Biomimetics: Lessons from Nature  
is an essay dedicated to the  
important topic of biomimicry -  
that is, inspiration from nature - as  
it relates to design and  
environmental and social  
sustainability, as well as issues  
related to the manufacturing cycle,  
from the initial phase of product  
design until final outcome, where  
there is often very little  
sustainability or none at all. This  
book also pays particular attention

to today's pressing issues about  
alternative energy sources and the  
recycling of waste products from  
manufacturing activities and  
normal daily life. The approach is  
intentionally colloquial, with the  
aim of making access to these  
topics more engaging, while fully  
adhering to correct terminology  
and scientific reliability.

Biomimetics: Lessons  
From Nature Wildwood

Author Sparkles  
offers up an array  
of project ideas  
that are both earth-  
and user-friendly.  
She includes 50  
original patterns  
for repurposed  
dresses, tops,

The Sept. issue contains the  
annual Teaching aids section.  
Report Dundurn

Back in 1983 I was chatting with  
Dick Coleman, publisher of  
Traffic World magazine, when  
he unexpectedly proposed that I  
write a column for the magazine  
on computer applications in the  
transportation/physical  
distribution industry. "But, Dick,  
I don't know all that much about  
computers," I protested. "You  
use one, don't you?" he asked  
logically. Yes, I did; I'd been  
running my consulting business  
with it for two years. But that  
didn't, I explained, make me an  
expert. "Think about it," he said.  
That's typical Coleman; he drops  
these studiedly casual ideas and  
just lets them lay there until you

pick them up and wind up doing  
just what he wanted you to do all  
along. Sure enough, the longer I  
pondered the notion the more it  
appealed to me. OK, I wasn't a  
computer expert (I'm still not).  
But I was a computer user, in the  
transportation/distribution field;  
maybe from that perspective I  
might have some useful things to  
say to other  
transportation/distribution users  
and would-be users of computers.  
Thus was born the "Computer  
Software for Transportation"  
column. The first one appeared in  
the April 11, 1983, issue of  
Traffic World, and it's been a  
once-a-month schedule ever  
since. And thus, too, was  
ultimately born this book.

"Congratulations on the  
purchase of this exclusive  
product, tailor-made just for  
you. It will provide you with  
years of continuous  
existence." So begins The  
Brain: A User ' s Manual,  
Marco Magrini ' s

---

fascinating guide to the inner workings of one of nature's most miraculous but misunderstood creations: the human brain. This user-friendly manual offers an accessible guide to the machine you use the most, deconstructing the brain into its constituent parts and showing you both how they function and how to maintain them for a longer life. Cutting through the noise of modern pop psychology, *The Brain: A User's Manual* is a refreshingly factual approach to self-help. Written with a deft style and wry humour, it offers tips on everything from maximising productivity to retaining memory and boosting your mood.

Industrial Education Magazine  
University of Chicago Press  
A single mother. An abandoned farmhouse. An epic battle with the northern wilderness. Broke and desperate, Molly Bannister accepts the ironclad condition laid down in her great-aunt's will: to receive her inheritance, Molly must spend one year in an abandoned, off-the-grid farmhouse in the remote backwoods of northern Alberta. If she does, she will be able to sell the farm and fund her four-year-old daughter's badly needed medical treatment. With grim determination, Molly teaches herself basic homesteading skills. But her greatest perils come from the brutal wilderness itself, from blizzards to grizzly bears. Will she and her child survive the savage winter? Will she outsmart the idealist young farmer who would thwart her plan to sell the farm? Not only their financial future, but their very lives are at stake. Only the journal written by Molly's courageous great-aunt, the land's original homesteader, inspires her to struggle on.

knowledge and gain new ideas. You don't have to be a communication professional to create to learn. Today, with free and low-cost digital tools, everyone can compose videos, blogs and websites, remixes, podcasts, screencasts, infographics, animation, remixes and more. By creating to learn, people internalize ideas and express information creatively in ways that may inspire others. Create to Learn is a groundbreaking book that helps learners create multimedia texts as they develop both critical thinking and communication skills. Written by Renee Hobbs, one of the foremost experts in media literacy, this book introduces a wide range of conceptual principles at the heart of multimedia composition and digital pedagogy. Its approach is useful for anyone who sees the profound educational value of creating multimedia projects in an increasingly digital and connected world. Students will become skilled multimedia communicators by learning how to gather information, generate

ideas, and develop media projects using contemporary digital tools and platforms. Illustrative examples from a variety of student-produced multimedia projects along with helpful online materials offer support and boost confidence. Create to Learn will help anyone make informed and strategic communication decisions as they create media for any academic, personal or professional project.

marks on your furniture. Dead mice on your doorstep. Stray hairs all over your clothes. It's enough to make you cry out, "Why doesn't my cat have an owner's manual?" And now—finally!—she does.

