Teacher librarians need to get directly involved with the research process in the learning commons in order to create actions and strategies that will enhance student learning—and benefit their own professional development as well as demonstrate accountability through their action research efforts. This book provides practical tips and work spaces for educators at the local, state, and national levels, clearly modeling and explaining the process and the tools for conducting action research

in a school library setting that will identify the program's strengths and weaknesses. The author coalesces current expert opinions on the topic of action research in the school library environment and highlighting what other teacher librarians in the field have identified as the pros and cons of using the process. Readers are directed to focus on mitigating the "cons" through the use of specific working pages and templates and by initially exploring "five favorite" links, thereby encouraging those who are new to action research to try what might otherwise seem a daunting process. School principals K–12 who read this book will be better equipped to support their teacher librarians and teachers in this important professional process. Supplies invaluable insights from

“ This heartfelt, witty addition to women ’ s fiction will appeal to fans of Elizabeth Berg and Anna Quindlen. ” (Booklist) Georgia Waltz has things many people only dream of: a plush Manhattan apartment overlooking Central Park, a Hamptons beach house, valuable jewels and art, two bright daughters, and a husband she adores, even after decades of marriage. It ’ s only when Ben suddenly drops dead from a massive coronary while training for the New York City Marathon that Georgia discovers her

husband—a successful lawyer—has left them nearly penniless. Their wonderland was built on lies. As the family attorney scours emptied bank accounts, Georgia must not only look for a way to support her family, she needs to face the revelation that Ben was not the perfect husband he appeared to be, just as her daughters—now ensconced back at home with secrets of their own—have to accept that they may not be returning to their lives in Paris and at Stanford subsidized by the Bank of Mom and Dad. As she uncovers hidden resilience, Georgia’s sudden midlife shift forces her to consider who she is and what she truly values. That Georgia may also find new love in the land of Spanx and stretch marks surprises everyone—most of all, her. Sally Koslow’s fourth novel is deftly told through the alternating viewpoints of her remarkable female protagonists as they plumb

for the grit required to reinvent their lives. Inspiring, funny, and deeply satisfying, *The Widow Waltz* explores in a profound way the bonds between mothers and daughters, belligerent siblings, skittish lovers, and bitter rivals as they discover the power of forgiveness, and healing, all while asking, “What is family, really?”

This history of one of the most contentious educational issues in America examines bilingual instruction in the United States from the common school era to the recent federal involvement in the 1960s and 1970s. Drawing from school reports, student narratives, legal resources, policy documents, and other primary sources, the work teases out the underlying agendas and patterns in bilingual schooling during much of America's history. The study demonstrates clearly how the broader context - the cultural, intellectual, religious, demographic, economic, and political forces - shaped the contours of dual-language instruction in America between the 1840s and 1960s. Ramsey's work fills a crucial void in the

educational literature and addresses not only historians, linguists, and bilingual scholars, but also policymakers and practitioners in the field. *Five Dates with the Billionaire* Nerel Online Cost-effective manufacturing of biopharmaceutical products is rapidly gaining in importance, while healthcare systems across the globe are looking to contain costs and improve efficiency.
