Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall

---

organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

Theartofman.net becomes a reality! This quarterly seeks to bring balance to a genre of art that overwhelmingly favors the female figure. We feature artists that are courageous enough to focus on the male figure as a significant portion of their portfolio. We bring you in-depth interviews into their thought processes, choices, struggles and creativity in a way no book on the subject can; a buffet for the connoisseur of figurative art. Edition 9 features the artwork of David Powers, Mark Horst, Joshua Meyer, Eric Itschert, and Syed Ali Arif. The historical perspective by art historian Grady Harp focuses on

*Greek and Roman Sculpture*. An article about the influence of Ganymede as an artistic theme rounds out the edition.

**The Art of Watching Films** Buccaneer Books  
Designed for introduction to art courses, this text covers art history and looks at art from the oldest cultures and from around the world.

Ninth Edition Routledge

Over the nearly four decades it has been in print, *Reason in Law* has established itself as the place to start for understanding legal reasoning, a critical component of the rule of law. This ninth edition brings the book's analyses and examples up to date, adding new cases while retaining old ones whose lessons remain potent. It examines several recent controversial Supreme Court decisions, including rulings on the constitutionality and proper interpretation of the Affordable Care Act and Justice Scalia's powerful dissent in *Maryland v. King*. Also new to this edition are cases on same-sex marriage, the Voting Rights Act, and the legalization of marijuana. A new appendix explains the historical evolution of legal reasoning and the rule of law in civic life. The result is an indispensable introduction to the workings of the law.

States, it is essential to know the contemporary problems being faced and combine that knowledge with empirical research and theoretical reasoning to arrive at best practices and an understanding of policing. Policing in America, Eighth Edition, provides a thorough analysis of the key issues in policing today, and offers an issues-oriented discussion focusing on critical concerns such as personnel systems, organization and management, operations, discretion, use of force, culture and behavior, ethics and deviance, civil liability, and police-community relations. A critical assessment of police history and the role politics played in the development of American police institutions is also addressed, as well as globalization, terrorism, and homeland security. This new edition not only offers updated research and examples, it also incorporates more ways for the reader to connect to the content through learning objectives, discussion questions, and "Myths and Realities of Policing" boxes. Video and Internet links provide additional coverage of important issues. With completely revised and updated chapters, Policing in America, Eighth Edition provides an up-to-date examination of what to expect as a police officer in America. In full color, including photographs and illustrations Video links provide additional coverage of topics discussed in the text Learning objectives, critical thinking questions, and review questions in every chapter help to reinforce key concepts Updated figures and "Myths and Realities of Policing" boxes provide important context Includes all-new content, such as further coverage of violent crime reduction

programs, gangs, and drug use Access to student and instructor ancillaries, including Self-Assessments, Case Studies, Test Bank, and PowerPoint Lecture Slides

Princeton University Press

Seth is the acclaimed non-physical teacher whose collected works are the most dynamic, brilliant and undistorted map of inner reality and human potential available today. His articulation of the furthest reaches of human potential, the eternal validity of the soul, and the concept that we create our own reality according to our beliefs, has been presented in books that have sold over 8 million copies and been translated into over a dozen languages. Seth's empowering voice clearly stands out as one of the major forces which led to the current New Age philosophical movement. This book chronicles Seth's first contact with author and medium Jane Roberts. It is a mixture of great Seth excerpts, selected by topic, and further explained by Jane. Topics covered include: afterdeath & between lives, how to get rid of illness, reincarnation, why people are born into different circumstances, God, All That Is, Dreams, exercises to develop the inner senses, and much more.

This introduction to environmental issues contains five integrating themes: the global

---

scope of environmental issues; the importance of urban environments; sustainability; human population; and the ethical and economic basis for making choices about environmental issues. These themes are introduced at the beginning and are referred to throughout. In addition, each chapter begins with a case study illustrating the issues discussed.

*Becker's World of the Cell* Taylor & Francis  
This title documents the burgeoning eco art movement from A to Z, presenting a panorama of artistic responses to environmental concerns, from Ant Farms anti-consumer antics in the 1970s to Marina Zurkows 2007 animation that anticipates the havoc wreaked upon the planet by global warming.

