The human population's

annual total consumption is not sustainable by one planet. This unprecedented situation calls for a reform of religious cultures that promote a large ideal family size. Many observers assume that Christianity is inevitably part of this problem because it promotes "family values" and statistically, in America and elsewhere, has a higher birthrate than nonreligious people. This book explores diverse ideas about human reproduction in the church past and present. It investigates an extreme fringe of U.S. Protestantism, including the Quiverfull movement, that use Old Testament "fruitful" verses to support natalist ideas explicitly promoting higher fecundity. It also challenges the claim by some natalists that Martin Luther in the 16th century advocated similar ideas. This book argues that

natalism is inappropriate as a Christian application of Scripture, especially since rich populations' total footprints are detrimental to biodiversity and to human welfare. It explores the ancient cultural context of the Bible verses quoted by natalists.

Challenging the assumption that religion normally promotes fecundity, the book finds surprising exceptions among early Christians (with a special focus on Saint Augustine) since they advocated spiritual fecundity in preference to biological fecundity. Finally the book uses a hermeneutic lens derived from Genesis 1, and prioritising the modern problem of biodiversity, to provide ecological interpretations of the Bible's "fruitful" verses.

Bainton presents the many strands that made up the Reformation in a single, brilliantly coherent account. He discusses the background for Luther's irreparable breach with the Church and its ramifications for 16th Century Europe, giving thorough accounts of the Diet of Worms, the institution of the Holy Commonwealth of Geneva, Henry VIII's break with Rome, and William the Silent's struggle for Dutch independence.

ELIZABETH LONGFORD
PRIZE 2017 'A magnificent study of one of history's most compelling and divisive figures' Richard J. Evans When Martin Luther nailed a sheet of paper to the church door of a small university town in 1517, he set off a process that changed the Western world for ever. Within a few years Luther's ideas had spread like wildfire. His attempts to reform Christianity by returning it to its biblical roots split the Western Church, divided Europe and polarised people's beliefs, leading to religious persecution, social unrest and war; and in the long run his ideas would help break the grip of religion on every sphere of life. Yet Luther was a deeply flawed human being: a fervent believer tormented by spiritual doubts; a prolific writer whose translation of the

Bible would shape the German language yet whose attacks on his opponents were vicious and foul-mouthed; a married ex-monk who liberated human sexuality from the stigma of sin but who insisted that women should know their place; a religious fundamentalist, Jew-hater and political reactionary who called 'for the private and public murder of the peasants' who had risen against their lords in response to his teaching. And perhaps surprisingly, the man who helped create in the modern world was not modern himself: for him the devil was not a figure of speech but a real, physical presence. As an acclaimed historian, Lyndal Roper explains how Luther's impact can only be understood against the background of the times. As a brilliant biographer, she

gives us the flesh-and-blood figure. She reveals the often contradictory psychological forces that drove Luther forward and the dynamics they unleashed, which turned a small act of protest into a battle against the power of the Church. Luther Man
Between God and the Devil

No other German has shaped the history of early-modern Europe more than Martin Luther. In this comprehensive and balanced biography we see Luther as a rebel, but not as a lone hero; as a soldier in a mighty struggle for the universal reform of Christianity and

its role in the world. The foundation of Protestantism changed the religious landscape of Europe, and subsequently the world, but the author chooses to show not simply as a reformer, but as an individual. In his study of the Wittenberg monk, Heinz Schilling - one of Germany's leading social and political historians - gives the reader a rounded view of a difficult, contradictory character, who changed the world by virtue of his immense will.

The Reformation of the Sixteenth Century

Reformation Trust Publishing
Famous for setting in motion the Protestant Reformation, Martin Luther is often lifted high as a hero or condemned as a rebel. But underneath it all, he was a man of flesh and blood, with a deep longing to

live for God. This biography by Herman Selderhuis captures Luther in his original context and follows him on his spiritual journey, from childhood through the Reformation to his influential later years. Combining Luther's own words with engaging narrative designed to draw the reader into Luther's world, this spiritual biography brings to life the complex and dynamic personality that forever changed the history of the church.

Roots and Ramifications

Baker Publishing Group

A deeply textured dual biography and fascinating intellectual history that examines two of the greatest minds of European history—Desiderius Erasmus and Martin Luther—whose heated rivalry gave rise to two enduring, fundamental, and often colliding traditions of philosophical and religious thought. Erasmus

of Rotterdam was the leading figure of the Northern Renaissance. At a time when Leonardo, Michelangelo, and Raphael were revolutionizing Western art and culture, Erasmus was helping to transform Europe's intellectual and religious life, developing a new design for living for a continent rebelling against the hierarchical constraints of the Roman Church. When in 1516 he came out with a revised edition of the New Testament based on the original Greek, he was hailed as the prophet of a new enlightened age. Today, however, Erasmus is largely forgotten, and the reason can be summed up in two words: Martin Luther. As a young friar in remote Wittenberg, Luther was initially a great admirer of Erasmus and his critique of the Catholic Church, but

while Erasmus sought to reform that institution from within, Luther wanted a more radical transformation. Eventually, the differences between them flared into a bitter rivalry, with each trying to win over Europe to his vision. In *Fatal Discord*, Michael Massing seeks to restore Erasmus to his proper place in the Western tradition. The conflict between him and Luther, he argues, forms a fault line in Western thinking—the moment when two enduring schools of thought, Christian humanism and evangelical Christianity, took shape. A seasoned journalist who has reported from many countries, Massing here travels back to the early sixteenth century to recover a long-neglected chapter of Western intellectual life, in which the introduction of new ways of reading the Bible set loose social and

cultural forces that helped shatter the millennial unity of Christendom and whose echoes can still be heard today. Massing concludes that Europe has adopted a form of Erasmian humanism while America has been shaped by Luther-inspired individualism.

