A revolutionary look
at Martin Luther, the
Reformation, and the
birth of publishing,

on the eve of the Reformation's 500th anniversary When Martin Luther posted his "theses" on the door of the Wittenberg church in 1517, protesting corrupt practices, he was virtually unknown. Within months, his ideas spread across Germany, then all of Europe; within years, their author was not just famous, but infamous, responsible for catalyzing the violent wave of religious reform that would come to be known as the Protestant Reformation and engulfing Europe in decades of bloody war. Luther came of age with the printing press, and the path to glory of neither one was obvious to the casual observer of the time. Printing was, and is, a risky business--the questions were how to know how much to print and how to get there before the competition. Pettegree illustrates Luther's great gifts not simply as a theologian, but as a communicator, indeed, as the world's first mass-media figure, its first brand. He recognized in printing the power of pamphlets, written in the colloquial German of everyday people, to win the battle of ideas. But that wasn't enough--not

just words, but the medium itself was the message. Fatefully, Luther had a partner in the form of artist and businessman Lucas Cranach, who together with Wittenberg's printers created the distinctive look of Luther's pamphlets. Together, Luther and Cranach created a product that spread like wildfire--it was both incredibly successful and widely imitated. Soon Germany was overwhelmed by a blizzard of pamphlets, with Wittenberg at its heart; the Reformation itself would blaze on for more than a hundred years. Publishing in advance of the Reformation's 500th anniversary, Brand Luther fuses the history of religion, of printing, and of capitalism--the literal marketplace of ideas--into one enthralling story,

revolutionizing our understanding of one of the pivotal figures and eras in human history.

Man of God HarperCollins
The human population's annual total consumption is not sustainable by one planet. This unprecedented situation calls for a reform of religious cultures that promote a large ideal family size. Many observers assume that Christianity is inevitably part of this problem because it promotes "family values" and statistically, in America

and elsewhere, has a higher birthrate than nonreligious people. This book explores diverse ideas about human reproduction in the church past and present. It investigates an extreme fringe of U.S. Protestantism, including the Quiverfull movement, that use Old Testament "fruitful" verses to support natalist ideas explicitly promoting higher fecundity. It also challenges the claim by some natalists that Martin Luther in the 16th century advocated similar ideas. This book argues that natalism is inappropriate as a Christian application of Scripture, especially since rich populations' total footprints are detrimental to biodiversity and to human welfare. It explores the ancient cultural context of the Bible verses quoted by natalists. Challenging the assumption that religion normally promotes fecundity, the book finds surprising exceptions among early Christians (with a special focus on Saint Augustine) since they advocated spiritual fecundity in preference to biological fecundity. Finally the book uses a hermeneutic lens derived from Genesis 1, and prioritising the modern problem of biodiversity, to provide ecological interpretations of the Bible's "fruitful" verses.

No other German has shaped the history of early-modern Europe more than Martin Luther. In this comprehensive and balanced biography we see Luther as a rebel, but not as a lone hero; as a soldier in a mighty struggle for the universal reform of Christianity and its role in the world. The foundation of Protestantism changed the religious landscape of Europe, and subsequently the world, but the author chooses to show not simply as a reformer, but as an

individual. In his study of the Wittenberg monk, Heinz Schilling - one of Germany's leading social and political historians - gives the reader a rounded view of a difficult, contradictory character, who changed the world by virtue of his immense will.

Derek Scally goes to Christmas Eve Mass on a visit home from Berlin, he finds more memories than congregants in the church where he was once an altar boy. Not for the first time, the collapse of the Catholic Church in Ireland brings to mind the fall of another powerful ideology - East German communism. While Germans are engaging earnestly with their past, Scally sees nothing comparable going on in his native land. So he embarks on a quest to unravel the tight hold the Church had on the Irish. He travels the length and breadth of Ireland and across Europe, going to Masses, novenas, shrines and seminaries, talking to those who have abandoned the Church and those who have held

on, to survivors and campaigners, to writers, historians, psychologists and many more. And he has probing and revealing encounters with Vatican officials, priests and religious along the way. The Best Catholics in the World is the remarkable result of his three-year journey. With wit, wisdom and compassion Scally gives voice and definition to the murky and difficult questions that face a society coming to terms with its troubling past. It is both a lively personal odyssey and a resonant and gripping work of reporting that is a major contribution to the story of Ireland. Sproul, Stephen J. Nichols, and thirteen other scholars and pastors examine his life, teaching and enduring influence. Meet Martin Luther, the mercurial Reformer who, out of love for the truth and the desire to bring it to light, set the world ablaze. Visionary Reformer Crossway In this wide-ranging volume Heiko Oberman traces threads of continuity flowing to and through the Reformation. Many his most important studies appear here in English for the first time. Professor

Oberman explores "experiential" mysticism; the "battle on two fronts" waged by the Wittenburg circle against Pierias and Eck; Luther's medieval and apocalyptic conception of reformatio and its purpose; the pre-history of "confessionalization" in the Confession of Ausburg and its "Confutatio" by Luther's Roman opponents; Zwingli's plans for a Godly alliance in the southern Germanic ecumene and the destructive tensions between Zwingli and Luther. In the final chapter, Oberman describes a model of three long-term "Reformations" that can also be seen as revolutions: the Concillar Reformation, the City Reformation, and the Calvinist Reformation of the Refugees. The often denied and generally misunderstood "continuities" between theological directions of the later Middle Ages, the theological reformation of the early sixteenth century and subsequent developments are constantly illuminated through exacting detail and compelling insights. Erasmus, Luther, and the Fight for the Western Mind Augsburg Books A biography of the German monk who led the Protestant Reformation in Europe from its beginning in 1517 until his death in 1546. The Man Who Rediscovered God and Changed the World Random House Does God suffer within himself? Does God suffer only in the humanity of Jesus Christ? Or does only the God-man Jesus Christ suffer? This book seeks to demonstrate that the suffering of God has an "ontological status" in Luther's Theologia Crucis. The discussion concentrates on three constituents of Luther's theology - Christology,

