University student Helmut Wegner curses himself for his procrastination as he waits in the rain in the muddy woods for his Flchthelfer, the escape helpers. Twelve weeks earlier, prior to August 13, 1961, he could have strolled easily across the border separating East Berlin from the section occupied by the three Western allies. Now, crossing the border is a dangerous endeavor. But Wegner is far from the only man who seeks to escape. Outpost Berlin chronicles the tales of both successful and failed escape attempts over the Berlin Wall since its erection in 1961. Each chapter begins with a short historical background and description of the location, a dedication to an American or German who played a significant role in the defense of West Berlin, and a prologue detailing the implications that the incidents had for West Berlins future.

Capturing the essence of the era, Outpost Berlin presents a historical look at the stories of American military intelligence officers, German escapees, and the escape helpers.

Mommy, Daddy, what should I be when I grow up? This is the question every child asks when they begin to develop a sense of the future, and it's never been harder for parents to answer it than now. This century is characterised by disruptive change that is turning our world upside down. Jobs aren't just changing, but whole industries are ceasing to exist. The scripts for success and failure are being rewritten on a daily basis in our families, at work and in life. Do parents know who and what their children need to be, let alone what they might be able to do, in the future world of work? This book doesn't just paint a picture of what the future might hold, but provides frameworks and practical advice for what parents can do today in order to build solid

foundations for their children in order to maximise their chances of success. Children who are equipped with the right skill sets, attitudes and world views will remain relevant and able to take advantage of future opportunities. Aimed primarily at anyone involved in raising children from birth to age twelve, including grandparents, educators, support teams and extended family, it is also an insightful handbook for those with teens. Future-proof Your Child for the 2020s and Beyond is an invaluable guide for parents who wish to create realistic and relevant parenting goals that will set their children up to thrive, no matter what awaits them in the future.

Every year I read several manuscripts written by mothers about having a child with Asperger's syndrome. The quality of manuscripts varies considerably. As soon as I started to read Living Your Best Life with Asperger's Syndrome I knew it was going to be one of my favourite biographies. I was entranced by Karra's descriptions of her son's intellectual abilities, his perspective on life and sense of humour. The anecdotes illustrate aspects of Asperger's syndrome perfectly. Professionals will have the

Ah ha! moment, as the descriptions of events and conversations are consistent with the theoretical models of Asperger's syndrome. Both parents and professionals need to read this book, and then other children with Asperger's syndrome will indeed live a better life - Professor Tony Attwood This book is a worthwhile read and written in a very positive way. Many professionals will find the anecdotes evocative and perhaps illumination. There are also useful and practical tips and ideas noted throughout the book. I would happily recommend it to parents, especially those who are in the early days, post diagnosis and looking for information, ideas and a positive perspective - Alison Leask, Chair of Autism, Argyll, Scotland Effectively accommodating the social and academic needs of children on the autistic spectrum is an important task in every school. This book is a practical guide to benefit parents, teachers, Local Education Authorities and international autism organisations. Each chapter provides a summary followed by anecdotal stories that illustrate a point, describing how a young boy navigates his way through the social challenges that he faces every day. Issues covered include: o diagnosis and recognizing the difference; o providing support and understanding; o communication; o concrete thinking. The focus of the writing is how to live your best life despite your difference. The book describes the problems and pain Karra faced as her son changed and encountered difficulties at every stage. She also demonstrates her resilience and determination and the book is a celebration of her son and their relationship. This is a very accessible book which would be helpful to parents and teachers meeting autism for the first time. The book charts a success story and as such should make an encouraging read.

This would be well worth having a parents' group or staff room library. - Special

A poor woodcutter lives with his wife and two children, Hansel and Gretel. Weak-willed and easily manipulated, the wood cutter gives in to his overbearing, badgering wife who insists he abandons his children to the wilderness of the forest because, well, they eat too much food. There, as they try and find their way home, Hansel and Gretel come across a beautiful sugar-spun, candy cottage and, as the fairytale goes, a horrendous, red-eyed witch who loves to dine on nice, fat children.

