Mine has 193k miles and it still runs good. As long as you keep up with the maintenance, they should last forever. M62 probably outlast the car, you'll see wheels falling off long before M62 dies. besides, we're talking about 50k+ cars, so generally expensive mid size/ large size luxury cars lasts much longer than average econobox.

Before we get too far, note that these issues are much more common the E39 540i. The 540i uses a similar engine, the 4.4 liter M62. That engine runs around 110C when at operating temperature. This much hotter temperature than the S62's cool 79C and bakes all of the timing components, vastly shortening their lifespan.