The Christian Between God and Death Fortress Press

This early work on Martin Luther is both expensive and hard to find in its first edition. It details the life of the monk responsible for translating the Bible from Latin into German and for inspiring the Lutheran movement. This is a fascinating work and is thoroughly recommended for anyone interested in the history of European religion. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are

republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Young Man Luther: A Study in Psychoanalysis and History Oxford University Press (UK)

He was the most influential man of his day. The movement that began with his posting of the Ninety-five Theses reshaped Europe, redirected Christian history, and recovered the truth of Gods word. Five hundred years later, what is Luthers legacy? In this volume, R.C. Sproul, Stephen J. Nichols, and thirteen other scholars and pastors examine his life, teaching and enduring influence. Meet Martin Luther, the mercurial

Reformer who, out of love for the truth and the desire to bring it to light, set the world ablaze.

Luther the Reformer

Bloomsbury Publishing
Martin Luther remains a popular, oft-quoted, referenced, lauded historical figure. He is often seen as the fulcrum upon which the medieval turned into the modern, the last great medieval or the first great modern; or, he is the Protestant hero, the virulent anti-Semite; the destroyer of Catholic decadence, or the betrayer of the peasant cause. An important but contested figure, he was all of these things.

Understanding Luther's context helps us to comprehend how a single man could be so many seemingly contradictory things simultaneously. *Martin Luther in Context* explores the world around

Luther in order to make the man and the Reformation movement more understandable. Written by an international team of leading scholars, it includes over forty short, accessible essays, all specially commissioned for this volume, which reconstruct the life and world of Martin Luther. The volume also contextualizes the scholarship and reception of Luther in the popular mind.

The Life and Times of Martin Luther

This book about Luther's theology is written out of a two-fold conviction. First, that many of our problems have arisen because we have not really understood our own traditions, especially in the case of Luther; and second, that there is still a lot of help for us in someone like Luther if we take the trouble to probe beneath the surface. It is an attempt to interpret Luther's theology for our own day. The fundamental theme of the book is the "down-to-earth" character of Luther's theology. In using this theme, Forde

points out that we have failed to understand the basic thrust or direction of Luther's theology and that this failure has caused and is still causing us grief. Modern scholarship has demonstrated that Luther simply did not share the views on the nature of faith and salvation that subsequent generations have foisted upon him and used to interpret his thinking. This book attempts to bring the results of some of that scholarship to light and make it more accessible to those who are searching for answers today. The central questions of Christianity are examined in this fresh restatement of Luther's thought the God-man relationship, the cross, the sacraments, this world

and the next, and the role of the church. The author presents the "down-to-earth" character of Luther's theology in the hope that it will help individual Christians today to be both faithful to God and true to their human and social responsibilities.

Luther's Faith

Canongate Books

Martin Luther's historical significance can hardly be overstated. Known as the father of the Protestant Reformation, no single figure has had a greater impact on Western Christianity except perhaps Augustine. In *Luther on the Christian Life*, historian Carl Trueman introduces readers to the lively Reformer, taking them on a tour of his historical context, theological system, and approach to the Christian life. Whether exploring Luther's theology of protest, ever-present sense of humor, or misunderstood view of sanctification, this addition to Crossway's *Theologians on the*

Christian Life series highlights the ways in which Luther's eventful life shaped his understanding of what it means to be a Christian. Ultimately, this book will help modern readers go deeper in their spiritual walk by learning from one of the great teachers of the faith. Part of the Theologians on the Christian Life series.

Revelation W. W. Norton & Company

Does God suffer within himself? Does God suffer only in the humanity of Jesus Christ? Or does only the God-man Jesus Christ suffer? This book seeks to demonstrate that the suffering of God has an "ontological status" in Luther's *Theologia Crucis*. The discussion concentrates on three constituents of Luther's theology - Christology, soteriology, and Trinity - to see how each of

them establishes the assertion that God suffers. It also places Luther within the modern discussions of Essential Apathy: Luther accepts the Old Church's Theopaschitism, but rejects Patripassianism, a heresy of the Old Church. This study breaks new ground by taking Luther a step further, arguing that only a Trinitarian theology of the cross is genuine Christian theology, and that the suffering of Christ touches the immanent Trinity as well as the economic Trinity. Ngien engages in useful discussions with other scholars including Paul Althaus, Walter von Loewenich, Ian Siggins, Marc Lienhard, Eberhard Jungel, Jurgen Moltmann, and Alister McGrath. "Dr. Ngien has done a good job of sorting out Luther's numerous statements about the suffering of God and finding consistency in them. He engages in a useful discussion with other Lutheran commentators. He presents a concise and competent survey of the early church's

discussion of the suffering of God and also attends to Luther's reception of and reaction to late medieval thought." - David E. Demson, University of Toronto
