Walter Prescott
Webb
(1888–1963), a
towering figure in
Texas and western
history and letters,
published an
abundance of

books—but for
decades the
autobiography
he’d written late in
life sat largely
undisturbed among
his papers.
Webb’s
remarkable story
appears here in

print for the first time, edited and annotated by Michael Collins, an authority on Texas history. This firsthand account offers readers a window on the life, the work, and the world of one of the most interesting thinkers in the history, and historiography, of Texas. Webb's narrative carries us from the drought-scarred rim of West Texas known as the Cross Timbers, to the hardscrabble farm life that formed him, to the bright lights of Austin and the University of Texas, where he

truly came of age. Fascinating for the picture it summons of the Texas of his youth and the intellectual landscape of his career, Webb's autobiography also offers intriguing insights into the way his epic work, *The Great Plains*, evolved. He also describes the struggle behind his groundbreaking history of that storied frontier fighting force the Texas Rangers. Along the way, Webb reflects on the nature of historical research, the role that Texas and the West have played in

American history, the importance of education, and the place of universities in our national culture. More than a rare encounter with a true American character's life and thought, *A Texan's Story* is also a uniquely enlightening look into the understanding, writing, and teaching of western American history in its formative years.

Eli Cranor delivers

a powerful noir that will appeal to fans of Wiley Cash and Megan Abbott. In Denton, Arkansas, the fate of the high school football team rests on the shoulders of Billy Lowe, a volatile but talented running back. Billy comes from an extremely troubled home: a trailer park where he is terrorized by his unstable mother's abusive boyfriend. Billy takes out his anger on the field, but when his savagery crosses a line, he faces suspension. Without Billy Lowe, the Denton Pirates can kiss their playoff bid goodbye. But the head coach, Trent Powers, who just moved from California with his wife and two

children for this job, has more than just his paycheck riding on Billy's bad behavior. As a born-again Christian, Trent feels a divine calling to save Billy—save him from his circumstances, and save his soul. Then Billy's abuser is found murdered in the Lowe family trailer, and all evidence points toward Billy. Now nothing can stop an explosive chain of violence that could tear the whole town apart on the eve of the playoffs. ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other

than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Brooks uses a tools-based approach that presents the key concepts of finance (or "tools") early on in the text, followed

by an application of those concepts to various finance problems. By introducing key finance concepts with personal and business-related finance examples, this text helps readers understand how the tools of finance can help them in any career or business situation. This edition features strengthened material on financial statements, a discussion on yield curves, new and advanced spreadsheet problems, and updated material. A Gift of Grace and Time Prentice Hall This two-volume set of LNAI 11775 and LNAI 11776

constitutes the refereed proceedings of the 12th International Conference on Knowledge Science, Engineering and Management, KSEM 2019, held in Athens, Greece, in August 2019. The 77 revised full papers and 23 short papers presented together with 10 poster papers were carefully reviewed and selected from 240 submissions. The papers of the first volume are organized in the following topical sections: Formal Reasoning and Ontologies; Recommendation Algorithms and Systems; Social Knowledge Analysis and Management ; Data Processing and Data Mining; Image and Video Data Analysis; Deep Learning; Knowledge

Graph and Knowledge Management; Machine Learning; and Knowledge Engineering Applications. The papers of the second volume are organized in the following topical sections: Probabilistic Models and Applications; Text Mining and Document Analysis; Knowledge Theories and Models; and Network Knowledge Representation and Learning. Qi Men Dun Jia: Sun Tzu Warcraft Wilfrid Laurier Univ. Press Children ' s books seek to assist children to understand themselves and their world. Unsettling Narratives: Postcolonial Readings of Children ' s Literature demonstrates how

settler-society texts position child readers as citizens of postcolonial nations, how they represent the colonial past to modern readers, what they propose about race relations, and how they conceptualize systems of power and government. Clare Bradford focuses on texts produced since 1980 in Canada, the United States, Australia, and New Zealand and includes picture books, novels, and films by Indigenous and non-Indigenous publishers and producers. From extensive readings, the author focuses on key works to produce a thorough analysis rather than a survey. *Unsettling Narratives* opens up an area of scholarship and discussion—the use of

postcolonial theories—relatively new to the field of children ’ s literature and demonstrates that many texts recycle the colonial discourses naturalized within mainstream cultures. *Ship Automation* Allen & Unwin Get wrapped up in *The Absolute Beginners Guide: Making Wire Jewelry*, the fourth book in the successful *Absolute Beginners Guide* series. This user-friendly wireworking primer takes readers through the basics of wire types, tools, findings and more. Then it's on to progressive, fun-to-make projects designed to teach fundamental techniques and build confidence every step of the way. *Wireworkers* will

learn how to open and close jump rings, make head pins and earring wires, create wire spirals, wrap, coil, and more! Variations for each project give readers the chance to experiment with many techniques. Aspiring wireworkers will learn, practice, and reinforce skills with a rewarding result: fun, wearable wire jewelry! *Ultimate Exakta Repair - a CLA and New Curtains for Your Camera* Scott Foresman Trade One of the cornerstones of *New Thought*, the precursor to *New Age* thinking, is the marriage of mind and spirit, of

