Concerning Christian Liberty Baker Publishing Group
Modern interpreters typically attach revolutionary significance to Luther's Christology on account of its unprecedented endorsement of God's ontological vulnerability. This possibilist reading of Luther's theology has sourced a long channel of speculative theology and philosophy, from Hegel to Moltmann, which regards Luther as an ally against antique, philosophical assumptions, which are supposed to occlude the genuine immanence of God to history and experience. David J. Luy challenges this history of reception and rejects the interpretation of Luther's Christology upon which it is founded. Dominus Mortis creates the conditions necessary for an

alternative appropriation of Luther's Christological legacy. By re-specifying certain key aspects of Luther's Christological commitments, Luy provides a careful reassessment of how Luther's theology can make a contribution within ongoing attempts to adequately conceptualize divine immanence. Luther is demonstrated as a theologian who creatively appropriates the patristic and medieval theological tradition and whose constructive enterprise is significant for the ways that it disrupts widely held assumptions about the doctrine of divine impassibility, the transcendence of God, dogmatic development, and the relationship of God to suffering.

The Life and Times of Martin Luther Penguin

In this wide-ranging volume Heiko Oberman traces threads of continuity flowing to and through the Reformation. Many his most important studies appear here in English for the first time. Professor Oberman explores "experiential" mysticism; the "battle on two fronts" waged by the Wittenburg circle against Pierias and Eck; Luther's medieval and apocalyptic conception of reformatio and its purpose; the pre-history of "confessionalization" in the Confession of Ausburg and its "Confutatio" byt Luther's Roman opponents; Zwingli's plans for a Godly alliance in the southern Germanic ecumene and the

destructive tensions between Zwingli and Luther. In the final chapter, Oberman describes a model of three long-term "Reformations" that can also be seen as revolutions: the Conciliar Reformation, the City Reformation, and the Calvinist Reformation of the Refugees. The often denied and generally misunderstood "continuities" between theological directions of the later Middle Ages, the theological reformation of the early sixteenth century and subsequent developments are constantly illuminated through exacting detail and compelling insights.

Martin Luther on the Incorruptibility of God in Christ W. W. Norton & Company

The human population's annual total consumption is not sustainable by one planet. This unprecedented situation calls for a reform of religious cultures that promote a large ideal family size. Many observers assume that Christianity is inevitably part of this problem because it promotes "family values" and statistically, in America and elsewhere, has a higher birthrate than nonreligious people. This book explores diverse ideas about human reproduction in the church past and present. It investigates an extreme fringe of U.S. Protestantism, including the Quiverfull movement, that use Old Testament "fruitful" verses to support natalist ideas explicitly promoting higher fecundity. It also challenges the claim by some natalists that Martin Luther in the 16th century advocated similar ideas. This book argues that natalism is inappropriate as a Christian application of Scripture, especially since rich populations' total

footprints are detrimental to biodiversity and to human welfare. It explores the ancient cultural context of the Bible verses quoted by natalists. Challenging the assumption that religion normally promotes fecundity, the book finds surprising exceptions among early Christians (with a special focus on Saint Augustine) since they advocated spiritual fecundity in preference to biological fecundity. Finally the book uses a hermeneutic lens derived from Genesis 1, and prioritising the modern problem of biodiversity, to provide ecological interpretations of the Bible's "fruitful" verses.

A revolutionary look at Martin Luther, the Reformation, and the birth of publishing, on the eve of the Reformation's 500th anniversary When Martin Luther posted his "theses" on the door of the Wittenberg church in 1517, protesting corrupt practices, he was virtually unknown. Within months, his ideas spread across Germany, then all of Europe; within years, their author was not just famous, but infamous, responsible for catalyzing the violent wave of religious reform that would come to be known as the Protestant Reformation and engulfing Europe in decades of bloody war. Luther came of age with the printing press, and the path to glory of neither one was obvious to the casual observer of the time. Printing was, and is, a risky business--the questions were how to know how much to print and how to get there before the competition. Pettegree illustrates Luther's great gifts not simply as a theologian, but as a communicator, indeed, as the world's first mass-media figure, its first brand. He recognized in printing the power of pamphlets, written in the colloquial German of everyday people, to win the battle of ideas. But that wasn't enough--not just words, but the medium itself was the

message. Fatefully, Luther had a partner in the form of artist and businessman Lucas Cranach, who together with Wittenberg's printers created the distinctive look of Luther's pamphlets. Together, Luther and Cranach created a product that spread like wildfire--it was both incredibly successful and widely imitated. Soon Germany was overwhelmed by a blizzard of pamphlets, with Wittenberg at its heart; the Reformation itself would blaze on for more than a hundred years. Publishing in advance of the Reformation's 500th anniversary, *Brand Luther* fuses the history of religion, of printing, and of capitalism--the literal marketplace of ideas--into one enthralling story, revolutionizing our understanding of one of the pivotal figures and eras in human history.

