of the most important  
books I ' ve ever  
read—an  
indispensable guide to  
thinking clearly about  
the world. " – Bill  
Gates " Hans Rosling  
tells the story of ' the  
secret silent miracle of  
human progress ' as  
only he can. But  
Factfulness does much  
more than that. It also  
explains why progress

Gates "Factfulness by  
Hans Rosling, an  
outstanding  
international public  
health expert, is a  
hopeful book about  
the potential for  
human progress when

we work off facts rather  
than our inherent  
biases." - Former U.S.  
President Barack  
Obama Factfulness:  
The stress-reducing  
habit of only carrying  
opinions for which you  
have strong supporting  
facts. When asked  
simple questions about  
global trends—what  
percentage of the  
world ' s population  
live in poverty; why the  
world ' s population is  
increasing; how many  
girls finish school—we  
systematically get the  
answers wrong. So  
wrong that a  
chimpanzee choosing  
answers at random will  
consistently outguess  
teachers, journalists,  
Nobel laureates, and  
investment bankers. In  
Factfulness, Professor  
of International Health  
and global TED  
phenomenon Hans  
Rosling, together with  
his two long-time

collaborators, Anna  
and Ola, offers a  
radical new  
explanation of why this  
happens. They reveal  
the ten instincts that  
distort our  
perspective—from our  
tendency to divide the  
world into two camps  
(usually some version  
of us and them) to the  
way we consume  
media (where fear  
rules) to how we  
perceive progress  
(believing that most  
things are getting  
worse). Our problem is  
that we don ' t know  
what we don ' t know,  
and even our guesses  
are informed by  
unconscious and  
predictable biases. It  
turns out that the  
world, for all its  
imperfections, is in a  
much better state than  
we might think. That  
doesn ' t mean there  
aren ' t real concerns.  
But when we worry

about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “ This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be. ” Hans Rosling, February 2017.
