How do you know how much to invest in a home? How do you
choose the right loan and lender? How do you qualify for a home
loan? How do you beat your odds to get the best deal? What to
take care of during paper work? What do you do when your
application gets rejected? How do you deal with the financial
distress during loan repayment period? This book answers several
questions like that. All living beings share a basic need to have a
home, and what could be better if you could call it your own!
Unless you are sitting on a pile of cash, you would agree that

buying a house is expensive and may very well involve taking a life-time loan. A home loan will circumvent the need for finances which you might not possess right now to buy your dream house. It is equivalent to buying something in present with future money. Home loan gives tangible and very realistic hopes of a future of home ownership to the borrowers. However, only those who have borrowed before would know how complex the business of first looking for a right lender, then taking a loan and finally managing it for the rest of repayment period can be. This book is a simple approach to educating yourself about all there is at the end of the home loan tunnel. Potential homeowners and real estate developers alike will find significant insights about taking and managing a mortgage in the Indian market. It is one of the most comprehensive and complete works done on home loan management. A perfect guide to potential and existing homeowners who have taken or are planning to undertake a home loan. It is a step-by-step guide to buying a house on a home loan and then managing the mortgage stress, both mental and monetary, which comes with it. This book will be your guide to eliminate the stress and confusion, and provide clear cut answers to borrowing related questions through the insights of mortgage counseling experts. It covers a wide range of topics including getting the best home loan deal, understanding the terms & conditions and managing the loan. Sachin Mittal

Organizations face many challenges in managing ever-increasing documents that they need to conduct their businesses. IBM® content management and imaging solutions can capture, store, manage, integrate, and deliver various forms of content throughout an enterprise. These tools can help reduce costs associated with content management and help organizations deliver improved customer service. The advanced document capture capabilities are provided through IBM Datacap software. This IBM Redbooks® publication focuses on Datacap components, system architecture, functions, and capabilities. It explains how Datacap works, how to design a document image capture solution, and how to implement the solution using Datacap Developer Tools, such as Datacap FastDoc (Admin). FastDoc is the development tool that designers use to create rules and rule sets, configure a document hierarchy and task profiles, and set up a verification panel for image verification. A loan application example explains the advanced technologies of IBM Datacap Version 9. This scenario shows how to develop a versatile capture solution that is able to handle both structured and unstructured documents. Information about high availability, scalability, performance, backup and recovery options, preferable practices, and suggestions for designing and implementing an imaging solution is also included. This book is intended for IT architects and professionals who are responsible for creating, improving, designing, and implementing document imaging solutions for their organizations.

Ironic, isn't it? For more than a quarter century, Pat Oliphant

has skewered the denizens of Congress with his biting sharp editorial cartoons. Now, in an exhibit and this companion volume, Oliphant is honored in the very repository of that illustrious body: The Library of Congress. Oliphant is, after all, the most important political cartoonist of the 20th century. His trademark wit -- shared with the adoring fans who read almost 350 daily and Sunday newspapers that carry his work -- has impaled presidents, dogged members of Congress, and critiqued a whole host of issues. From Vietnam to Bosnia, from Lyndon Johnson to Bill Clinton, Pat Oliphant has applied his considerable talent to the workings of the world. Oliphant's Anthem will catalog the 60 drawings, sculptures, and various art media that will be exhibited as a special tribute to Pat Oliphant's art in March 1998 at the Library of Congress. Interviews with the artist throughout the book will highlight his thoughts, concerns, and considerations as he has created this impressive body of work. Printed on glossy enamel stock, the black and white book will include an eight-page color signature. It is certain to be a collectible edition for Oliphant fans everywhere.

This publication provides orientation, basic considerations and general principles for those institutions and

organizations that provide credit and microfinance services to the fisheries sector, particularly the small-scale fisheries sector, and for those who want to include inland fishers and inland capture fisheries as part of their client base and lending operations. The document has three parts. Part 1 contains guidelines for meeting the credit and microfinance needs in inland capture fisheries development and conservation in Asia. Part 2 contains reports of the proceedings and recommendations of two regional workshops held in 2004 and 2006, from which the guidelines evolved. Part 3 of the document consists of case studies and success stories on: the rehabilitation of inland fisheries and on the access to and utilization of credit and microfinance services with reference to the rehabilitation and development of inland fisheries at Lake Taihu and Lake Luoma in China; management challenges in riverine fisheries along River Ganga and prospects of inland fisheries development in West Bengal and Assam in India; livelihoods at Lake Inlay in Southern Shan State in Myanmar; fishery policy reform and aquaculture development in Cambodia; and community-based rehabilitation and management of fishery resources at river Kinabatangan in Sabah, Malaysia.
