**My New Orleans** Lulu.com  
This reference traces the historical background of editorial cartooning and presents works that chronicle the history and criticize the aesthetics of the art. It also describes anthologies and exhibition catalogs that reprint editorial cartoons, and provides a list of libraries, museums, and historical societies which house originals and photocopies or clippings of editorial cartoons. This expansive volume examines the American editorial cartoon

from its beginnings in 1747 into the second Clinton administration. It fills a gap in the literature, providing comprehensive information on a field of growing interest to scholars and collectors. This reference guide studies the evolution of editorial cartooning and places it in its historical context and provides appreciation and criticism of the cartoons presented. In addition to political cartoons, underground, radical, and propaganda cartoons are also discussed in this volume. The

---

appendixes offer important cross-reference tools such as a chronology and include listings of selected historical periodicals, theses, and dissertations covering political cartoons. This work will be of value to a broad spectrum of readers—from collectors to scholars—and is suitable for many fields of study.

Media And Revolution Sterling Publishing Company

Profiles the man who was the primary author of the Declaration of Independence and who later went on to become the third president of the United States.

History of a free nation.

*Animation, Caricature, and Gag and Political Cartoons in the United States and Canada* Yale University Press

A political history of how the fledgling American republic developed into a democratic state offers insight into how historical beliefs about democracy compromised democratic progress and identifies the roles of key contributors.

*Cartoons Magazine* Pelican Publishing

A history of major financial crises--and how taxpayers have been left with the bill In the 1930s, battered and humbled by the Great Depression, the U.S. financial sector struck a grand bargain with the federal government. Bankers gained a safety net in exchange for certain curbs on their freedom: transparency rules, record-keeping and antifraud measures, and fiduciary responsibilities. Despite subsequent periodic changes in these regulations,

---

the underlying bargain played a major role in preserving the stability of the financial markets as well as the larger economy. By the free-market era of the 1980s and 90s, however, Wall Street argued that rules embodied in New Deal-era regulations to protect consumers and ultimately taxpayers were no longer needed--and government agreed. This engaging history documents the country's financial crises, focusing on those of the 1920s, the 1980s, and the 2000s, and reveals how the two more recent crises arose from the neglect of this fundamental bargain, and how taxpayers have been left with the bill.

*Editor & Publisher* Copyright Office, Library of Congress

This fully updated new edition provides readers with a comprehensive understanding of the challenges that English language learners (ELLs), also known as English Learners (ELs), face, as well as the ways in which educators might address them in the social studies classroom. The authors offer

context-specific strategies for the full range of the social studies curriculum, including geography, U.S. history, world history, economics, and government. These practical instructional strategies will effectively engage learners and can be incorporated as a regular part of instruction in any classroom. Features of this fully updated new edition include:

- An updated and streamlined introduction, which provides an essential overview of ELL theory in a social studies-specific context;
- "Teaching Tips" that offer helpful suggestions and ideas for creating and modifying lesson plans to be inclusive of English Learners;
- Practical examples and pedagogical elements in Part 3, which include more visuals, suggestions for harnessing new technologies, discussion questions, and reflection points; and
- Useful lists of online and print resources for teachers and students.

Teaching Social Studies to English Language Learners is a valuable reference to help pre- and in-service social studies educators meet the challenges of including all

---

learners in effective instruction.

## **Editorial Cartooning and Caricature**

Bloomsbury Publishing USA

Relatively little attention has been paid to American military history between 1783 and 1812—arguably the most formative years of the United States. This encyclopedia fills the void in existing literature and provides greater understanding of how the nation evolved during this era. This encyclopedia offers a comprehensive examination of U.S. military history from the beginning of the republic in 1783 up to the eve of war with Great Britain in 1812. It enables a detailed study of the Early Republic, during which ideological and political divisions occurred over the fledgling U.S. military. The entries cover all

the important battles, key individuals, weapons, Indian nations, and treaties, as well as numerous social, political, cultural, and economic developments during this period. The contents of the work will enable readers at the high school, college, university, and even graduate level to comprehend how political parties emerged, and how ideological differences over the organization, size, and use of the military developed. Larger global developments, including Anglo-American and Franco-American interactions, relations between Middle Eastern states and the United States, and relations and warfare between the U.S. government and various Indian nations are also detailed. The extensive and detailed bibliographies will be immensely helpful to

---

learners at all levels.

