"The bestselling author of Love Is the Killer App unveils a methodology that sales managers and account executives can use to solve their team's toughest problems by combining the wisdom and creativity of everyone who has a stake in the sale. B2B sales reps often find that their deals get stuck at a crucial point in the decision-making process. This book is Tim Sanders's guide to breaking through the resistance and getting the deal unstuck using a scalable, repeatable process that he calls

"Dealstorming." By including a diverse group of individuals in the organization who has a stake in the sale, questioning existing assumptions, and channeling the collective experience of the group, sales teams can uncover creative solutions to closing otherwise impossible deals. In Sanders's experience as a sales executive and consultant, utilizing this process has led to a stunning 70 percent close ratio. Take, for example, the way Alyssa Wichman of CareerBuilder used dealstorming to break a deadlock with staffing firm Allegis. When she found out that Allegis was sponsoring a golf tournament to raise money for their favorite nonprofit, she and her team sat down to come up with ways to meet the Allegis executives there, going so far as to take over manning a beer cart on the course to speak with the execs on the ninth hole. They were impressed she'd gone to such lengths to have a few minutes with them, so they agreed to a meeting the following week. "--

Many of us live a mundane existence in which we get up, go to work, come home, and go to sleep. This cycle keeps repeating each and every day. The worst part is that we likely work a job that we don't enjoy doing, but we keep working that job in order to provide for our family. Stop right now and pay attention, because it doesn't have to be that way. This book; Stir Up the Gift Within, encourages

people to use their talents to do what they love. It teaches people exactly how to find their talents so that they can use them to pursue their passions in life. There are bigger dreams and goals lurking inside each and every one of us; we need to stir up that gift within us. The difference between successful people and ordinary people is that successful people take action and pursue their dreams. Ordinary people tend to accept what life has thrown at them without trying to make any changes or go against the ideals of society in order to seek out that better life. All successful people found a way to use their talents to do what they love.

The hardest part was learning how to do it, and that is exactly what you will learn in this book.

A man named Jesus, whom is considered the Christ by countless people around the world to this day, lost his life at the hands of barbarians while residing in Canaan, where he devoted his life to making those around him aware they had the potential to become gods. Despite the accumulation of so many technological innovations over the past two millennium that were supposed to ease the daily hardship of people everywhere, so more time could be devoted to pursuits that cultivate the mind, evidence indicates that the size of the Homo-sapien brain, male and female alike, has persistently decreased over this passage of time. The pain, and suffering, endured by Jesus was supposed to serve as a wake up call to the savages in his midst, and the generations to follow, that they had much to learn about what he means to be civilized, as we see amply evidence of to this very day.
