In her heartfelt and humorous novel, Bauer (Hope Was Here) leaves teenage girl protagonists in favor of a middle-grade boy as she did also in Sticks (1996). But her fans won't be disappointed. At first, 12-year-old Tree, "six feet, three and a half inches and growing," only literally "stands tall." At school, Coach Glummer expects him to lead the basketball team (though he's not very athletic) and teachers expect him to act older than his age. On the home front which shifts weekly due to his parents' recent divorce and joint custody arrangement Tree is the glue of his family. He helps care for his Vietnam vet grandfather (who recently had a leg amputated) while worrying about his aging dog, Bradley, his two college-student brothers and his parents. Bolstered by his budding friendship with the outspoken new girl at school, Sophie, and by Grandpa, Tree finds an inner strength that helps him deal with just about anything including a natural disaster. Bauer once again creates a clan of believable characters scrambling to make the best of their particular brand of dysfunction. Her swiftly paced story artfully blends poignant and outright funny moments, resulting in a triumphant tale that will resonate with many young readers. Ages 10-up.

A thoroughly revised and updated edition of Thomas C. Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. While many books can be enjoyed for their basic stories, there are often deeper literary meanings interwoven in these texts. *How to Read Literature Like a Professor* helps us to discover those hidden truths by looking at literature with the eyes—and the literary codes—of the ultimate professional reader: the college professor. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. This revised edition includes new chapters, a new preface, and a new epilogue, and incorporates updated teaching points that Foster has developed over the past decade.

Studying Fiction provides a clear rationale alongside ideas and methods for teaching literature in schools from a cognitive linguistic perspective. Written by experienced linguists, teachers and researchers, it offers an overview of recent studies on reading and the mind, providing a detailed guide to concepts such as attention, knowledge, empathy, immersion, authorial intention, characterisation and social justice. The book synthesises research from cognitive linguistics in an applied way so that teachers and those researching English in education can consider ways to approach literary reading in the classroom.

Each chapter: draws on the latest research in cognitive stylistics and cognitive poetics; discusses a range of ideas related to the whole experience of conceptualising teaching fiction in the classroom and enacting it through practice; provides activities and reflection exercises for the practitioner; encourages engagement with important issues such as social justice, emotion and curriculum design. Together with detailed suggestions for further reading and a guide to available resources, this is an essential guide for all secondary English teachers as well as those teaching and researching in primary and undergraduate phases.
