[Excellence Through Equity](http://ExcellenceThroughEquity.com)

Excellence Through Equity is an inspiring look at how real-world educators are creating schools where all students are able to thrive. In these schools, educators understand that equity is not about treating all children the same. They are deeply committed to ensuring that each student receives what he or she individually needs to develop their full potential and succeed. To help educators with what can at times be a difficult and challenging journey, Blankstein and Noguera frame the book with five guiding principles of Courageous Leadership: Getting to your core Making organizational meaning Ensuring constancy and consistency of purpose Facing the facts and your fears Building sustainable relationships. They further emphasize that the practices are grounded in three important areas of research that are too often disregarded: (1) child development, (2)

neuroscience, and (3) environmental influences on child development and learning. You'll hear from Carol Corbett Burris, Michael Fullan, Marcus J. Newsome, Paul Reville, Susan Szachowicz, and other bold practitioners and visionary thinkers who share compelling and actionable ideas, strategies, and experiences for closing the achievement gap in your classrooms and school. Ensuring that all students receive an education that cultivates their talents and potential is in all our common interest. As Andy Hargreaves writes in the coda: "The opportunity for all Americans is to articulate and believe in an inspiring vision of educational change that is about what the next generation of America and Americans should become, not about a target or ranking that the nation should attain." From the Foreword by Archbishop Desmond Tutu: "Letting go of a system of winners and losers in favor of what is proposed in this book is a courageous leap forward that we all must take together. Let this bold, practical book be a guide; and may you travel into

this new exciting vista, in which every child can succeed."

Learn the Secret to Success on the Living Environment Regents exam!After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn ' t struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn ' t have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered,

unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of Books and applications to teach this "Insider's Language" to students around the world. Our books and applications are helpful to any student. They are especially helpful to struggling students, English language learners, and students beginning a course of study.
