The Hard Switch is coming. The time approaches when the mineral that makes inter-system jump navigation possible will run out. When the last piece has gone, the vast, diverse and scattered inhabitants of the galaxy will be stuck wherever they are. Some will have the means to choose this, others will take what they've got, or at least the best they can get. Either way, society as it has been for aeons, will exist in a new state. In the face of this impending seismic change, the crew of a small cargo freighter struggle to make a living amid the chaos and desperation that is beginning to take hold. Survival would be enough, but a chance discovery alters their plans and may prove to be a vital key to unlocking a future for all; not just the chosen few

Many only make an appearance on a nice, sunny day, perhaps attending classic events or taking an early evening summer ride with friends. Buying one of these motorcycles can be expensive, yet find one in need of just the lightest restoration and you may strike a bargain price. Restoration is not as difficult as it may at first appear, and benefiting from Ricky Burns' hands-on knowledge and experience, this step-by-step illustrated guide will give any potential restorer all the advice, tips and

shortcuts needed to make an economical, easy restoration happen. This book covers dismantling and rebuilding, sourcing parts, special tools, tackling bodywork, restoring engines and mechanical parts, and much more.
