The Beginner's Guide to Reloading Ammunition Gun Digest

If you've ever wanted to reload ammunition but didn't know where to start this book is for you. You'll find detailed chapters about primers, cartridge cases, gun powder, and bullets, explaining in layman's terms what they are, variations you'll encounter and the characteristics of each. You'll also learn the different facets of case preparation: which are necessary and which are optional, and how to do them. You'll learn some characteristics of gunpowder and which types work best with bulk measurements. There'll be detailed photos and explanations teaching the process of reloading ammunition. From there you'll be shown how you can gear up to reload your own ammunition even if you don't have much money or space. Although most of the book is geared toward metallic cartridge reloading there's also a chapter on reloading shotgun ammunition. It too, will show you the steps involved and how to become operational with very little money and minimal space requirements. After reading this book the novice reloader will: (a) be capable of making informed choices when purchasing their equipment and components; (b) be able to understand the reloading process and why certain steps are taken or omitted; (c) have a safe, profitable and enjoyable experience from the very beginning.

The Classic Reference - Bigger and Better than Ever One of the most respected reloading texts of all time, Reloading for Shotgunners is now bigger, more comprehensive and more profusely illustrated than ever! This all-new fifth edition includes exhaustive data for lead and non-toxic shot - and it goes well beyond the ho-hum 2-3/4" 12-gauge data contained in other books. From .410 bored to 10-gauge magnum, from 2" hulls to the mammoth 3-1/2", if it can be fired in a shotgun, it's in this book! Rick Sapp, co-author of The Gun Digest Book of Trap & Skeet, has outdone himself in creating this masterful compilation of shotgun reloading data. Whether you're a novice shotgunner or a seasoned reloader, you can't afford to be without this ground-breaking fifth edition of Reloading for Shotgunners.

25% of this book's proceeds will be donated to two military charities: the Special Operation Warrior Foundation and the Sua Sponte Foundation. This book is the complete beginner's guide to long range shooting written in simple every-day language so that it's easy to follow. Included are personal tips and best advice from my years of special operations sniper schooling and experience, and as a sniper instructor. If you are an experienced shooter, this guide will be a resource covering the principles and theory of long range shooting. This is the preliminary book to help you understand fundamental concepts such as MOA vs Mils and external ballistics, that can be like a trusted resource at the range. Learning to shoot long range isn't that difficult. Once you understand the basics, you can start to master your technique and you'll be hitting targets in no time. The author has a series of online instructional videos known for their ability to take seemingly complex areas of long range shooting and breaking them down so that they're easy to understand. This book was motivated by the feedback from those videos. The handbook is broken down into three main categories: What it is/How it works, Fundamentals, and How to use it. "What it is/How it works" covers equipment, terminology, and basic principles. "Fundamentals" covers the theory of long range shooting. "How to use it" gives you practical advice on how to implement what you've learned so far to make you a long range

shooter.

Watch a 700-year history unfold, from the medieval "hand-gonne" to today's technologically advanced assault weapons. Discover how gun design influenced warfare, from the 15th century when the arquebus defeated swordsmen, to the 20th century when the submachinegun gave the military vastly increased firepower. Guns: A Visual History shows in unique visual

detail on how gun design evolved. It features more than 300 iconic examples, including the military AK-47 assault rifle and the pistol used by many police forces - the Glock 17. Each weapon is shown in close up with details of its design, barrel, calibre, and firepower. This comprehensive volume also features sporting guns, anti-tank weaponry and concealed assassin spy guns, such as the umbrella gun that killed Georgi Markov in 1978. It takes you inside iconic firearm firms such as Biretta, Colt and Lee Enfield, and tells stories of infamous sharpshooters from Dick Turpin to Al Capone. Whether you collect firearms or enjoy field sports and military history, *Guns: A Visual History* is an unmissable reference title.

DON'T LET THE TITLE of this book fool you, fellows. This is indeed the handbook for commercial bullet casters, but the make-'em-for-money people are not the only ones who need to keep it handy and consult it often. Any basement or garage bullet caster could tear out and throw away its chapters on the excellent machinery that the Magma Engineering Company makes, plus its chapters on doing business on a commercial producer of cast bullets, and he would still have a manual on bullet casting that's worth more than it costs.

This publication is an informative guide book on reloading to include equipment and accessories used as tools of the trade. It also includes my extensive experiences as a reloader of approximately three hundred thousand rounds during the past thirty-five years. The book covers fourteen chapters with a major emphasis on Dillon reloading equipment and its many accessories. It does include discussions on other products from major manufacturers. Other chapters mention such subjects as reloading dies, primers, new pistol powders, reloading the 9mm, plated/coated/moly bullets, special topics, FAQs, and the Ruger American Pistol reviews with my experience loading for this firearm. This book is not an A to Z manual on how to begin reloading. It is a highly referenced publication that is written for all working reloaders who want to learn more usable info and wish to develop a lifelong

hobbypractical volume reloading.