*Good for Society* Holt McDougal

What was the Missouri Compromise? What were its significant contributions to American history? What lessons were learned after effects of the Missouri Compromise were felt? There is a lot to learn from this history book for fifth graders. Aside from technical definitions, the contents of the book will also brush on the expansion of slavery and threats to national unity. Read this book now!

*The American Legion Monthly* WestBow Press

As television screens across America showed Chinese students blocking government tanks in Tiananmen Square, the fall of the Berlin Wall, and missiles searching their targets in Baghdad, the connection between media and revolution seemed more significant than ever. In this book, thirteen

prominent scholars examine the role of the communication media in revolutionary crises—from the Puritan Revolution of the 1640s to the upheaval in the former Czechoslovakia. Their central question: Do the media in fact have a real influence on the unfolding of revolutionary crises? On this question, the contributors diverge, some arguing that the press does not bring about revolution but is part of the revolutionary process, others downplaying the role of the media. Essays focus on areas as diverse as pamphlet literature, newspapers, political cartoons, and the modern electronic media. The authors' wide-ranging views form a balanced and perceptive examination of the impact of the media on the making of history.

Good for Society: Christian Values and Conservative Politics In 'Good for Society'  
Martin Parsons has written a book well

---

worthy of its sub title ‘Christian Values and Conservative Politics.’. Good for Society is a robust defence of both our Christian heritage and the Conservative Party. Rt Hon Lord Tebbit CH, former Chairman of the Conservative Party, Secretary of State for Trade and Industry and Secretary of State for Employment This is a magnificent, detailed and authoritative examination of the relevance of Christian teaching to today’s Conservative Party. Even when you do not agree with a deduction you are still challenged. Rt Hon Ann Widdecombe, former Conservative MP and Shadow Home Secretary Dr Parsons brings together expertise in politics, careful biblical study, research in Islam and experience of life under the Taliban in Afghanistan. He mounts a powerful case for identifying Christian values and view of the world in the development of the laws, liberties and institutions of the English speaking peoples. He also identifies these values in the approaches of Conservative politics and politicians. These must be recovered in order to develop a narrative and values to address the threat of Islamism which seeks to impose sharia both subtly and violently. Liberal secularists who might disagree with Dr Parsons need to demonstrate a more convincing case than he presents on all fronts. Canon Dr Chris Sugden, Oxford Centre for Religion and Public Life Christians in many parts of the world, who are influenced by progressivism, reject Conservative values on social policy by

---

default. They uncritically assume that big government, redistribution of wealth and other leftist policies are closer to the teaching of Scripture, while capitalism, wealth creation, individualism and other Conservative values represent greed, oppression and injustice. Dr Martin Parsons turns this myth on its head. Exploring the great philosophical and historical traditions of Conservatism and expounding the teaching of the Bible, he demonstrates that Conservatism is firmly rooted in the Judeo-Christian worldview. Dr Parsons has written the definitive book on Conservatism and Christianity. I wish this book were written years ago. It would have saved me from years of wandering in the desert of progressivism. Rev. Dr Jules Gomes,

theologian and political journalist  
[The American Monthly Review of Reviews](#)  
Wildside Press LLC

A tour of American history from George Washington to the present through the eyes of our best-known cartoonists.

**History of the Committee on Finance, United States Senate** National Geographic Kids

Discusses the Louisiana Purchase of 1803 and the political maneuverings of Napoleon and Jefferson that made it possible.

---

Special Exhibition Catalogue Univ. Press of Mississippi

This two-volume set surveys the profound impact of political humor and satire on American culture and politics over the years, paying special attention to the explosion of political humor in today's wide-ranging and turbulent media environment. Historically, there has been a tendency to regard political satire and humor as a sideshow to the wider world of American politics—entertaining and sometimes insightful, but ultimately only of modest interest to students and others surveying the trajectory of American politics and culture. This set documents just how mistaken that assumption is. By examining political humor and satire throughout US history, these volumes not only illustrate how expressions of political satire and humor reflect

changes in American attitudes about presidents, parties, and issues but also how satirists, comedians, cartoonists, and filmmakers have helped to shape popular attitudes about landmark historical events, major American institutions and movements, and the nation's political leaders and cultural giants. Finally, this work examines how today's brand of political humor may be more influential than ever before in shaping American attitudes about the nation in which we live.