Visionary Reformer Oxford University Press

Does God suffer within himself? Does God suffer only in the humanity of Jesus Christ? Or does only the God-man Jesus Christ suffer? This book seeks to demonstrate that the suffering of God has an "ontological status" in Luther's Theologia Crucis. The discussion concentrates on three constituents of Luther's theology - Christology, soteriology, and Trinity - to see how each of them establishes the assertion that God suffers. It also places Luther within the modern discussions of Essential Apathy: Luther accepts the Old Church's Theopaschitism, but rejects Patripassianism, a heresy of the Old Church. This study breaks new ground by taking Luther a step further, arguing that only a Trinitarian theology of the cross is genuine Christian theology, and that the suffering of Christ touches the immanent Trinity as well as the economic Trinity. Ngien engages in useful discussions with other scholars including Paul Althaus, Walter von Loewenich, Ian Siggins, Marc Lienhard, Eberhard Jungel, Jurgen Moltmann, and Alister McGrath. "Dr. Ngien has done a good job of sorting out Luther's numerous statements about the suffering of God and finding consistency in them. He engages in a

useful discussion with other Lutheran commentators. He presents a concise and competent survey of the early church's discussion of the suffering of God and also attends to Luther's reception of and reaction to late medieval thought." - David E. Demson, University of Toronto
Dennis Ngien (PhD) is Research Professor of Theology at Tyndale University College and Seminary, Toronto. He is founder of the Centre for Mentorship and Theological Reflection, and author of *Apologetic for Filioque in Medieval Theology* (Paternoster Press, 2005) as well as numerous journal articles.

The Life and Times of Martin Luther Canongate Books

Few figures in history have defined their time as dramatically as Martin Luther. And few books have captured the spirit of such a figure as truly as this robust and eloquent life of Luther. A highly regarded historian and biographer and a gifted novelist and playwright, Richard Marius gives us a dazzling portrait of the German reformer--his inner compulsions, his struggle with himself and his God, the gestation of his theology, his relations with contemporaries, and his responses to opponents. Focusing in particular on the productive years 1516-1525, Marius' detailed account of Luther's writings yields a rich picture of the development of Luther's thought on the great questions that came to define the Reformation. Marius follows Luther from his birth in Saxony in 1483, during the reign of Frederick III, through his schooling in Erfurt, his flight to an Augustinian monastery and ordination to the outbreak of his revolt against Rome in 1517, the Wittenberg years, his progress to Worms, his exile in the Wartburg, and his triumphant return to Wittenberg. Throughout, Marius pauses to acquaint us with pertinent issues: the question of authority in the church, the

theology of penance, the timing of Luther's Reformation breakthrough, the German peasantry in 1525, Muntzer's revolutionaries, the whys and hows of Luther's attack on Erasmus. In this personal, occasionally irreverent, always humane reconstruction, Luther emerges as a skeptic who hated skepticism and whose titanic wrestling with the dilemma of the desire for faith and the omnipresence of doubt and fear became an augury for the development of the modern religious consciousness of the West. In all of this, he also represents tragedy, with the goodness of his works overmatched by their calamitous effects on religion and society.

Martin Luther: His road to Reformation, 1483-1521 Crossway

Martin Luther remains a popular, oft-quoted, referenced, lauded historical figure. He is often seen as the fulcrum upon which the medieval turned into the modern, the last great medieval or the first great modern; or, he is the Protestant hero, the virulent anti-Semite; the destroyer of Catholic decadence, or the betrayer of the peasant cause. An important but contested figure, he was all of these things. Understanding Luther's context helps us to comprehend how a single man could be so many seemingly contradictory things simultaneously. Martin Luther in Context explores the world around Luther in order to make the man and the Reformation movement more understandable. Written by an international team of leading scholars, it includes over forty short, accessible essays, all specially commissioned for this volume, which reconstruct the life and world of Martin Luther. The volume also contextualizes the scholarship and reception of Luther in the popular mind.

Six Lectures ; Reported, with Emendations and Additions Open Book Publishers

A deeply textured dual biography and fascinating intellectual history that examines two of the greatest minds of European history—Desiderius Erasmus and Martin Luther—whose heated rivalry gave rise to two enduring, fundamental, and often colliding traditions of philosophical and religious thought. Erasmus of Rotterdam was the leading figure of the Northern Renaissance. At a time when Leonardo, Michelangelo, and Raphael were revolutionizing Western art and culture, Erasmus was helping to transform Europe's intellectual and religious life, developing a new design for living for a continent rebelling against the hierarchical constraints of the Roman Church. When in 1516 he came out with a revised edition of the New Testament based on the original Greek, he was hailed as the prophet of a new enlightened age. Today, however, Erasmus is largely forgotten, and the reason can be summed up in two words: Martin Luther. As a young friar in remote Wittenberg, Luther was initially a great admirer of Erasmus and his critique of the Catholic Church, but while Erasmus sought to reform that institution from within, Luther wanted a more radical transformation. Eventually, the differences between them flared into a bitter rivalry, with each trying to win over Europe to his vision. In *Fatal Discord*, Michael Massing seeks to restore Erasmus to his proper place in the Western tradition. The conflict between him and Luther, he argues, forms a fault line in Western thinking—the

moment when two enduring schools of thought, Christian humanism and evangelical Christianity, took shape. A seasoned journalist who has reported from many countries, Massing here travels back to the early sixteenth century to recover a long-neglected chapter of Western intellectual life, in which the introduction of new ways of reading the Bible set loose social and cultural forces that helped shatter the millennial unity of Christendom and whose echoes can still be heard today. Massing concludes that Europe has adopted a form of Erasmian humanism while America has been shaped by Luther-inspired individualism.
