What transforms this book from words on a page to effective daily practices

are the ten guideposts to wholehearted living. The guideposts not only help us understand the practices that will allow us to change our lives and families, they also walk us through the unattainable and sabotaging expectations that get in the way. Brené writes, "This book is an invitation to join a wholehearted revolution. A small, quiet, grassroots movement that starts with each of us saying, 'My story matters because I matter.' Gendered Lives Penguin

Five women revolutionize the

modern art world in postwar America in this "gratifying, generous, and lush" true story from a National Book Award and Pulitzer Prize finalist (Jennifer Szalai, *New York Times*). Set amid the most turbulent social and political period of modern times, *Ninth Street Women* is the impassioned, wild, sometimes tragic, always exhilarating chronicle of five women who dared to enter the male-dominated world of twentieth-century abstract painting -- not as muses but as artists. From their cold-water lofts, where they worked, drank, fought, and loved, these pioneers burst open the door to the art world for themselves and countless others to come. Gutsy and indomitable, Lee Krasner was a hell-raising leader among artists long before she became part of the modern art world's first celebrity couple by marrying Jackson Pollock. Elaine de Kooning, whose brilliant mind and peerless charm made her the emotional center of the New York School, used her work and words to build a bridge between the avant-garde and a public that scorned abstract art as a hoax. Grace Hartigan fearlessly abandoned life as a New Jersey housewife and mother to achieve stardom as one of the boldest painters of her generation. Joan Mitchell, whose notoriously tough exterior shielded a vulnerable artist within, escaped a privileged but emotionally damaging Chicago childhood to translate her fierce vision into magnificent canvases. And Helen Frankenthaler, the beautiful daughter of a prominent New York family, chose the difficult path of the creative life. Her gamble paid off: At twenty-three she created a work so original it launched a new school of painting. These women changed American art and society, tearing up the prevailing social code and replacing it with a doctrine of liberation. In *Ninth Street Women*, acclaimed author Mary Gabriel tells a remarkable and inspiring story of the power of art and artists in shaping not just postwar America but the future.

A Short Guide to Writing about Art Routledge

World Prehistory: The Basics tells the compelling story of human prehistory, from our African origins to the spectacular pre-industrial civilizations and cities of the more recent past. Written in a non-technical style by two archaeologists and experienced writers about the past, the story begins with human origins in Africa some 6 million years ago and the spread of our remote ancestors across the Old World. Then we return to Africa and describe the emergence of *Homo sapiens* (modern humans) about 350,000 years ago, then, much later, their permanent settlement of Europe, Eurasia, Asia, and the Americas. From hunters and foragers, we turn to the origins of farming and animal domestication in different parts of the world after about 11,000 years ago and show how these new economies changed human existence dramatically. Five chapters tell the stories of the great pre-industrial civilizations that emerged after 5,000 years before present in the Old World and the Americas, their strengths, volatility, and weaknesses. These chapters describe powerful rulers and their ideologies, also the lives of non-elites. The narratives chronicle the rise and fall of civilizations, and the devastating effects of long droughts on many of them. The closing chapter poses a question: Why is world prehistory important in the modern world? What does it tell us about ourselves? Providing a simple, but entertaining and stimulating, account of the prehistoric past from human origins to today from a global perspective, *World Prehistory: The Basics* is the ideal guide to the story of our early human past and its

relevance to the modern world.