**Rise of American Democracy** Greenwood  
Carolyn Kolb provides a delightful and detailed look into the heart of her city, New Orleans. She is a former Times-Picayune reporter and current columnist for New Orleans Magazine, where versions of these essays appeared as “Chronicles of Recent History.” Kolb takes her readers, both those

---

who live in New Orleans and those who love it as visitors, on a virtual tour of her favorite people and places. Divided into sections on food, Mardi Gras, literature, and music, these short essays can be read in one gulp or devoured slowly over time. Either way, the reader will find a welcome companion and guide in Kolb. In bringing her stories up to date, Kolb's writings reflect an ongoing pattern of life in her fascinating city. Since the devastation of Hurricane Katrina in 2005, some of these things remembered will never return. Some of the people whose stories Kolb tells are no longer with us. It is important to her, and to us, that they are not forgotten. Kolb, and her readers, can honor them by sharing and enjoying their stories. As Kolb says, "When things fail, when the lights go out and the roof caves in and the water rises, all that remains, ultimately, is the story." This collection of such stories was made with love.

*Never an Island* Princeton Review

Inside this book are short biographical sketches about the many artists represented in the Library of Congress' Swann Collection compiled by Erwin Swann (1906-1973). In the early 1960s, Swann, a New York advertising executive started collecting original cartoon drawings of artistic and humorous interest. Included in the collection are political prints and drawings, satires, caricatures, cartoon strips and panels, and periodical illustrations by more than 500 artists, most of whom are American. The 2,085 items range from

---

1780-1977, with the bulk falling between 1890-1970. The Collection includes 1,922 drawings, 124 prints, 14 paintings, 13 animation cels, 9 collages, 1 album, 1 photographic print, and 1 scrapbook.

**Catalog of Printed Books. Supplement**

Greenwood

One of four volumes dealing with the world of comic art, this volume is a comprehensive, international bibliography dealing with animation, caricature, gag, illustrative, magazine, and political cartoons in the United States and Canada.

Reflecting the substantial growth of comic art literature in recent years, it is representative of various types of publications, writing formats and styles, and languages from all over the world. The four volumes attempt for the first time to pull together the massive amount of comic art literature worldwide. Organized with meticulous detail, the work consists of numerous resources, including an

annotated directory of 66 comic art-related periodicals; a section of comic art functions, activities, and relationships with various socio-cultural phenomena, such as education, eroticism, ethnicity, race, social consciousness, and violence; as well as historical and contemporary parts on animation, caricature, gag cartoons, and political cartoons. At least 224 animators, caricaturists, and cartoonists are singled out for special prominence. Business, legal, and technical aspects of each genre make up other categories. The book is enhanced by Maurice Horn's foreword, retracing the pioneer work he and others did in the field of comic art studies. To further help the user, the indices are systematically broken down by authors, cartoonists, characters and titles, periodicals, and subjects.

**Holt Social Studies: United States History**

Lulu.com

A comprehensive overview of the wars that saw the United States emerge as a world

---

power; one that had immense implications for America, especially in Latin America and Asia. ABC-CLIO, acclaimed publisher of superior references on the United States at war, revisits a pivotal moment in America's coming-of-age with *The Encyclopedia of the Spanish-American and Philippine-American Wars: A Political, Social, and Military History*. Again under the direction of renowned scholar Spencer Tucker, the encyclopedia covers the conflict between the United States and Spain with a depth and breadth no other reference works can match. The encyclopedia offers two complete volumes of alphabetically organized entries written by some of the world's foremost historians, covering everything from the course of the wars to

relevant economic, social, and cultural matters in the United States, Spain, and other nations. Featuring a separate volume of primary-source documents and a wealth of images and maps, the encyclopedia portrays the day-to-day drama and lasting legacy of the war like never before, guiding readers through a seminal event in America's transition from the Gilded Age to the Progressive Era.

**Teaching Social Studies to English Language Learners** W. W. Norton & Company

Early European explorers regularly portrayed California as an island on their maps, mistaking the Gulf of California as extending northward without limit. This volume is written to show that California history can also be presented in a different way: its thesis, plainly stated, is that

---

California (despite all of its unique qualities) has never been an island.
