Complete Engines for BMW X5 for sale | eBay

The BMW N57 is a family of aluminium, turbocharged straight-6 common rail diesel engines. The engines utilize variable geometry turbochargers and Bosch piezo-electric injectors. The engine jointly replaced the M57 straight-6 and M67 diesel V8 engines. In 2015 the N57 started to be replaced with the B57 engine, beginning with the G11 730d.

BMW M57 D30, 3.0 Diesel Engine For Sale

The M57 is a light engine too, possibly lighter than the TD5 so technically should stop and handle better once you don't drive like a complete idiot. The cummins Defenders though are far heavier so would need better

brakes and suspension far more even if not driven hard
DaveM-sport, Jan 2, 2018 #3
BMW diesel M57 conversion - International Forum - LR4x4 ...
The M57 is a water-cooled and turbocharged inline six cylinder diesel engine with common-rail injection. It is based on its predecessor, the M51, which was a six-cylinder diesel engine with a Bosch VP20 swirl chamber (in-Direct) injection or IDI as its commonly known, and was fitted to the E34 to E39 td and tds models.

BMW 5 Series Complete Engines for sale | eBay

If you either have a tuned 2.5 P38 or want to fit a M57 to the ZF4HP22 then the only real option you have is to use the P38 diesel ZF bell housing and associated torque converter, this is the smallest of the 3 diameters of converter used by landrover and when this is used on a high torque engine such as this it results in high revs and lots of heat, you will often rev straight past the early torque the M57 produces.

BMW M57 engine - AustralianCar.Reviews

The N47 or M57 engine is rebuilt with modified chains, guides and tensioners supplied by BMW to reduce the risk of a repeat failure. If your engine has been damaged by a snapped timing chain, you will require the full engine rebuild procedure, inclusive of BMW parts.

The BMW X5 Diesel engine. BMW introduced the X5 to a Diesel engine in 2009. It's a 3.0-liter turbodiesel straight-6 with 265 horsepower and 425 pound-feet of torque. It came with a six-speed transmission. It is called an M57 or an N57 by the factory. These engines use variable geometry turbochargers and Bosch piezo-electric injectors

M57 BMW Engine to ZF Kit - Ashcroft Transmissions

I was originally looking to use a Mercedes OM606 but have now decided to go with the BMW M57 as it's a bit more refined and economical. This engine is a common rail inline six cylinder diesel with an excellent reputation. I have decided to use the older version of this engine which produces 184BHP in standard form.
