Engine Conversion - BMW M57 into a 90 - Modified Vehicle ...

I was originally looking to use a Mercedes OM606 but have now decided to go with the BMW M57 as it ' s a bit more refined and economical. This engine is a common rail inline six cylinder diesel with an excellent reputation. I have decided to use the older version of this engine which produces 184BHP in standard form.

BMW N57 - Wikipedia

The M57 is a light engine too, possibly lighter than
the TD5 so technically should stop and handle
better once you don't drive like a complete idiot.
The cummins Defenders though are far heavier so
would need better brakes and suspension far more
even if not driven hard DaveM-sport, Jan 2, 2018

BMW M57 D30, 3.0 Diesel Engine For Sale

BMW M57 SERVICE TRAINING Pdf

Download | ManualsLib

The N47 or M57 engine is rebuilt with
modified chains, guides and tensioners supplied
by BMW to reduce the risk of a repeat failure.
If your engine has been damaged by a snapped
timing chain, you will require the full engine
rebuild procedure, inclusive of BMW parts.
Engine Code: N47D20A (2007-2009) rebuild
cost will be £2,000

Bmw Engines - BMW M57 Engine (1998-)

If you either have a tuned 2.5 P38 or want
to fit a M57 to the ZF4HP22 then the only
real option you have is to use the P38 diesel
ZF bell housing and associated torque
converter, this is the smallest of the 3
diameters of converter used by landrover
and when this is used on a high torque
engine such as this it results in high revs

and lots of heat, you will often rev straight past the early torque the M57 produces.

BMW diesel M57 conversion - International Forum - LR4x4 ...

The M57 is a water-cooled and turbocharged inline six cylinder diesel engine with common-rail injection. It is based on its predecessor, the M51, which was a six-cylinder diesel engine with a Bosch VP20 swirl chamber (in-Direct) injection or IDI as its commonly known, and was fitted to the E34 to E39 td and tds models.

BMW N57 - Wikipedia

The BMW N57 is a family of aluminium, turbocharged straight-6 common rail diesel engines. The engines utilize variable geometry turbochargers and Bosch piezo-electric

injectors. The engine jointly replaced the M57 straight-6 and M67 diesel V8 engines. In 2015 the N57 started to be replaced with the B57 engine, beginning with the G11 730d.

Tuning the BMW M57 Engine - Darkside Developments

Another fan of the M57 3.0L diesel here. Mine's on 235k and be remapped to 450lb.ft of torque for half of that. Turbo is only the big let down, mainly I think due to BMW being optimistic with oil change intervals from the off. 1
