Product Summary

---

The Lincoln Electric AC-225 Compact AC Arc Welder produces an extremely smooth AC arc for welding a wide variety of materials including carbon, low alloy and stainless steels as well as cast iron. Ideal for home, farm, shop, repair and maintenance, build-up welding and light fabrication.

### **Lincoln Electric AC-225 AC Arc Welder — Transformer, 230**

...  
If you have read the Lincoln 225 AC review carefully, you should know why this is the best solution. Firstly, the stick welder makes you able to penetrate over 16 gauge metal and even cast iron. That

completes the penetration expected from a welder. Also, Lincoln 225 works on 225 amp ensuring maximum fusion among metals.

**Lincoln Electric AC-225 User Manual**  
The Lincoln AC-225 Welder has a wide welding amperage range of 40-225 amps. Lincoln claims that it has a very smooth AC arc and I think you would be hard pressed to find someone among its users that disagrees with that. The Lincoln AC-225 Welder is capable of welding materials like carbon, low alloy, and stainless steels as well as cast iron. *Operators Manuals / Lincoln Electric*

Easy to operate - Full range 40-225 amp selector switch quickly sets the welding current and ensures a uniform arc each and every time you weld. Smooth arc - Makes it easy to weld with different electrodes, including mild steel, low hydrogen, stainless steel and hardfacing electrodes. *Lincoln Electric 225-125, AC/DC 225/125 User Manual*  
The AC/DC 225/125 is an arc welding power source with an AC welding output range of 40-225 amps and a DC welding output range of 30-125 amps. It is an extremely useful stick welding power source for maintenance repair, fabrication, construction, erecting

---

and hardfacing applications.
