## **Principles of LINEAR SYSTEMS and SIGNALS**

Most trains on the New York City Subway are manually operated. The system currently uses Automatic Block Signaling, with fixed wayside signals and automatic train stops. Many portions of the signaling system were installed between the 1930s and 1960s. Because of the age of the subway system, many replacement parts are unavailable from signaling suppliers and must be custom built for the New ... Linear systems and signals - B P Lathi
