Regarded as one of the most important sociological and business commentaries of modern times, The Organization Man developed the first thorough description of the impact of mass organization on American society. During the height of the Eisenhower administration, corporations appeared to provide a blissful answer to postwar life with the marketing of new technologies—television, affordable cars, space travel, fast food—and lifestyles, such as carefully planned suburban communities centered around the nuclear family. William H. Whyte found this phenomenon alarming. As an editor for Fortune magazine, Whyte was well placed to observe corporate America; it became clear to him that the American belief in the perfectibility of society was shifting from one of individual initiative to one that could be achieved at the expense of the individual. With its clear analysis of contemporary working and living arrangements, The Organization Man rapidly achieved bestseller status. Since the time of the book's original publication, the American workplace has undergone massive changes. In the 1990s, the rule of large corporations seemed less relevant as small entrepreneurs made fortunes from new technologies, in the process bucking old corporate trends. In fact this "new economy" appeared to have doomed Whyte's original analysis as an artifact from a bygone day. But the recent collapse of so many startup businesses, gigantic mergers of international conglomerates, and the reality of economic globalization make The Organization Man all the more essential as background for understanding today's global market. This edition contains a new foreword by noted journalist and author Joseph Nocera. In an afterword Jenny Bell Whyte describes how The Organization Man was written.

The official report from the House Intelligence Committee on Donald Trump's secret pressure campaign against Ukraine, featuring an exclusive introduction by Pulitzer Prize-winning author and biographer Jon Meacham. For only the fourth time in American history, the House of Representatives has conducted an impeachment inquiry into a sitting United States president. This landmark document details the findings of the House Intelligence Committee's historic investigation of whether President Donald J. Trump committed impeachable offenses when he sought to have Ukraine announce investigations of former vice president Joe Biden and his son Hunter. Penetrating a dense web of connected activity by the president, his ambassador Gordon Sondland, his personal attorney Rudolph Giuliani, and many others, these pages offer a damning, blow-by-blow account of the president's attempts to "use the powers of his office to solicit foreign interference on his behalf in the 2020 election" and his subsequent attempts to obstruct the House investigation into his actions. Published here with an introduction offering critical context from bestselling presidential historian Jon Meacham, The Impeachment Report is necessary reading for every American concerned about the fate of our democracy.

Are Islam and the West on a collision course? From the Ayatollah Khomeini to Saddam Hussein, the image of Islam as a militant, expansionist, and rabidly anti-American religion has gripped the minds of Western governments and media. But these perceptions, John L. Esposito writes, stem from a long history of

mutual distrust, criticism, and condemnation, and are far too simplistic to help us understand one of the most important political issues of our time. In this new edition of *The Islamic Threat: Myth or Reality?*, Esposito places the challenge of Islam in critical perspective. Exploring the vitality of this religion as a global force and the history of its relations with the West, Esposito demonstrates the diversity of the Islamic resurgence—and the mistakes our analysts make in assuming a hostile, monolithic Islam. This third edition has been expanded to include new material on current affairs in Turkey, Afghanistan, Palestine, and Southeast Asia, as well as a discussion of international terrorism.

With Essays by Baru, Bart Beaty, Cé cile Vernier Danehy, Hugo Frey, Pascal Lef è vre, Fabrice Leroy, Amanda Macdonald, Mark McKinney, Ann Miller, and Clare Tufts In Belgium, France, Switzerland, and other French-speaking countries, many well-known comics artists have focused their attention on historical and political events. In works ranging from comic books and graphic novels to newspaper strips, cartoonists have addressed such controversial topics as French and Belgian collaboration and resistance during World War II, European colonialism and U.S. imperialism, anti-Semitism in France, the integration of African immigrant groups in Europe, and the green and feminist movements. *History and Politics in French-Language Comics and Graphic Novels* collects new essays that address comics from a variety of viewpoints, including a piece from practicing artist Baru. The explorations range from discussion of such canonical works as Herg é's Tintin series to such contemporary expressions as Baru's *Road to America* (2002), about the Algerian War. Included are close readings of specific comics series and graphic novels, such as Cé cile Vernier Danehy's examination of Cosey's *Saigon Hanoi*, about remembering the Vietnam War. Other writers use theoretical lenses as a means of critiquing a broad range of comics, such as Bart Beaty's Bourdieu-inspired reading of today's comics field, and Amanda Macdonald's analysis of *bandes dessin é es* (French comic books) in New Caledonia during the 1990s. The anthology establishes the French-language comics tradition as one rich with representations of history and politics and is one of the first English-language collections to explore the subject.

A morbidly fascinating and articulate collection of essays, this book explores the grim underside of America's cult of the automobile and the disturbing, frequently conspiratorial, speculations that arise whenever the car becomes the cause or the site of human death. Through analysis of fatal celebrity car accidents and other examples of death by automobile, as well as through personal memoir and forensic reports, cultural critics ponder our very human fascination with the car crash. Topics include the roles and experiences of passengers and bystanders, car crash conspiracy theories, the automobile as a site of murder, studies of car crash cinema, and psychological interpretations of the notion of the 'accident.' The book features original essays by such underground icons as Kenneth Anger and Adam Parfrey.

