Master the essential principles of economics with the help of today's most popular educational economics series that's trusted worldwide. Mankiw's ESSENTIALS OF ECONOMICS, 9E uses a concise, inviting presentation that emphasizes only the material that helps you better understand the world and economy in which you live. You learn to become a more astute participant in today's economy with a strong understanding of both the potential and limits of economic policy. The latest relevant examples bring economic principles to life. Acclaimed author Gregory Mankiw explains, I tried to put myself in the position of someone seeing economics for the first time. My goal is to emphasize the material that learners should and do find interesting about the study of the economy. Real scenarios, useful economic facts, and clear explanations demonstrate how economic concepts play a role in the decisions you make every day. edition boils economics
down to its essentials, by
considering what is truly
important for students to

learn in their first course in economics. In keeping with the authors' philosophy of showing students the power of economic tools and the importance of economic ideas, this edition pays careful attention to regional and global policies and economic issues – including the impacts of the contemporary macroeconomic issues, inflation, unemployment, interest rates, and monetary and fiscal policy.

The resource emphasises the material that students should and do find interesting about the study of the economy, resulting in a focus on applications and policy, and less on formal economic theory. Principles of Macroeconomics, 8th edition encourages students to make their own judgements by presenting both sides of the debate on five controversial issues facing policy makers: the proper degree of policy activism

in response to the business cycle, the choice between rules and discretion in the conduct of monetary policy, the desirability of reaching zero inflation, the importance of balancing the government's budget, and the need for tax reform to encourage saving.
