Question 1 A ray of light travelling in air enters obliquely into water. Does the light ray bend towards the normal or away from the normal ? Why ? Answer: The light-ray bends towards the normal because the ray of light goes from a rarer medium to a denser medium. Question 2 Light enters from air to glass having refractive index 1.50.

46 Best Light Questions and Answers (Q&A) - ProProfs ...

State the two laws of reflection of light. [Delhi] Answer. Laws of reflection of light are: The angle of incidence is equal to the angle of reflection. The incident ray, the normal to the reflecting surface at the point of incidence and reflected ray from that point, all lies in the same plane. 43.

30 fun quiz questions and answers to test your general ...

Answered: Jun 28, 2018. The answer to this question is D which is all of A, B, and C. Take note that there are always differences depending on the surface wherein the light would hit.

Light waves test questions - KS3 Physics Revision - BBC ...

The answer to the question is light. During the day, it is sunlight that helps us see objects. When light falls on an object, it reflects. This reflected ray when received by our eyes helps us see things. There are numerous wonderful phenomena that are associated with light such as the formation of the

rainbow, of stars, and many more.