When I see kids today, spending their time with all the electronic paraphernalia, I feel sad. Will

they, like me, have fond memories of youthful experiences that will last a lifetime? I hope so. It seems they don't know how to play anymore. Also, they don't appear to spend much time outdoors. My youth was spent in a suburban town in northeastern New Jersey. Our home was on the edge of town and bordered a tract of land that included fallow farms, woods and fields, ponds and brooks, the town water company property, and a county park. Our neighborhood was a great place for a spirited kid, and I had many adventures which are described here. I chose poetry, because I tend to be brief, and I enjoy writing it. The reader must use his imagination to fill in the details. Maybe some of my older readers will remember incidents from their own early years.

Have a good read.

The parenting humorist behind the viral Twitter account @XplodingUnicorn and author of Only Dead on the Inside: A Parent's Guide to Surviving the Zombie Apocalypse presents the long-awaited guide to surviving everything else. In the era of instant parent shaming and viral hot takes, some questions are too dangerous to ask out loud: What's the proper first aid for my toddler's vampire bite? What should I do if I take a wrong turn on the way to soccer practice and end up in the Cretaceous Period? How can I fend off Godzilla without disrupting my child's nap? Fortunately, there's now a parenting resource that answers those burning questions and many more. Professional comedy writer and amateur father James Breakwell's latest book tackles more than 90 survival challenges ordinary parents might encounter in their everyday lives, including:

- How to protect your child against tigers, penguins, mastodons, and other animals found in the suburbs.
- How to defeat ghosts, gremlins, mummies, and any other supernatural force that might prevent you from getting your kid to bed on time.
- How to survive crashing horses, trains, hot air balloons, and other vehicles you might find in the carpool lane.

This is an essential guide for anyone who has children, might have children someday, or is vaguely aware children exist. Put this book down at your own—and your children's—risk.

In 1999, Karyn Schad became the two hundredth woman in the world to be diagnosed with Lymphangiomyomatosis (LAM), a rare disease that mainly affects women of childbearing age. Muscle-like cells grew out of control in her lungs, stealing her breath away. She lived with the disease until finally receiving the gift of life, her new lungs on May 17, 2009, delivering her from the foggy line where life rubs shoulders with death. On their wedding day forty years before, neither Karyn nor Richard could possibly have foreseen the tremendous trial in their future. Together, they found the courage to brave LAM, and are truly grateful for the wisdom they've gained. In this memoir, Richard shares their story, combining his recollection of events with Karyn's diary entries. He considers the joy they have now and the lessons they have learned from the experience--how it opened their eyes to the beauty surrounding them. Although the disease exploded in Karyn's body, it never touched her heart, and that's where hope lives.

WEE SING 25TH ANNIVERSARY CELEBRATION SAGE

ABOUT THE BOOK: There was once a sweet little maid who lived with her father and mother in a pretty little cottage at the edge of the village. At the further end of the wood was another pretty cottage and in it lived her grandmother. Everybody loved this little girl, her grandmother perhaps loved her most of all and gave her a great many pretty things. Once she gave her a red cloak with a hood which she always wore, so people called her Little Red Riding Hood. One morning Little Red Riding Hood's mother said, "Put on your things and go to see your grandmother. She has been ill; take along this basket for her. I have put in it eggs, butter and cake, and other dainties." It was a bright and sunny morning. Red Riding Hood was so happy that at first she wanted to dance through the wood. All around her grew pretty wild flowers which she loved so well and she stopped to pick a bunch for her grandmother. Little Red Riding Hood wandered from her path and was stooping to pick a flower when from behind her a gruff voice said, "Good morning, Little Red Riding Hood." Little Red Riding Hood turned around and saw a great big wolf, but Little Red Riding Hood did not know what a wicked beast the wolf was, so she was not afraid..... FROM THE AUTHOR OF BOOKS LIKE: 1.