Through step-by-step instructions and helpful schematic diagrams, *The Cat Owner's Manual* explores hundreds of frequently asked questions: Which breeds interface best with dogs? How can I maintain a quality exterior finish? And why does my model always drink from the bathtub? Whatever your concerns, you'll find the answers here—courtesy of celebrated veterinarian Dr. David Brunner and acclaimed author Sam Stall. Together, they provide plenty of useful advice for both new and experienced cat owners.

Contributions to Periodicals  
Simon and Schuster  
You have a sink full of dishes  
to wash, three loads of laundry  
to do, seventeen bills to pay,  
thirty-six e-mails to answer, a  
big stack of novels on the  
nightstand you ' d love to  
read, and zero minutes of free  
time. You can ' t add more  
hours to the day, but Laura  
Stack, The Productivity  
Pro®, will help you make the  
most of the time you have and  
get things done. The  
Productivity Pro® helps you  
determine what you have  
under control and where you  
need to improve. Are you  
good at managing your bills  
but can ' t find time to  
exercise? Do you get your kids  
to all their activities but end  
up constantly behind on  
laundry? Laura Stack shows  
you how to improve every  
area of your life. Whether you  
need help on just a few things

or feel like your life is totally out  
of control, Find More Time  
will help you organize your  
space, time, and information to  
reduce your stress and create  
and sustain a productive home  
environment, so you ' ll have  
more time to enjoy your life.

### The Encyclopaedia Britannica

People know that the  
climate is changing for the  
worse, that species are being  
driven to extinction at a  
rapidly increasing rate, and  
that entire ecosystems are  
becoming shadows of their  
former richness. They know  
but they do not understand.  
The global environmental  
crisis is closing in on  
humanity from all  
directions, yet the crisis  
barely registers on this  
culture's list of problems. As  
we stand around, humanity  
is doomed to a collapse that  
may leave only a few

---

nomads, and a toxic, barely survivable Earth in its wake. So why is nothing being done beyond changing light bulbs, recycling, and buying organic food? It's certainly not for a lack of good reasons. Humans have no motivation stronger than survival, yet the culture that dominates—the culture we call industrial civilization—has created a set of priorities that values financial wealth, the possession of superfluous goods, and short, cheap thrills above that most basic need. In short, we are prepared to die in order to live a life that is killing us. *Time's Up!* is about changing our behavior. The book describes how our actions affect the very things on Earth that we depend on for survival, at scales that we rarely contemplate. It arms

us with the tools to free us from a culture that has blinded us for centuries, and which will allow us to live in a way that will give Earth, and ourselves, a viable future.

*The Democracy Owners' Manual*

Ideas, culture, and capital flow across national borders with unprecedented speed, but we tend not to think of poems as taking part in globalization. Jahan Ramazani shows that poetry has much to contribute to understanding literature in an extra-national frame. Indeed, the globality of poetry, he argues, stands to energize the transnational turn in the humanities. Poetry in a Global Age builds on Ramazani's award-winning *A Transnational Poetics*, a book that had a catalytic effect on literary studies. Ramazani broadens his lens to discuss modern and contemporary poems not only in relation to world literature, war, and questions of orientalism but

---

also in light of current debates over ecocriticism, translation studies, tourism, and cultural geography. He offers brilliant readings of postcolonial poets like Agha Shahid Ali, Lorna Goodison, and Daljit Nagra, as well as canonical modernists such as W. B. Yeats, Wallace Stevens, T. S. Eliot, and Marianne Moore. Ramazani shows that even when poetry seems locally rooted, its long memory of forms and words, its connections across centuries, continents, and languages, make it a powerful imaginative resource for a global age. This book makes a strong case for poetry in the future development of world literature and global studies.

PM is the ultimate guide to our high-tech lifestyle.
