While the wood structures are sometimes the less expensive than a custom designed metal building, their low cost quickly balloons once maintenance and repair are factored in. Click below to review a few additional advantages that pre engineered steel buildings have over traditional pole barn construction.

Amazon.com: Low-cost Pole Building Construction ...

Pole framing or post-frame construction (pole building framing, pole building, pole barn) is a simplified building technique adapted from the labor-intensive traditional timber framing technique. It uses large poles or posts buried in the ground or on a foundation to provide the vertical structural support, along with girts to provide horizontal support. . The method was developed and matured ...
