When teenagers began
hanging out at the mall in the
early 1980s, the movies
followed. Multiplex theaters

offered teens a wide array of perspectives on the coming-of-age experience, as well as an escape into the alternative worlds of science fiction and horror. Youth films remained a popular and profitable genre through the 1990s, offering teens a place to reflect on their evolving identities from adolescence to adulthood while simultaneously shaping and maintaining those identities. Drawing examples from hundreds of popular and lesser-known youth-themed films, Timothy Shary here offers a comprehensive examination of the representation of teenagers

in American cinema in the 1980s and 1990s. He focuses on five subgenres—school, delinquency, horror, science, and romance/sexuality—to explore how they represent teens and their concerns, how these representations change over time, and how youth movies both mirror and shape societal expectations and fears about teen identities and roles. He concludes that while some teen films continue to exploit various notions of youth sexuality and violence, most teen films of the past generation have shown an increasing diversity of adolescent

experiences and have been sympathetic to the particular challenges that teens face.

Pittsburgh is the birthplace of radio, the location of many of radio's first and most influential stations and broadcast personalities, and a key market for the development of new formats. Pittsburghers' reaction to the music they heard on the radio helped to break records and create

stars. Radio provided an unprecedented audience for live performances by local artists. After the big band era, radio gave voice to pop, rock and roll, and rhythm and blues. Pittsburgh's Golden Age of Radio celebrates the city's radio history, deejays, contests, concerts, public service, and promotions from radio's beginnings in the 1920s through the late 1970s, when listening on FM exceeded that on AM for the first time.

Pittsburgh's Golden Age of Radio Conran Octopus Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus

on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men ' s struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African ' tradition ' that has become a clich é in Eurocentric gender studies. Affective health

is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men ' s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how

men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including

anthropology, gender studies, African studies, psychology, and global health.

I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of

mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our happiness in check. Our smiles are met with a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinking chains from an uncertain future, chains of work, chains of relationships, chains of our

finances, too many chains to mention. My time away from work gave me the opportunity to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your

emotions, embrace
moments, and the
importance of spiritual
peace. I will teach you how
to live in thankfulness, with
compassion, while activating
love.
