**A World of Art** Laurence King Publishing

*Art & Today* is an innovative and extensive survey of international contemporary art from the 1980s to the present. Over four hundred of the most significant contemporary artists from around the world are represented in this comprehensive overview - some emerging, some mid-career, and others long established. Each of the book's sixteen chapters address recurring and relevant themes as diverse as "Art & Popular Culture," "Art & Its Institutions," and "Art & Globalism," rather than follow a strict chronological, geographical, or stylistic structure. Lively and up-to-date, *Art & Today* explores an era in which art defies simple categorization. The result is a surprising and original yet clear and reasoned perspective on contemporary art that breaks from prescribed classifications to offer a survey as expansive as the art it describes. For instance, in the chapter "Art & the Body," one might find performance discussed alongside figurative painting, sculpture and photography alongside video, and North American artists alongside Asian artists. The chapter "Art and Globalism" discusses artists whose nationality, generation, and medium are as diverse as those of Alan Sekula, Michal Rovner, Cildo Meireles, Manuel Ocampo, Chen Zhen, and Andreas Gursky. Internationally renowned art critic and scholar Eleanor Heartney is respected for her clear language and pragmatic approach to contemporary art. Her straightforward, engaging descriptions and explanations will appeal to both experts and newcomers alike, and will serve as an invaluable resource for years to come.

ISE Living with Art McGraw-Hill College

This compelling book chronicles 75 of the most influential artists from the dawn of the 20th century to the present, and from around the world. Each entry provides a fascinating insight into the artist and his or her vision of what they were trying to do, while also acknowledging the lasting effect or impression of their work. Arranged in a broadly chronological order, the book gives a sense of the impact each artist has had on the development of art practice over the last 100 years. Key dates in each artists career are clearly drawn out in the accompanying timeline. Through a combination of lively text and arresting visuals, this is an inspirational and wholly original guide to some of the artists whose vision has helped to shape the modern art world.

Understanding Art McGraw-Hill Education

"At its heart, Pasztory's thesis is simple and yet profound. She asserts that humans create

things (some of which modern Western society chooses to call "art") in order to work out our ideas - that is, we literally think with things. Pasztory draws on examples from many societies to argue that the art-making impulse is primarily cognitive and only secondarily aesthetic. She demonstrates that "art" always reflects the specific social context in which it is created, and that as societies become more complex, their art becomes more rarefied."--Jacket.

Life in the Universe Springer Science & Business Media

This is a treatise on what makes art art, told in graphic novel form. What is "Art"? It's widely accepted that art serves an important function in society. But the concept falls under such an absurdly large umbrella and can manifest in so many different ways. Art can be self indulgent, goofy, serious, altruistic, evil, or expressive, or any number of other things. But how can it truly make lasting, positive change? In *Why Art?*, acclaimed graphic novelist Eleanor Davis (*How To Be Happy*) unpacks some of these concepts in ways both critical and positive, in an attempt to illuminate the highest possible potential an artwork might hope to achieve. A work of art unto itself, Davis leavens her exploration with a sense of humor and a thirst for challenging preconceptions of art worth of Magritte, instantly drawing the reader in as a willing accomplice in her quest.

**Gilbert's Living with Art** Metropolitan Books

A colleague recently recounted a conversation she had had with a group of graduate students. For reasons that she cannot recall, the discussion had turned to the topic of "old-fashioned" ideas in psychology-perspectives and beliefs that had once enjoyed widespread support but that are now regarded as quaint curiosities. The students racked their brains to outdo one of the historical trivia of psychology: Le Bon's another with their knowledge fascination with the "group mind," Mesmer's theory of animal magnetism, the short-lived popularity of "moral therapy," Descartes' belief that erec tions are maintained by air from the lungs, and so on. When it came his tum to contribute to the discussion, one student brought up an enigmatic journal he had seen in the library stacks: the *Journal of Abnormal and Social Psychology*. He thought that the inclusion of abnormal and social psychology within the covers of a single journal seemed an odd combination, and he wondered aloud what sort of historical quirk had led psychologists of an earlier generation to regard these two fields as somehow related. Our colleague then asked her students if they had any ideas about how such an odd combination had found its way into a single journal.

One of the outstanding problems of the biologist, whether he be beginning student or specialists, is that of understanding technical terms. The best way to understand and remember technical terms is to understand first their component parts, or roots. This dictionary has been designed primarily to meet the needs of the beginning student, the medical student, and the taxonomist, but it should be of value to all biologists.

The Power of Art University of Texas Press

Living with Art's approach to art appreciation supports students' acquisition of the essential skills of the course. Mark Getlein's vivid narrative, in concert with McGraw-Hill's powerful adaptive learning program LearnSmart within CONNECT Art, helps students understand, analyze, and appreciate the ways art work communicates to us in our visual world. In doing so, Living with Art provides the foundation for a life-long appreciation of art, as well as critical thinking skills that will benefit students far beyond the classroom into their chosen careers. Students are invited to actively join in the discussion from Chapter 1. The narrative engages them in the stories of art, while the integrated digital assessments in CONNECT Art challenge them to build a fluency in the core vocabulary of the course; practice applying it in guided writing assignments; and ultimately prepare for active class participation and success on critical analysis, studio, and museum assignments. The result is greater engagement and greater course success.
