Dana White is referred to by many as the King of MMA, and one cannot deny the immense popularity of Dana in the MMA community and business world.

Dana has taken a failing business, an unknown sport to most and turned it into an international, muliti-billion dollar business. He has put his face out there as the face of mma and ultimate fighting, and is known world wide. Who is Dana White? Dana remains elusive in interviews and all that is known about Dana, comes from interviews with him. In his biography you will discover the real Dana White, striped of all myths, lies and tales, and told through the eyes of the woman who raised him. You will see the child, the man, the King of MMA. The good, the bad and the ugly.

This is the most current textbook in teaching the basic concepts of abstract algebra. The author finds that there are many students who just memorise a theorem without having the ability to apply it to a given problem. Therefore, this is a hands-on manual, where many typical algebraic problems are provided for students to be able to apply the theorems and to actually practice the methods they have learned. Each chapter begins with a statement of a major result in Group and Ring Theory, followed by problems and solutions. Contents: Tools and Major Results of Groups; Problems in

The Taiwan economy has undergone a successful transition in the post-war period- transition from agricultural to industrial, from traditional to modern, and from backward to advanced economy. This book explores and illuminates broad dimensions of the transition growth of the Taiwan economy for the period 1951-81. It deals in depth with all major aspects: key issues of the early period; labor absorption and income distribution; trade, prices and external shocks; technical change; and

economic policies. The coverage of these topics is extensive, so as to give readers a comprehensive outlook of the development of Taiwan after the Second World War. Helen Wellings' Home Energy Guide Scholastic Reference Security in Translation proposes an innovative way to capture the evolution, spread and local transformation of threat images in world affairs. Reworking traditional securitization theory, this book develops a coherent new framework for analysis that makes securitization theory applicable to empirical studies.
