Amos the mouse and Boris the whale: a devoted pair of friends with nothing at all in common, except good hearts and a willingness to help their fellow mammal. They meet after Amos sets out to sea in his homemade boat, the Rodent, and soon finds himself in extreme need of rescue. Enter Boris. But there will come a day, long after Boris has gone back to a life of whaling about and Amos has gone back to his life of mousing around, when the tiny mouse must find a way to rescue the great whale. The tender yet comical story of this friendship is recorded in text and pictures that are a model of rich simplicity. Here, with apparent ease and concealed virtuosity, Caldecott medalist William Steig brings two winning heroes to life. Amos & Boris is a 1971 New York Times Book Review Best Illustrated Book of the Year, Notable Children's Book of the Year, and Outstanding Book of the Year.

This National Book Award finalist by Pulitzer Prize-winning novelist Louise Erdrich is the first installment in an essential nine-book series chronicling 100 years in the life of one Ojibwe family, and includes beautiful interior black-and-white artwork done by the author. She was named Omakayas, or Little Frog, because her first step was a hop. Omakayas and her family live on an island in Lake Superior. Though there are growing numbers of white people encroaching on their land, life continues much as it always has. But the satisfying rhythms of their life are shattered when a visitor comes to their lodge one winter night, bringing with him an invisible enemy that will change things forever—but that will eventually lead Omakayas to discover her calling. By turns moving and humorous, this novel is a breathtaking tour de force by a gifted writer. The beloved and essential Birchbark House series by Louise Erdrich includes *The Birchbark House*, *The Game of Silence*, *The Porcupine Year*, *Chickadee*, and *Makoons*.

The Odyssey is one of the oldest works of Western literature, dating back to classical antiquity. Homer's epic poem belongs in a collection called the Epic Cycle, which includes the Iliad. It was originally written in ancient Greek, utilizing a dactylic hexameter rhyme scheme. Although this rhyme scheme sounds beautiful in its native language, in modern English it can sound awkward and, as Eric McMillan humorously describes it, resembles "pumpkins rolling on a barn floor." William Cullen Bryant avoided this problem by composing his translation in blank verse, a rhyme scheme that sounds natural in English. This epic poem follows Ulysses,

one of the Greek leaders that brought an end to the ten-year-long Trojan war. Longing for home, he travels across the Mediterranean Sea to return to his kingdom in Ithaca; unfortunately, our hero manages to anger Neptune, the god of the sea, making his trip home agonizingly slow and extremely dangerous. While Ulysses is trying to return home, his family in Ithaca is also in danger. Suitors have traveled to the home of Ulysses to marry his wife, Penelope, believing that her husband did not survive the war. These men are willing to kill anyone who stands in their way. Set against the current proliferation of global "difference" and economic realignment, *Critical Dispositions* explores the notions of "evidence" and "expertise" in times of material scarcity. Both have come to the forefront of national and international debate in education as "evidence" and "evidence-based" research and pedagogical practices continue as major trends in educational policy. Author Greg Dimitriadis maintains this debate is best understood as part of a broader rise in professional and managerial discourses in various aspects of educational research and practice. Each aims to control and contain some aspect of research and practice in ways that are increasingly specific and targeted. As demonstrated through examples from critical intellectuals and artists outside the field of education, this current proliferation of specific, autonomous fields of inquiry and practice marks a much deeper ambivalence about our contemporary moment and how we understand it. Following Bourdieu and other theorists, Dimitriadis argues that educational researchers and practitioners today must be increasingly self-reflexive about the positions they take up in various fields of inquiry, what they allow us to see and to understand, what they blind us to. This kind of self-reflexivity, however, is becoming increasingly difficult today as material demands and dislocations are forcing educators to occupy particular fields in more specific ways. Unpacking this tension and offering alternative "thinking tools" is at the core of this volume.

Few writers ask us to question our fundamental assumptions about education as provocatively as Alfie Kohn. Time magazine has called him 'perhaps the country's most outspoken critic of education's fixation on grades [and] test scores.' And the Washington Post says he is 'the most energetic and charismatic figure standing in the way of a major federal effort to make standardized curriculums and tests a fact of life in every U.S. school.' In this new collection of essays, Kohn takes on some of the most important and controversial topics in education of the last few years. His central focus is on the real goals of education—a topic, he argues, that we systematically ignore while lavishing attention on misguided models of learning and counterproductive techniques of motivation. The shift to talking about goals yields radical conclusions and wonderfully pungent essays that only Alfie Kohn could have written. From the title essay's challenge to conventional, conservative definitions of a good education to essays on standards and testing and grades that tally the severe educational costs of overemphasizing a narrow conception of achievement, Kohn boldly builds on his earlier work and writes for a wide audience. Kohn's new book will be greeted with enthusiasm by his many readers and by any teacher or parent looking for a refreshing perspective on today's debates about schools.

With the death of George Washington, symbol of American unity and a man who abhorred factions, comes the two party system. And with it, comes inherent struggle that the young nation is ill prepared for. A dashing Aaron Burr has a grip on New York, and a coup d'etat is planned that could bring the two leaders down. Madison learns that Napoleon Bonaparte has forced the Spanish to turn New Orleans over to him and thereby potentially take control of the Mississippi River Valley. A country as strong as France could stop the aspiring free trade market growing on the Mississippi River, including the business of widow Danny Mulberry, a New Orleans shipping tycoon and one of the most sought after woman in New Orleans. As the young nation's hands are forced economically and politically by