I am aware that, once my pen intervenes, I can make whatever I like out of what I was.' Paul Val é ry, *Moi*. Modernism is often characterized as a movement of impersonality; a rejection of auto/biography. But most of the major works of European modernism and postmodernism engage in very profound and central ways with questions about life-writing. Max Saunders explores the ways in which modern writers from the 1870s to the 1930s experimented with forms of life-writing - biography, autobiography, memoir, diary, journal - increasingly for the purposes of fiction. He identifies a wave of new hybrid forms from the late nineteenth century and uses the term 'autobiografiction' - discovered in a surprisingly early essay of 1906 - to provide a fresh perspective on turn-of-the-century literature, and to propose a radically new literary history of Modernism. Saunders offers a taxonomy of the extraordinary variety of experiments with life-writing, demonstrating how they arose in the nineteenth century as the pressures of secularization and psychological theory disturbed the categories of biography and autobiography, in works by authors such as Pater, Ruskin, Proust, 'Mark Rutherford', George Gissing, and A. C. Benson. He goes on to look at writers experimenting further with autobiografiction as Impressionism turns into Modernism, juxtaposing detailed and vivacious readings of key Modernist texts by Joyce, Stein, Pound, and Woolf, with explorations of the work of other authors - including H. G. Wells, Henry James, Joseph Conrad, Ford Madox Ford, and Wyndham Lewis - whose experiments with life-writing forms are no less striking. The book concludes with a consideration of the afterlife of these fascinating experiments in the postmodern literature of Nabokov, Lessing, and Byatt. *Self Impression* sheds light on a number of significant but under-theorized issues; the meanings of 'autobiographical', the generic implications of literary autobiography, and the intriguing relation between autobiography and fiction in the period.

Dear Reader, Life is great for me. I have my chicory coffee, my warm beignets, and my best friend on the cell phone. Once the sun goes down, I am the baddest thing prowling the night: I command the elements, and I know no fear. For centuries, I've protected the innocent and watched over the mankind, making sure they are safe in a world where nothing is ever certain. All I want in return is a hot babe in a red dress, who wants nothing more from me than one night. Instead, I get a runaway Mardi Gras float that tries to turn me into roadkill and a beautiful woman who saves my life but can't remember where she put my pants. Flamboyant and extravagant, Sunshine Runningwolf should be the perfect woman for me. She wants nothing past tonight, no ties, no long-term commitments. But every time I look at her, I start yearning for dreams that I buried centuries ago. With her unconventional ways and ability to baffle me, Sunshine is the one person I find myself needing. But for me to love her would mean her death. I am cursed never to know peace or happiness-not so long as my enemy waits in the night to destroy us both. --Talon of the Morigantes

The world order built upon the Peace of Westphalia is faltering. State fragility or failure are endemic, with no fewer than one-third of the states in the United Nations earning a "high warning"-or worse-in the Fragile States Index, and an equal number suffering a decline in sustainability over the past decade.¹ State weakness invites a range of illicit actors, including international terrorists, globally networked insurgents, and transnational criminal organizations (TCOs). The presence and operations of these entities keep states weak and incapable of effective governance, and limit the possibility of fruitful partnerships with the United States and its allies. Illicit organizations and their networks fuel corruption, eroding state legitimacy among the governed, and sowing doubt that the state is a genuine guardian of the public interest. These networks can penetrate the state, leading to state capture, and even criminal sovereignty.² A growing number of weak and corrupt states is creating gaping holes in the global rule-based system of states that we depend on for our security and prosperity. Indeed, the chapters of this book suggest the emergence of a highly adaptive and parasitic alternative ecosystem, based on criminal commerce and extreme violence, with little regard for what we commonly conceive of as the public interest or the public good. The last 10 years have seen unprecedented growth in interactivity between and among a wide range of illicit networks, as well as the emergence of hybrid organizations that use methods characteristic of both terrorist and criminal groups. In a convergence of interests, terrorist organizations collaborate with cartels, and trafficking organizations collude with insurgents. International terrorist organizations, such as al-Qaeda and Hezbollah, engage energetically in transnational crime to raise funds for their operations. Prominent criminal organizations like Los Zetas in Mexico and D-Company in Pakistan have adopted the symbolic violence of terrorists-the propaganda of the deed-to secure their "turf." And networked insurgents, such as the Islamic State of Iraq and the Levant (ISIL), the Revolutionary Armed Forces of Colombia (FARC), and the Liberation Tigers of Tamil Eelam (LTTE), have adopted the techniques of both crime and terror.

But that was long ago. Lucas isn't about to let Valerie go. He needs her to help him find the Fey, last seen in the Colony of Roanoke, South Carolina, circa 1587. He still believes they are the key to restoring balance to the world and the only way to keep vampires under control. They won't trust him, but they will trust Val. Between Jack, Lucas and Rachel, Val knows life won't be dull. Nor will it be the normal, 2.5 kids kind of life she's always wanted. As their enemies close in, Val must ask herself what life is really about-trust, duty or mind-blowing orgasms? And even if she finds the answer, she may not live long enough to enjoy it. Please note-this novel is not YA and has lots of sass, swearing and sex. Not necessarily in that order.

Contract and Contagion presents a theoretical approach for understanding the shifts of post-Fordism and neoliberalism by way of a critical reading of contracts, and through an exploration of the shifting politics of the household. In this book Angela Mitropoulos takes up current and historical theories to elaborate a queer, anti-racist, feminist Marxism, which is to say: a Marxism preoccupied not with the seizure of opportunity to take power or form government, but a Marxism which partakes of the uncertain movements that break the bonds of fate.
