A determined young Lancashire girl arrives in London intent on a stage career - this tale from the author of *I Capture the Castle* is told with the candour and authenticity that derives from Dodie Smith's own experience of the theatre world. Mouse never did fully suit her nickname. Tiny she may have been, but timid never. After less than twenty-four hours in London she had bluffed her way into an audition at a famous theatre, infuriated its forceful young stage director, and amused its kind if quite amoral actor-manager. She had finally landed not a part but a toehold as a junior secretary. During her involvement in the engrossing affairs of the Crossway Theatre she met her friends Molly, a baby-faced six-footer; and elegant, ambitious Lilian, who was fated to clash disastrously with Mouse. Later, there was also Zelle, rich, generous, enigmatic, and responsible for an outing to Suffolk village pageant which proved a turning point for them all. Life was always surprising the fearless Mouse: when she unexpectedly got to a chance to act she made an unforgettable impression, though not the one she had intended. However, nothing prepared her for the assault of first love, highly unsuitable, but welcomed by her in a way which was to have far-reaching consequences. Only when she looks back after a reunion luncheon does she realise the full effects of that shared summer on her friends and herself. A startlingly frank yet nostalgic read, this is a charming novel about coming of age and the healing effects of time.

New York Post Best Book of 2016 We often think of our capacity to experience the suffering of others as the ultimate source of goodness. Many of our wisest policy-makers, activists, scientists, and philosophers agree that the only problem with empathy is that we don't have enough of it. Nothing could be farther from the truth, argues Yale researcher Paul Bloom. In *AGAINST EMPATHY*, Bloom reveals empathy to be one of the leading motivators of inequality and immorality in society. Far from helping us to improve the lives of others, empathy is a capricious and irrational emotion that appeals to our narrow prejudices. It muddles our judgment and, ironically, often leads to cruelty. We are at our best when we are smart enough not to rely on it, but to draw instead upon a more distanced compassion. Basing his argument on groundbreaking scientific findings, Bloom makes the case that some of the worst decisions made by individuals and nations—who to give money to, when to go to war, how to respond to climate change, and who to imprison—are too often motivated by honest, yet misplaced, emotions. With precision and wit, he demonstrates how empathy distorts our judgment in every aspect of our lives, from philanthropy and charity to the justice system; from medical care and education to parenting and marriage. Without empathy, Bloom insists, our decisions would be clearer, fairer, and—yes—ultimately more moral. Brilliantly argued, urgent and humane, *AGAINST EMPATHY* shows us that, when it comes to both major policy decisions and the choices we make in our everyday lives, limiting our impulse toward empathy is often the most compassionate choice we can make.

The brilliant, controversial, bestselling critique of American culture that "hits with the approximate force and effect of electroshock therapy" (The New York Times)—now featuring a new afterword by Andrew Ferguson in a twenty-fifth anniversary edition. In 1987, eminent political philosopher Allan Bloom published *The Closing of the American Mind*, an appraisal of contemporary America that "hits with the approximate force and effect of electroshock therapy" (The New York Times) and has not only been vindicated, but has also become more urgent today. In clear, spirited prose, Bloom argues that the social and political crises of contemporary America are part of a larger intellectual crisis: the result of a dangerous narrowing of curiosity and exploration by the university elites. Now, in this twenty-fifth anniversary edition, acclaimed author and journalist Andrew Ferguson contributes a new essay that describes why Bloom's argument caused such a furor at publication and why our culture so deeply resists its truths today.