soteriology, and Trinity - to see how each of them establishes the assertion that God suffers. It also places Luther within the modern discussions of Essential Apathy: Luther accepts the Old Church's Theopaschitism, but rejects Patripassianism, a heresy of the Old Church. This study breaks new ground by taking Luther a step further, arguing that only a Trinitarian theology of the cross is genuine Christian theology, and that the suffering of Christ touches the immanent Trinity as well as the economic Trinity. Ngien engages in useful discussions with other scholars including Paul Althaus, Walter

von Loewenich, Ian Siggins, Marc Lienhard, Eberhard Jungel, Jurgen Moltmann, and Alister McGrath. "Dr. Ngien has done a good job of sorting out Luther's numerous statements about the suffering of God and finding consistency in them. He engages in a useful discussion with other Lutheran commentators. He presents a concise and competent survey of the early church's discussion of the suffering of God and also attends to Luther's reception of and reaction to late medieval thought." - David E. Metaxas comes a brilliant and inspiring biography of the most influential man in modern history, Martin Luther, in time for the 500th anniversary of the Reformation On All Hallow ' s Eve in 1517, a young monk named Martin Luther posted a document he hoped would spark an academic debate, but that instead ignited a conflagration that would forever destroy the world he knew. Five hundred years after Luther ' s now famous Ninety-five Theses appeared,

Eric Metaxas, acclaimed biographer of the bestselling Bonhoeffer: Pastor, Martyr, Prophet, Spy and Amazing Grace: William Wilberforce and the Heroic Campaign to End Slavery, paints a startling portrait of the wild figure whose adamant faith cracked the edifice of Western Christendom and dragged medieval Europe into the future. Written in riveting prose and impeccably researched, Martin Luther tells the searing tale of a humble man who, by bringing ugly truths

to the highest seats of power, caused the explosion whose sound is still ringing in our ears. Luther ' s monumental faith and courage gave birth to the ideals of liberty, equality, and individualism that today lie at the heart of all modern life.

Few figures in history have defined their time as dramatically as Martin Luther. And few books have captured the spirit of such a figure as truly as this robust and eloquent life of Luther. A highly regarded historian and

biographer and a gifted novelist and playwright, Richard Marius gives us a dazzling portrait of the German reformer--his inner compulsions, his struggle with himself and his God, the gestation of his theology, his relations with contemporaries, and his responses to opponents. Focusing in particular on the productive years 1516-1525, Marius' detailed account of Luther's writings yields a rich picture of the development of Luther's thought on the great questions that came to define the Reformation. Marius follows Luther from his birth in Saxony in 1483, during the reign of Frederick III, through his schooling in Erfurt, his flight to an Augustinian monastery and

ordination to the outbreak of his revolt against Rome in 1517, the Wittenberg years, his progress to Worms, his exile in the Wartburg, and his triumphant return to Wittenberg. Throughout, Marius pauses to acquaint us with pertinent issues: the question of authority in the church, the theology of penance, the timing of Luther's Reformation breakthrough, the German peasantry in 1525, Muntzer's revolutionaries, the whys and hows of Luther's attack on Erasmus. In this personal, occasionally irreverent, always humane reconstruction, Luther emerges as a skeptic who hated skepticism and whose titanic wrestling with the dilemma of the

desire for faith and the omnipresence of doubt and fear became an augury for the development of the modern religious consciousness of the West. In all of this, he also represents tragedy, with the goodness of his works overmatched by their calamitous effects on religion and society.

impact on subsequent centuries and several parts of the twenty-first world. Essays explore the dimensions and implications of Luther's way of thought within its historical context on the basis of original sources and debates among interpreters of his thinking and his influence on later generations.

Luther the Reformer Penguin Martin Luther's historical significance can hardly be overstated. Known as the father of the Protestant Reformation, no single figure has had a greater impact on Western Christianity except perhaps Augustine. In *Luther on the Christian Life*, historian Carl Trueman introduces readers to the lively Reformer, taking them on a tour

of his historical context, theological system, and approach to the Christian life. Whether exploring Luther's theology of protest, ever-present sense of humor, or misunderstood view of sanctification, this addition to Crossway's Theologians on the Christian Life series highlights the ways in which Luther's eventful life shaped his understanding of what it means to be a Christian. Ultimately, this book will help modern readers go deeper in their spiritual walk by learning from one of the great teachers of the faith. Part of the Theologians on the Christian Life series. Martin Luther Fortress Press Modern interpreters typically attach revolutionary

significance to Luther's Christology on account of its unprecedented endorsement of God's ontological vulnerability. This passibilist reading of Luther's theology has sourced a long channel of speculative theology and philosophy, from Hegel to Moltmann, which regards Luther as an ally against antique, philosophical assumptions, which are supposed to occlude the genuine immanence of God to history and experience. David J. Luy challenges this history of reception and rejects the interpretation of Luther's

Christology upon which it is founded. Dominus Mortis creates the conditions necessary for an alternative appropriation of Luther ' s Christological legacy. By re-specifying certain key aspects of Luther ' s Christological commitments, Luy provides a careful reassessment of how Luther ' s theology can make a contribution within ongoing attempts to adequately conceptualize divine immanence. Luther is demonstrated as a theologian who creatively appropriates the patristic and medieval theological tradition and whose constructive enterprise is significant for the ways that it disrupts widely held assumptions about the doctrine of divine impassibility, the transcendence of God, dogmatic development, and the relationship of God to suffering.
