This introductory text provides readers with a robust understanding of tourism and its industries, including how destinations are developed, marketed and managed, and how tourism impacts communities,

---

environments and economies. The authors discuss the critical issues affecting 21st century tourism, such as sustainability, the climate crisis, globalisation, community, technology, the environment and the sharing economy. The text has been fully updated in light of the Covid-19 pandemic and its notable, and in some cases lasting, impacts on the tourism industry. The text features new mini-case studies (snapshots) and international case studies from countries around the globe including USA, Saudi Arabia, India, China, New Zealand, Australia, Namibia and the UK. It discusses the latest

trends in transport, hospitality, attractions and the travel trade and includes examples from major tourism companies including Trip.com, TUI and Airbnb. The book is suitable for students who are starting their tourism studies as part of their college or university education. Clare Inkson is a Senior Lecturer in Tourism and Course Leader of BA Tourism with Business at the University of Westminster, London. Lynn Minnaert is the Academic Director and Clinical Associate Professor at New York University 's Jonathan M. Tisch Center for Hospitality and Tourism.

What would you do if you discovered your whole life to be a lie? Daniel Henstock thinks he's an ordinary schoolboy but on his sixteenth birthday his world is turned upside down. He is the world's first one-hundred percent genetically-engineered human - assigned the codename Tiberius - and Gregory Dryden, the man responsible, wants him back so that he can continue his deadly experiments. Running for his life, Daniel flees to New York and is forced to go 'off-grid'. In this near-future America, where the security-obsessed authorities require citizens to carry DNA cards, Daniel meets the feisty and beautiful Eleanor. But by falling for her, Daniel also puts her in terrible danger. Daniel pursues the facts about his origins but is hunted by an

agent sent by Dryden to bring him to heel. Can Daniel find out the truth whilst trying to evade those who think they own him? As his enemies close in Daniel must draw on resources he never knew he had to win his freedom - but in doing so he may be walking into a deadly trap ...

TIBERIUS FOUND is the first instalment in a thrilling series - The Emperor Initiative - that introduces an engaging new hero that will appeal to fans of Alex Rider and Jason Bourne. Sick Broadview Press

troublemakers—the ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates.
