Sam Trainor's career of overseas work coupled with a penchant for being outspoken has left him on the outside of the competitive Washington establishment. Formerly the top South Asia expert in the State Department's Bureau of Intelligence and Research, Trainor has moved to the private sector, working as an analyst for the consulting firm Argus Systems. But Sam soon discovers that for all their similarities, the government and their hired contractors have vastly different motives. As he struggles to adjust to a more corporate, profit-driven version of the work that had been his life, he stumbles across an intelligence anomaly--the transcript of a phone conversation about the fastest ways to upend the delicate political balance keeping India and Pakistan from all-out war. Yet Sam knows that conversation can't have occurred--because he is having an affair with one of the alleged participants. As he digs into the source of this misinformation, he realizes that more is at stake than just bad intel. Someone is deliberately twisting the intelligence to stoke the simmering conflict between India and Pakistan, nuclear-armed rivals that have already fought multiple wars. And Sam's new employer could be up to its neck in it. From the Hardcover edition.

Mainstream economics ignores or distorts the most fundamental aspect of this reality: that the vast majority of people must, out of necessity, labor on behalf of others, transformed into nothing but a means to the end of maximum profits for their employers. The nature of the work we do and the conditions under which we do it profoundly shape our lives. And yet, both of these factors are peripheral to mainstream economics. By sweeping labor under the rug, mainstream economists hide the nature of capitalism, making it appear to be a system based upon equal exchange rather than exploitation inside every workplace.

From the New York Times bestselling author, K. Bromberg, comes a new standalone in her Everyday Heroes world that proves true love will always stand the test of time. "I hate you. I never want to see you again." Grant Malone is not the reason I moved back to Sunnyville—at least that's what I tell myself. Yet, those parting words I said to him back in third grade, ring in my ears every time a townsperson brings up one of the Malone boys. I thought time had healed my wounds. I was wrong. Nothing could have prepared me for how I felt when I finally saw him again.

Twenty years does a lot to turn a boy into a man. One who hits all my buttons—sexy, funny, attractive, and a police officer. But Grant is off limits because he knows too much about my past. But I'm drawn to him. That damn uniform of his doesn't hurt either. It'll be my downfall. I know it. What's one night of sex going to hurt... right? \*\*\* I've always loved Emmy Reeves. That's why I'm shocked to see her all these years later. The shy girl I once knew is all grown up. Adventurous and full of life, she owns my heart now, just as much as she did back then. Convincing her of that is a whole different story. I'll give her the one night she asks for—like that's a hardship—but when it comes to letting her walk away after, she has another

thing coming. There's no way in hell I'm letting her go this time without a fight. Read what others are saying about New York Times bestselling author, K. Starting with William Godwin's Caleb Williams and Charles Brockden Brown's Edgar Huntly, this book covers in detail the great works of detective fiction--Poe's Dupin stories, Conan Doyle's The Adventures of Sherlock Holmes, Christie's The Murder of Roger Ackroyd, Sayers' Strong Poison, Chandler's The Big Sleep, and Simenon's The Yellow Dog. Lesser-known but important early works are also discussed, including Wilkie Collins' The Woman in White, Emile Gaboriau's M. Lecoq, Anna Katharine Green's The Leavenworth Case and Fergus Hume's The Mystery of a Hansom Cab. More recent titles show increasing variety in the mystery genre, with Patricia Highsmith's criminal-focused The Talented Mr. Ripley and Chester Himes' African-American detectives in Cotton Comes to Harlem. Diversity develops further in Sara Paretsky's tough woman detective V.I. Warshawski in Indemnity Only, Umberto Eco's medievalist and postmodern The Name of the Rose and the forensic feminism of Patricia Cornwell's Postmortem. Notably, the best modern crime fiction has been primarily international--Manuel Vasquez Montalban's Catalan Summer Seas, Ian Rankin's Edinburgh-set The Naming of the Dead, Sweden's Stieg Larsson's The Girl with a Dragon Tattoo and Vikram Chanda's Mumbai-based Sacred Games.
