movement's ideas about kinship, desire, and the family during the modernist period within a global context. Drawing on archival materials, including diaries, correspondence, unpublished manuscripts, and photograph albums, it tells the story of individuals with ties to late-Victorian Decadence and Oscar Wilde who turned to the fin-de-siècle past for inspiration as they attempted to operate outside the heteronormative boundaries restricting the practice of marriage and the family. These post-Victorian Decadents and Decadent modernists engaged in translation, travel, and transnational collaboration in pursuit of different models of connection that might facilitate their disentanglement from conventional sexual and gender ideals. Queer Kinship after Wilde attends to the successes and failures that resulted from these experiments, the new approaches to affiliation inflected by a cosmopolitan or global perspective that occurred within these networks as well as the practices marked by Decadence's troubling patterns of Orientalism and racial fetishism.

**The Stranger** University of Toronto Press

This is the first book to explore the influence of Japanese art on Aubrey Beardsley's work. Placing Japanese woodblock

prints in the English and French cultural milieu of the last third of the Victorian era, Professor Zatlin examines Beardsley's technical and thematic adaptations of Japanese art. She shows how Japanese art enabled Beardsley to create his striking and personal style - one which permanently changed book illustration on three continents. This study is simultaneously a history of the British and French reception of Japanese art, and an examination of the ways Beardsley subverted both Victorian notions of the grotesque and male habits of viewing women. Establishing many of his sources, this book traces Beardsley's revelation of the tensions between the concepts of vice and virtue in a combination of opposites which disconcerted and threatened many viewers of the 1890s. Winner of the Historians of British Art prize for best book on nineteenth-century studies published in English during 1997.

Cardio-Nephrology Oxford University Press (UK)

"Birren presents a kaleidoscopic view of color information that has been a source of fascination..." - Color Research and Application "Keeps up with the latest developments in biology and psychology where light and color are involved." - AIA Journal Here is a major work by one of the best-known color authorities in the world. Faber Birren pioneered in the field of "functional" color, using color properties to promote human welfare psychologically, visually, and physiologically; in this volume he has assembled a wealth of information on the subject. Color and Human Response offers intriguing factual and hypothetical observations on the influences of color in life, supported by historical references and the latest scientific data. Birren explores the biological, visual, emotional,

aesthetic, and psychic responses to color - referring both to ancient symbolic uses of color as well as its application in the modern environment. His specifications for color in homes, offices, hospitals, and schools are geared toward relieving modern tensions and anxieties. Complete with drawings, color photographs, and a chapter on the personal meaning of color preferences, Color and Human Response will fascinate anyone concerned with the human environment, including scientists and psychologists. It has become a basic reference for architects, teachers, and interior and industrial designers.

Decadence in the Age of Modernism Back Bay Books

No other political party in the history of Britain's fascist tradition has been as successful at the ballot box as today's British National Party (BNP). This thoroughly revised and updated edition of Contemporary British Fascism offers an in-depth study of the BNP and its quest for social and political legitimacy.

Silent Myocardial Ischemia University of Chicago Press

This book examines the recent development of the far right in Britain against the backdrop of changing public attitudes toward race and immigration in Britain. Focusing in particular on the British National Party (BNP) which has been the most electorally successful far right party in British history, the book examines the worrying rise in support for extremist and racist ideas.

Diagnostic Breast Imaging JHU Press

In this pathbreaking study, Fiona I. B. Ng examines how geographies of U.S. empire were perceived and enacted during the 1920s and 1930s. Focusing on New York during the height of the Harlem Renaissance, Ng traces the city's multiple circuits of jazz music and culture. In considering this cosmopolitan milieu, where immigrants from the Philippines, Cuba,

Puerto Rico, Mexico, Japan, and China crossed paths with blacks and white "slummers" in dancehalls and speakeasies, she investigates imperialism's profound impact on racial, gendered, and sexual formations. As nightclubs overflowed with the sights and sounds of distant continents, tropical islands, and exotic bodies, tropes of empire provided both artistic possibilities and policing rationales. These renderings naturalized empire and justified expansion, while establishing transnational modes of social control within and outside the imperial city. Ultimately, Ng ô argues that domestic structures of race and sex during the 1920s and 1930s cannot be understood apart from the imperial ambitions of the United States.

This Is The First Full-Length Systematic Study Of Santal Religion As Manifested In Its Beliefs And Practices. This Study Provides Valuable Insights Into The Religious Norms Shared By Santals Over A Wide Geographic Spread.