**The Longing for Less** Psychology Press

A humorous, uplifting look at mindfulness, from beloved illustrator Grant Snider "Find a quiet spot away from all distraction / Listen to your breath / Watch your thoughts float past you / Forget the obligations of today / Try not to consider your eventual decay / Let yourself drift away / Arise, connected with the Earth / Awakened to the Universe." In *The Art of Living*, cartoonist Grant Snider, author of *The Shape of Ideas* and *I Will Judge You by Your Bookshelf*, has

created an all-new collection of one- and two-page comics that map his inner thoughts, poetic observations, and frequent failures at living mindfully. With both humor and a touch of reality, *The Art of Living* centers on mindfulness, but also empathy, relaxation, gratitude, and awareness—evergreen subjects that are more important and relevant now than ever. With a striking package, *The Art of Living* is an extension of the themes of Snider's first two books—which explored the creative process and the love of reading—and is the perfect gift for those in a need of reflection, commiseration, hope, and a little extra self-care. Above all, Snider's cartoons will inspire and encourage a more thoughtful way of experiencing the world.

**Living with Art** McGraw-Hill Humanities, Social Sciences & World Languages  
*Juvenile Justice: An Introduction*, 8th edition, presents a comprehensive picture of juvenile offending, delinquency theories, and how juvenile justice actors and agencies react to delinquency. It covers the history and development of the juvenile justice system and the unique issues related to juveniles, offering evidence-based suggestions for successful interventions and treatment and

---

examining the new balance model of juvenile court. This new edition not only includes the latest available statistics on juvenile crime and victimization, drug use, court processing, and corrections, but provides insightful analysis of recent developments, such as those related to the use of probation supervision fees; responses to gangs and cyber bullying; implementing the deterrence model (Project Hope); the possible impact of drug legalization; the school-to-prison pipeline; the extent of victimization and mental illness in institutions; and implications of major court decisions regarding juveniles, such as Life Without Parole (LWOP) for juveniles. Each chapter enhances student understanding with Key Terms, a "What You Need to Know" section highlighting important points, and Discussion Questions. Links at key points in the text show students where they can go to get the latest information, and a comprehensive glossary aids comprehension.

To Life! McGraw-Hill

From unsubstantiated 2020 election fraud claims and the storming of the US Capitol to the rampage of COVID-19 and racial injustice, this book covers the foundations, institutions, and processes of "the great American experiment" with a clear and resonant theme: Democracy cannot be taken for granted, whether at home or internationally, and eternal vigilance (along with civic intelligence) is required to protect it. *Approaching Democracy* provides students with a framework to analyze the structure, process, and action of US government, institutions, and social movements. It also invites comparison with other countries. This globalizing perspective gives students an understanding of issues of governance and challenges to democracy here and elsewhere. At a moment of growing domestic terrorism, political hyper-partisanship, populism, identity politics, and governmental dysfunction, there is no better time to bring *Approaching Democracy*--a textbook based on Vaclav Havel's powerful metaphor of democracy as an ideal and the American experiment as the closest approach to it--to a new generation of political science undergraduate students. NEW TO THE NINTH EDITION Two new authors, Nadia E. Brown and Sarah Allen Gershon, who bring refreshing intellectual and diverse perspectives to the text. Includes the tumultuous political context surrounding the Trump

presidency, the 2020 elections, the 116th Congress, the Supreme Court, the COVID-19 crisis, and the fight for social and racial justice. Figures and tables reflect the latest available data and surveys. Two new features--Diversity and Democracy, highlighting the experiences of America's diverse social groups and the role of identity politics--and Discussion Questions at the end of each chapter, assessing critical thinking skills. Critical contemporary events are explored throughout the book, including the attempted coup following the 2020 elections, the Trump administration's handling of the COVID-19 pandemic, Black Lives Matter, protests in American cities that come to the epicenter of America's approach to democracy, the changes in the Supreme Court and the federal court system, the growth of LGBTQ+ legal rights, and the alteration in American Federalism. New and updated data on public attitudes toward police brutality, DACA, voter suppression, healthcare, and the global climate movement are also covered.

