Japanese foreign direct investment has played a leading role in Asian economies for more than two decades. This book, describing the changing industrial dynamics after the Asian currency crisis in 1997, focuses on corporate strategies of Japanese automobile and electronics companies in Asian nations, with detailed analysis of management issues and strategies from the viewpoint of both the home economy and the recipient host economies. Among the cases presented are the global restructuring of the Korean automobile industry and the transfer of automotive technology to China via Taiwan. Other studies, from the electronics industry, look at production sites in Malaysia, backward integration in Singapore, and forward integration in Hong Kong. The contributions of specialists from Asia, Europe, and the United States collected here envision an ongoing process of globalization and provide valuable perspective and background for business management and East Asian studies.

Motorboating - ND Routledge  
Format 5 1/2 x 8 1/2 Illus. 65 b&w photos and 38 line drawings - Useful information for both sail and powerboat owners - New edition of a proven book for those confronted with the problem of installing a new diesel engine - Includes opportunities for improvement of on-board systems and services - Features an engine comparison table to help the reader decide which to purchase

This volume approaches the history of Japanese-German relations from a business history perspective. Starting with an overview of Japanese-German relations which focuses on the environment, strategies and forms of inter-firm relations, Akira Kudo then uses case studies to provide a broader picture, before finally considering strategy, organisational strategy and technology and management transfer in the light of problems identified earlier.

watery graves. This is the gripping story of the Awa Maru, the little known 'Titanic of Japan.' Follow the journey of Kyoko Tanaka, whose parents and brother had been passengers on the Awa Maru as she set sail on her own voyage of discovery. She travels from Japan to Singapore in search of the truth and a 'piece of her history' and makes poignant and touching discoveries of the lives of her parents and some of the other families as they prepared to board the Awa Maru. The lives of the doomed passengers of the Awa Maru and the events of that horrific night when they perished are all told in this book as never before.

The world's preeminent environmental organization began with a layer of soot on the windowsill of a Greenwich Village apartment. Natural Resources Defense Council (NRDC) founder John H. Adams, a pioneer of environmental action, was working as a lawyer for the U.S. Attorney's office when he and fellow lawyers teamed up to form a grassroots environmental advocacy group. Since 1970, NRDC has grown into an international powerhouse with 1.2 million members and a staff of scientists and lawyers whose mission is to safeguard the planet. This inspiring memoir tells the story of the NRDC and the environmental movement it sparked.

The automotive lubricants arena has undergone significant changes since the first edition of this book was published in 1996. Environmental concerns, particularly regarding improvement of air quality have been important in recent years, Reduced emissions are directly related to changes in lubricant specifications and quality, and the second edition of the Automotive Lubricants Reference Book reflects the urgency of such matters by including

updated and expanded detail. This second edition also considers the recent phenomenon of increased consolidation within the oil and petroleum additive arenas, which has resulted in fewer people for research, development, and implementation, along with fewer competing companies. After reviewing the first edition the authors have fully reviewed and updated the information to fit in with the changes in technology and markets. Chapters include, Introduction and Fundamentals Constituents of Modern Lubricants Crankcase Oil Testing Crankcase Oil Quality Levels and Formulations Practical Experiences with Lubricant Problems Performance Levels, Classification, Specification, and Approval of Engine Lubricants. Other Lubricants for Road Vehicles Other Specialized Oils of Interest Blending, Storage, Purchase, and Use Safety Health, and the Environment The Future.