science and religion. Another foundational block of the philosophy is the belief that each person is born with the full potential of transcending mundane existence and achieving spiritual enlightenment and communion with God. In *Mastery of Self*, Christian D. Larson gracefully guides the reader to a better understanding of these basic principles, and provides practical instruction on how to both open and rein in one's self, to ensure the individual continues moving

ever forward and is building always toward the fulfillment of that potential, gaining a healthier, happier life along the way. American New Thought pioneer CHRISTIAN DAA LARSON (b. 1874) is the author of the well-known *Optimist Creed* and published several important works of spiritual science, including *Mastery of Self*, *In the Light of the Spirit*, and *The Great Within*. *Space Station Systems* Legare Street Press
The most practical and sensible way to

implement ERM- while avoiding all of the classic mistakes
Emphasizing an enterprise risk management approach that utilizes actual business data to estimate the probability and impact of key risks in an organization, *Practical Enterprise Risk Management: A Business Process Approach* boils this topic down to make it accessible to both line managers and high level executives alike. The key lessons involve basing risk estimates and prevention techniques on known quantities rather than subjective estimates, which many popular

ERM methodologies started, as well as consist of. Shows readers how to look at real results and actual business processes to get to the root cause of key risks Explains how to manage risks based on an understanding of the problem rather than best guess estimates Emphasizes a focus on potential outcomes from existing processes, as well as a look at actual outcomes over time Throughout, practical examples are included from various healthcare, manufacturing, and retail industries that demonstrate key concepts, implementation guidance to get

tables of risk indicators and metrics, physical structure diagrams, and graphs. A Texan's Story University of Oklahoma Press Through three editions, Cryptography: Theory and Practice, has been embraced by instructors and students alike. It offers a comprehensive primer for the subject ' s fundamentals while presenting the most current advances in cryptography. The authors offer comprehensive, in-depth treatment of the methods and protocols that are

vital to safeguarding the seemingly infinite and increasing amount of information circulating around the world. Key Features of the Fourth Edition: New chapter on the exciting, emerging new area of post-quantum cryptography (Chapter 9). New high-level, nontechnical overview of the goals and tools of cryptography (Chapter 1). New mathematical appendix that summarizes definitions and main results on number theory and algebra (Appendix A). An expanded treatment of stream ciphers,

including common design techniques along with coverage of Trivium. Interesting attacks on cryptosystems, including: padding oracle attack correlation attacks and algebraic attacks on stream ciphers attack on the DUAL-EC random bit generator that makes use of a trapdoor. A treatment of the sponge construction for hash functions and its use in the new SHA-3 hash standard. Methods of key distribution in sensor networks. The basics of visual cryptography, allowing a secure method to split a secret visual message into pieces (shares)

that can later be combined to reconstruct the secret. The fundamental techniques cryptocurrencies, as used in Bitcoin and blockchain. The basics of the new methods employed in messaging protocols such as Signal, including deniability and Diffie-Hellman key ratcheting. Colletotrichum John Wiley & Sons David Fame, a tech researcher and freelance writer, writes from the point of view of a new user who is baffled by the complexity of the documentation

and online support that comes with the Samsung Galaxy S9/S9 Plus. In this book, you'd learn tips and tricks, best compatible apps, and solutions to common S9/ S9 Plus apps problems. To outline, you'll learn: (1) How to unlock your Samsung Galaxy S9/S9 Plus full potentials (2) How to resolve common Galaxy S9/S9 Plus operating problems (3) Managing the outlook of the home screen (4) Setting up intelligent scan (5) How to schedule

software updates (6) Press, USA

Computation and Interpretation of Biological Statistics of Fish Populations Wentworth Press For Ellen, faith was nonexistent until faith was all she had to cling to. After 24 years together, life partners, Ellen and Paul were married nine months before his passing to the spirit world. When treatments ran out for Paul's dreaded health issues, he confided to Ellen that he was very tired of exotic drugs, daily doctor visits, and feeling terrible. He wanted peace and comfort. So together, they decided hospice was not the only choice but the best choice. Before making the transition to his final

reward and eternity, they shared his time going over memorabilia, listening to favorite Big Band music, watching movies, laughing, and telling stories about seashells. Ellen read his Tin Can Sailor magazines aloud, and much time was spent in expressions of love. Ellen stood guard 24/7. Sadly, they were wrong to believe family and lifelong friends would be their support system. Instead, many angels in human form stepped in to give support, camaraderie, and comfort. Ellen, an outspoken believer in science, was presented numerous miracles; miracles that science could not explain. These miracles and the subtle comfort she felt through prayer led to a profound

epiphany in belief. The smell of English leather permeating the night air"" Paul 's brother used that brand of cologne, but he had been dead for several years. Another incident, Ellen being violently shaken awake, just in time to untangle her beloved from the blanket and side rail. No one else was in the house, so whose hand shook her shoulder? This is Ellen and Paul's intimate hospice journey. The lessons learned are being shared with the deepest of intentions of easing the load of those facing a hospice odyssey of their own.
