The Spiritual Child Flatiron Books
A San Francisco Chronicle Lit Pick "Much of the book is astonishingly funny; the rest would break your heart." —Colm Tóibín Anne Enright is one of the most acclaimed novelists of her generation. The Gathering won the 2007 Man Booker Prize, and her follow-up novel, The Forgotten Waltz, garnered universal praise for her luminous language and deep insight into relationships. Now, in Making Babies, Enright offers a new kind of memoir: an unapologetic look at the very personal experience of becoming a mother. With a refreshing no-nonsense attitude, Enright opens up about the birth and first two years of her children’s lives. Enright was married for eighteen years before she and her husband Martin, a playwright, decided to have children. Already a confident, successful writer, Enright continued to work in her native Ireland after each of her two babies was born. While each baby slept, those first two years of life, Enright wrote, in dispatches, about the mess, the glory, and the raw shock of motherhood. Here, unfiltered and irreverent, are Enright’s keen reactions to the pains of pregnancy, the joys of breast milk, and the all-too-common pressures to be the “perfect” parent. Supremely observant and endlessly quizzical, Enright is never saccharine, always witty, but also deeply loving. Already a bestseller in the UK, Making Babies brings Enright’s autobiographical writing to American readers for the first time. Tender and candid, it captures beautifully just what it’s like for a working woman to become a mother. The result is a moving chronicle of parenthood from one of the most distinctive and gifted authors writing today.

Fit to Burst: Abundance, Mayhem, and the Joys of Motherhood WaterBrook

inspirational nonfiction for mothers

Long Days of Small Things Loving the Little Years: Motherhood in the Trenches
Fit to Burst is a book of parenting "field notes" written by a mom in the thick of it all. It is chock-full of humorous examples and fresh advice covering issues familiar to moms, such as guilt cycles, temptations to be ungrateful or bitter, enjoying your kids, and learning how to honor Jesus by giving even in the mundane stuff. But this book also addresses less familiar topics, including the impact moms have on the relationships between dads and kids, the importance of knowing when to laugh at kid-sized sin, and more. Fit to Burst will help us to be moms who parent with the story in mind rather than the snapshot, who know how to give much and to require much from their children in the everyday mayhem, and who understand the importance of biscuits. A note from Rachel: "I don't pull punches or hold back in this book, because I am writing to myself as much as to you. If something in this book strikes a little close to home for you, know that it struck in my home first. I am not writing about other people's problems, although I know many of them are common. I write about what I know, and what I know is the challenges, the joys, and the work involved in raising little people."

In The Spiritual Child, psychologist Lisa Miller presents the next big idea in psychology: the science and the power of spirituality. She explains the clear, scientific link between spirituality and health and shows that children who have a positive, active relationship to spirituality: * are 40% less likely to use and abuse substances * are 60% less likely to be depressed as teenagers * are 80% less likely to have dangerous or unprotected sex * have significantly more positive markers for thriving including an increased sense of meaning and purpose, and high levels of academic success. Combining cutting-edge research with broad anecdotal evidence from her work as a clinical psychologist to illustrate just how invaluable spirituality is to a child's mental and physical health, Miller translates these findings into practical advice for parents, giving them concrete ways to develop and encourage their children's—as well as their own—well-being. In this provocative, conversation-starting book, Dr. Miller presents us with a pioneering new way to think about parenting our modern youth.

Operating Instructions North Atlantic Books

In the Garden of Eden, there was only one "No." Everything else was "Yes." In this short book on Christian childrearing, Douglas Wilson points out that we have a Father who delights in us and makes it easy for us to love and obey him. If that is the kind of Father we have, shouldn't we earthly parents do the same? Wilson explains how parents should not just try to get their kids to obey a set of rules or to make their house so fun that following the rules is always easy. Instead, he calls for parents to instill in their kids a love for God and His standards that will serve them well all their days. This book also features an appendix in which Doug and his wife Nancy answer various parents' questions about various applications of the principles discussed in this book.

The Mother of All Questions Canon Press

According to an old story, a woman concealed her sex and ruled as pope for a few years in the ninth century. Pope Joan was not betrayed by a lover or discovered by an enemy; her downfall came when she went into labor during a papal procession through the streets of Rome. From the myth of Joan to the experiences of saints, nuns, and ordinary women, The Oldest Vocation brings to life both the richness and the troubling contradictions of Christian motherhood in medieval Europe. After tracing the roots of medieval ideologies of motherhood in early Christianity, Clarissa W. Atkinson reconstructs the physiological assumptions underlying medieval notions about women's bodies and reproduction; inherited from Greek science and popularized through the practice of midwifery, these assumptions helped shape common beliefs about what mothers were. She then describes the development of "spiritual motherhood" both as a concept emerging out of monastic ideologies in the early Middle Ages and as a reality in the lives of certain remarkable women. Atkinson explores the theological dimensions of medieval motherhood by discussing the cult of the Virgin Mary in twelfth-century art, story, and religious expression. She also offers a fascinating new perspective on the women saints of the later Middle Ages, many of whom were mothers; their lives and cults forged new relationships between maternity and holiness. The Oldest Vocation concludes where most histories of motherhood begin—in early modern Europe, when the family was institutionalized as a center of religious and social organization. Anyone interested in the status of motherhood, or in women's history, the cultural history of the Middle Ages, or the history of religion will want to read this book.

The Book of Mother Canon Press & Book Service

Women who opt not to be mothers are frequently warned that they will regret their decision later in life, yet we rarely talk about the possibility that the opposite might also be true—that women who have children might regret it. Drawing on years of research interviewing women from a variety of socioeconomic, educational, and professional backgrounds, sociologist Orna Donath treats regret as a feminist issue: as regret marks the road not taken, we need to consider whether alternative paths for women currently are blocked off. She asks that we pay attention to what is forbidden by rules governing motherhood, time, and emotion, including the cultural assumption that motherhood is a “ natural ” role for women—for the sake of all women, not just those who regret becoming mothers. If we are disturbed by the idea that a woman might regret becoming a mother, Donath says, our response should not be to silence and shame these women; rather, we need to ask honest and difficult questions about how society pushes women into motherhood and why those who reconsider it are still seen as a danger to the status quo. Groundbreaking, thoughtful, and provocative, this is an especially needed book in our current political climate, as women's reproductive rights continue to be at the forefront of national debates.

My Other Name Is Mom Crossway

If "Who am I?" is the question you're asking, Rachel Jankovic doesn't want you to "find yourself" or "follow your heart." Those lies are nothing to the confidence, freedom, and clarity of purpose that come with knowing what is actually essential about you. And the answer to that question is at once less and more than what you are hoping for. Christians love the idea that self-expression is the essence of a beautiful person, but that's a lie, too. With trademark humor and no nonsense practicality, Rachel Jankovic explains the fake story of the Self, starting with the inventions of a supremely ugly man named Sartre (rhymes with "blart"). And we--men and women, young and old--have bought his lie of the Best Self, with terrible results. Thankfully, that's not the end of our story, You Who: Why You Matter and How to Deal with It takes the identity question into the nitty gritty details of everyday life. Here's the first clue: Stop looking inside, and start planting flags of everyday faithfulness. In Christianity, the self is always a tool and never a destination.

Baby Love Harper Collins

As you prepare to become a mother, you face an experience unlike any other in your life. Having a baby will redirect your preferences and pleasures and, most likely, will realign some of your values.As you undergo this unique psychological transformation, you will be guided by new hopes, fears, and priorities. In a most startling way, having a child will influence all of your closest relationships and redefine your role in your family's history. The charting of this remarkable, new realm is the subject of this compelling book.Renowned psychiatrist Daniel N. Stern has joined forces with pediatrician and child psychiatrist Nadia Bruschweiler-Stern and journalist Alison Freeland to paint a wonderfully evocative picture of the psychology of motherhood. At the heart of The Birth of a Mother is an arresting premise: Just as a baby develops physically in utero and after birth, so a mother is born psychologically in the many months that precede and follow the birth of her baby.The recognition of this inner transformation emerges from hundreds of interviews with new mothers and decades of clinical experience. Filled with revealing case studies and personal comments from women who have shared this experience, this book will serve as an invaluable sourcebook for new mothers, validating the often confusing emotions that accompany the development of this new identity. In addition to providing insight into the unique state of motherhood, the authors touch on related topics such as going back to work, fatherhood, adoption, and premature birth.During pregnancy, mothers-to-be talk about morning sickness and their changing bodies, and new mothers talk about their exhaustion, the benefits of nursing or bottle-feeding, and the dilemma of whether or when they should return to work. And yet, they can be strangely mute about the dramatic and often overwhelming changes going on in their inner lives. Finally, with The Birth of a Mother, these powerful feelings are eloquently put into words.
