**Service Games: The Rise and Fall of SEGA Spectra**

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation

to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest

---

and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

The Body Impolitic is a critical study of tradition, not merely as an ornament of local and national heritage, but also as a millstone around the necks of those who are condemned to produce it. Michael Herzfeld takes us inside a rich variety of small-town Cretan artisans' workshops to show how apprentices are systematically thwarted into learning by stealth and guile. This harsh training reinforces a stereotype of artisans as rude and uncultured. Moreover, the same stereotypes that marginalize artisans locally also operate to marginalize Cretans within the Greek nation and Greece itself within the international community. What Herzfeld identifies as "the global hierarchy of value" thus frames the nation's ancient

---

monuments and traditional handicrafts as evidence of incurable "backwardness." Herzfeld's sensitive observations offer an intimately grounded way of understanding the effects of globalization and of one of its most visible offshoots, the heritage industry, on the lives of ordinary people in many parts of the world today.