Literature and the Politics of Post-Victorian Decadence Oxford University Press

The National Front was one of the most controversial political parties in Britain. This exploration, first published in 1981, of the NF ideology and its meaning for members is based on a participation observation study which involved the development of relations with its headquarters, and with branch staff and members in several English cities. The fieldwork was carried out at marches, branch meetings and rallies, and candidates, activists, ordinary members and opponents of the NF were interviewed. Nigel Fielding examines in detail the ethnography of the National Front, describing its history, electoral performance and some demographic characteristics of its membership. He investigates the party ideology, concentrating on the key aspects of race, nationalism and conspiracy theory. The party 's involvement in overt and covert political action is discussed, and tolerance of ambiguity in adherence to ideology, are explored. In a final chapter the author discusses the case for regarding active NF membership as evidence of a commitment to an alternative conception of social reality founded on fundamental disagreement with the political and social order of the status quo. This book examines the problem of the relationship between the beliefs and actions of the political deviant in the context of a group which is involved in political activism.

Affective Communities Cambridge University Press

DIV Investigates friendships between anti-colonial Indians and anti-imperial 'westerners' in late-19th and early 20th centuries, claiming that such inter-cultural collaborations need to be added to annals of

non-violent historiography. /div

Indian Arrivals, 1870-1915 Springer Science & Business Media

From NBC's award-winning Chief White House Correspondent-a strikingly provocative, behind-the-scenes account of President Obama's White House tenure. Barack Obama won the presidency in 2008 partly because he was a Washington outsider. But when he got to 1600 Pennsylvania Avenue, that distinction turned out to be double-bladed. While he'd been a brilliant campaign politician, working inside the system-as president-turned out to be more of a challenge than Obama had ever imagined. In THE STRANGER, Chuck Todd draws upon his unprecedented inner-circle sources to create a gripping, fly-on-the-wall narrative. The result is the definitive account of Barack Obama's audacious dive into the White House deep end.

The Dynamics of Santal Traditions in a Peasant Society Oxford University Press

Tribal Religion Routledge

Extending from the outpatient management of cardiovascular and kidney disease, to hospital-based decision making in patients with cardio-renal disease and complex interfaces such as hemodialysis in patients with ventricular assist device support, this book serves as a single reference point for cardiology and nephrology clinicians and researchers dealing with the significant overlap areas between these two specialties. Chapters cover the physiology, biomarkers, therapeutic agents and full spectrum of these comorbidities and feature separate sections on cardiovascular and CKD evaluations, stratification of kidney transplant patients, lipid management in CKD, interventional strategies and hypertension. Leaders in cardiology, nephrology, hypertension and lipidology bring together the latest evidence with their collective clinical experience into this invaluable resource. This textbook is an essential resource for physicians and allied professionals practicing cardiology, nephrology, students and physician trainees, to deepen their understanding of this crucial field.

Periprosthetic Joint Infection of the Hip and Knee Johns Hopkins University Press

"A tiny, fastidiously dressed man emerged from Black Philadelphia around the turn of the century to mentor a generation of young artists including Langston Hughes, Zora Neale Hurston, and Jacob Lawrence and call them

the New Negro--the creative African Americans whose art, literature, music, and drama would inspire Black people to greatness. [The author] offers the definitive biography of the father of the Harlem Renaissance, based on the extant primary sources of his life and on interviews with those who knew him personally"--Amazon.com.

British National Party Routledge

This book examines the recent development of the far right in Britain, with a particular focus on the British National Party (BNP) the most electorally successful far right party in British history. It brings fresh perspectives to our understanding of the BNP in order to make a significant contribution to scholarly debate on the nature of far right extremism both nationally and internationally. The book is significantly different from other literature in the field primarily because of its focus on three important yet underdeveloped themes, which are reflected in the structure of the book itself. These are: the ideological and cultural politics of contemporary BNP responses to the BNP the BNP 's place within the contemporary domestic and international far-right milieu. Written by an outstanding line-up of renowned experts in this field, this is essential reading for all those with an interest in British politics, fascism, political parties, race relations and extremism.

Associations in the Greco-Roman World Duke University Press

Associations in the Greco-Roman World provides students and scholars with a clear and readable resource for greater understanding of the social, cultural, and religious life across the ancient Mediterranean. The authors provide new translations of inscriptions and papyri from hundreds of associations, alongside descriptions of more than two dozen archaeological remains of building sites. Complemented by a substantial annotated bibliography and accompanying images, this sourcebook fills many gaps and allows for future exploration in studies of the Greco-Roman religious world, particularly the nature of Judean and Christian groups at that time.
