Crash Course - Anatomy & Physiology

So, much of the rest of your lymphatic system works to soak it up and get it back to where it needs to go, inspecting it along the way. For example, you have a network

of lymphatic vessels that help reabsorb the fluid, and about 600 or 700 lymph nodes, which are basically checkpoints that monitor and cleanse the lymph as it filters through.

Next, the teacher should hand out the “Our Lymphatic System” worksheet. If it is possible, project the “Our Lymphatic System” worksheet onto the board using a projector or put into a PowerPoint document and project so that the teacher can point while they explain.

*The Lymphatic System and Immune
Response*

A lymphatic system worksheet consists of the lymphatic and immune systems. These two systems are closely related to other organ systems and will share several physiological functions. Our body has an immune/lymphatic system to use as a defense against bacteria, infectious pathogenic viruses, fungi, protists, and parasitic animals.
