Lucky Number Four

Joseph Stalin 's evil experiment to cross-breed humans and apes failed, with one exception. What ever became of that lone escapee to North America? Why is the crystal skull a catalyst for either destiny or fate? Can secrets become self-condemning? Presented as a magic realism cyclical period piece, QUANTUM CRYSTAL SKULL is the first book of THE EMAGICATION TRILOGY. The story is grounded in social history but is shaped by unique perceptions of a crystal skull as well as sightings of sasquatches. What happens when biological mutation has a crystal skull as a catalyst? Ultimately the first book brings the story to the northwest and provides the challenging lines and boundaries for the predicaments of the second book of the trilogy. Ancestral family prophecy from a Native American shaman grandfather convinces Amanda, the family matriarch in Spokane, that her children or grandchildren will be involved. Will family

secrets affect that destiny? Alexiev, the escapee from the Soviet Union, finds freedom to be elusive. He fears his own secret more but he is relieved when his child was born without biological mutation. Instead it surfaces with his estranged grandchild. Clayton and Emily in Boston are the first of the characters to interact with the crystal skull after it was brought to Canada from Central America. They are also grandparents of Tessa, victim of the biological mutation. Mickey, unsure of his role in the family prophecy, has a chance, bizarre incident with Tessa. Or was it chance? This provides the setting for the second book of the trilogy. SASQUATCH RACES is presented in a different style of magic realism and primarily involves the third generation characters of the first book. A field search with Tessa for bigfoot uncovers shapeshifting humans who transform Mickey involuntarily into a sasquatch. He faces being alone, unprepared for the most basic circumstances, or joining a terrorist group. Who can rally the true sasquatches? How can they help? EMAGICATION, the third book of the trilogy, was written in yet a third style of magic realism and is interactive with the first two books. Why would Novalogy attempt to control the moon? How does a clone battle his original for his soul? The learning curve for author Glade Mahoney involves two reappearing red stones, time dilations, a psychic sasquatch, a secret native storytelling society and a guided interdimensional incarnation event. He must create the first two books of the trilogy to necessitate " emagication " as a solution. The entire trilogy is expected to become available during 2016.
