I've boosted from the
oldschool engine, original
184hp one, to 345hp. But on
that, the head is super
restrictive. Adding fuel or

boost didn't matter and the engine turned out to be worn out too. A guy I know just did a full engine work on his 535D 272hp version and installed 286hp head and valves etc. Got the bigger turbo hybrid too.