*American Government in Times of Challenge* McGraw-Hill Humanities, Social Sciences & World Languages Five women revolutionize the modern art world in postwar America in this "gratifying, generous, and lush" true story from a National Book Award and Pulitzer Prize finalist (Jennifer Szalai, New York Times). Set amid the most turbulent social and political period of modern times, *Ninth Street Women* is the impassioned, wild, sometimes tragic, always exhilarating chronicle of five women who dared to enter the male-dominated world of twentieth-century abstract painting -- not as muses

---

but as artists. From their cold-water lofts, where they worked, drank, fought, and loved, these pioneers burst open the door to the art world for themselves and countless others to come. Gutsy and indomitable, Lee Krasner was a hell-raising leader among artists long before she became part of the modern art world's first celebrity couple by marrying Jackson Pollock. Elaine de Kooning, whose brilliant mind and peerless charm made her the emotional center of the New York School, used her work and words to build a bridge between the avant-garde and a public that scorned abstract art as a hoax. Grace Hartigan fearlessly abandoned life as a New Jersey housewife and mother to achieve stardom as one of the boldest painters of her generation. Joan Mitchell, whose notoriously tough exterior shielded a vulnerable artist within, escaped a privileged but emotionally damaging Chicago childhood to translate her fierce vision into magnificent canvases. And Helen Frankenthaler, the beautiful daughter of a prominent New York family, chose the difficult path of the creative life. Her gamble paid off: At twenty-three she created a work so original it launched a new school of painting. These women changed American art and society, tearing up the prevailing social code and replacing it with a doctrine of liberation. In *Ninth Street Women*, acclaimed author Mary Gabriel tells a remarkable and inspiring story of the power of art and artists in shaping not just postwar America but the future.

"More than just a story of an abiding cultural preoccupation, *The Longing For Less* peels back the commodified husk of minimalism to reveal something surprising and thoroughly alive." -Jenny Odell, author of *How to Do Nothing* "Less is more":  
Everywhere we hear the mantra. Marie Kondo and other decluttering gurus promise that shedding our stuff will solve our problems. We commit to cleanse diets and strive for inbox zero. Amid the frantic pace and distraction of everyday life, we covet silence-and airy, Instagrammable spaces in which to enjoy it. The popular term for this brand of upscale austerity, "minimalism," has mostly come to stand for things to buy and consume. But minimalism has richer, deeper, and altogether more valuable gifts to offer. Kyle Chayka is one of our sharpest cultural observers. After spending years covering minimalist trends for leading publications, he now delves beneath this lifestyle's glossy surface, seeking better ways to claim the time and space we crave.

---

He shows that our longing for less goes back further than we realize. His search leads him to the philosophical and spiritual origins of minimalism, and to the stories of artists such as Agnes Martin and Donald Judd; composers such as John Cage and Julius Eastman; architects and designers; visionaries and misfits. As Chayka looks anew at their extraordinary lives and explores the places where they worked—from Manhattan lofts to the Texas high desert and the back alleys of Kyoto—he reminds us that what we most require is presence, not absence. The result is an elegant new synthesis of our minimalist desires and our profound emotional needs.

The New York Times film critic shows why we need criticism now more than ever Few could explain, let alone seek out, a career in criticism. Yet what A.O. Scott shows in Better Living Through Criticism is that we

are, in fact, all critics: because critical thinking informs almost every aspect of artistic creation, of civil action, of interpersonal life. With penetrating insight and warm humor, Scott shows that while individual critics--himself included--can make mistakes and find flaws where they shouldn't, criticism as a discipline is one of the noblest, most creative, and urgent activities of modern existence. Using his own film criticism as a starting point--everything from his infamous dismissal of the international blockbuster The Avengers to his intense affection for Pixar's animated Ratatouille--Scott expands outward, easily guiding readers through the complexities of Rilke and Shelley, the origins of Chuck Berry and the Rolling Stones, the power of Marina Abramovich and 'Ode on a Grecian Urn.' Drawing on the long tradition of criticism from Aristotle to Susan Sontag, Scott shows that real criticism was and always will be the breath of fresh air that allows true creativity to thrive. "The time for criticism is always now," Scott explains, "because the imperative to think clearly, to insist on the necessary balance of reason and passion,

never goes away."
