Learning to survive in the harsh interior of Southern Africa, a former slave seeks shelter in the hollow of a baobab tree. For the first time since she was a young girl her time is her own, her body is her own, her

---

thoughts are her own. In solitude, she is finally able to reflect on her own existence and its meaning, bringing her a semblance of inner peace. Scenes from her former life shuttle through her mind: how owner after owner assaulted her, and how each of her babies were taken away as soon as they were weaned, their futures left to her imagination. We are the sole

witnesses to her history: her capture as a child, her tortured days in a harbor city on the eastern coast as a servant, her journey with her last owner and protector, her flight, and the kaleidoscopic world of her baobab tree. Wilma Stockenström's profound work of narrative fiction, translated by Nobel Prize winner J.M. Coetzee, is a rare, haunting

exploration of enslavement and freedom. Hockey ABC People Now the youngest fans can learn their ABC's with Canada's favourite game! Two teams of Canadian animals, the Woodland Wapitis and the Forest Flyers, face off in an action-packed ABC hockey game. You'll be cheering for your favourite players as they illustrate the alphabet and the game, from A is for Arena to Z is for Zamboni machine! learners -- and hockey fans of all ages! Poppie Nongena New Directions Publishing This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's

invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It

has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the

---

absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

**THE BOOK: A** narrative counterpoint between two women, two South Africas. Kristien Muller returns from London to her homeland to fulfil a promise. Her grandmother lies on her deathbed unleashing a

turmoil of myth, legend and brute fact. Confronted by the realities of a land hurtling towards change, Kristien discovers that the present holds its own moments of savagery. A searing panorama of South Africa's experience, reminiscent in its political & imaginative scope of Marquez's *One Hundred Years Of Solitude*. narratologists call  
&"focalization&"  
and applies his  
revised theory to  
four eighteenth-  
century French  
memoir-novels.  
Hindsight and  
Insight contributes  
to our knowledge  
of the history and  
evolution of the  
novel by  
demonstrating that  
France's earliest  
novelists were  
already engaged in  
the kinds of  
narrative  
experimentation  
that are usually  
associated with  
modern writers. It  
presents an  
analysis of the  
narrative point of  
view in both its  
theoretical aspects

and its practical  
applications.  
Edmiston exposes  
the inadequacies of  
current concepts of  
focalization and  
proposes a revised  
concept that is  
applicable to  
personal narration,  
one that can  
accommodate all  
the focal  
possibilities  
available to the  
first-person  
narrator. He  
applies this  
concept to four  
French memoir-  
novels: *Les*  
*Egarements du*  
*coeur et de l'esprit*  
by Marivaux,  
*Manon Lescaut* by  
Pré vost, and *La*  
*Religieuse* by  
Diderot. Each of

these well-known  
novels offers a  
different case study  
and raises specific  
theoretical  
questions of  
selective  
focalization, forms  
of reported speech,  
problems of  
temporal  
ambiguity,  
manipulation of  
the reader,  
narratorial  
reliability, and  
cognitive privilege.  
Edmiston's study  
proposes a reading  
of the novels that  
resolves certain  
problems of  
interpretation  
raised by other  
recent studies.

This is the first English translation of an award winning book published in Afrikaans in 1989. It engages critically and creatively with a key moment of colonial history—the time Lady Anne Barnard spent at the Cape of Good Hope, from 1797 to 1802. Antjie Krog powerfully brings together the historical and the poetic in a turbulent South Africa.

This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines

and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

Ed Whitacre is credited with taking over the corporate reins at General Motors (GM) when the automotive manufacturer was on the brink of bankruptcy during 2009 and turned the company around in magnificent fashion. In this

---

business memoir, the native Texan explores his unique management style, business acumen and patriotism. It was President Obama who reached out to Ed Whitacre to come out of retirement and take over GM in 2009. A down-to-earth, no-nonsense Texas native with a distinctive Texas twang in his voice, Whitacre was reluctant to come out of retirement to work at GM. But Whitacre is that rare CEO with great charisma and extraordinary management

instincts. And when he got to Detroit, he started to whittle down the corporate bureaucracy right away - and got GM back on track in record time. Before being pulled out of retirement to run GM by Obama, Ed Whitacre had spent his entire corporate career in the telecom business, where he ultimately ended up running AT&T. Django for APIs Random House An ambitious theoretical work that ranges from the age of Socrates to the late twentieth century,

this book traces the development of the concepts of irony within the history of Western literary criticism. Its purpose is not to promote a universal definition of irony, whether traditional or revisionist, but to examine how such definitions were created in critical history and what their use and invocation imply. Joseph A. Dane argues that the diverse, supposed forms of irony--Socratic, rhetorical, romantic, dramatic, to name a few--are not so much literary

---

elements embedded in texts, awaiting discovery by critics, as they are notions used by critics of different eras and persuasions to manipulate those texts in various, often self-serving ways. The history of irony, Dane suggests, runs parallel to the history of criticism, and the changing definitions of irony reflect the changing ways in which readers and critics have defined their own roles in relation to literature. Probing and provocative, *The Critical Mythology of*

*Irony* will appeal to a broad spectrum of critics and scholars, particularly those concerned with the historical basis of critical language and its political and educational implications. *Slave Stealers* Vintage Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than

ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the

---

contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life. Chihuly Viz Comics Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances	of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, <i>Incidents in the Life of a Slave Girl</i> , which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly- freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the	horrors and carnage of war, Timothy Ballard founded a modern- day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third- world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian
