### Macworld

The "code economy" refers to the evolving technologically-driven environment we live in. In services or manufacturing, outputs emerge more and more from coded computerized systems and less as assembled mechanical devices and procedures. Industries seek algorithms to make software not only more reliable for firms' development of products and services, but also to market them and ease their purchase and use by consumers. This process

automates jobs. It gives increasing economic advantage to entrepreneurs who can harness "code" to serve on the large scale the growing niches into which consumers are organized. Yet, mastering the "code" also gives individuals and informal social networks the resources to bundle products and services and put them up for sale and convenient use at more local levels. The economics of the rest of the 21st century will see the movement away from traditional firms and more toward people's relying on themselves as the sources of their livelihoods. The code economy has clearly not developed in a vacuum. Invention, innovation, and the pursuit of happiness have characterized human activities for centuries. What is changing is how societies and

---

individuals radically value endeavors in life differently from even a decade ago, most notably away from industries organized as "command and control" systems. In *The Code Economy*, Philip Auerwald investigates how economists themselves have been hard pressed to gauge new economic indices of satisfaction that go beyond traditional measures. He explores how the code or "shared" economy reaches into domains such as health, where greater longevity, the popularization of medical knowledge, and the emphases on preventive care and wellness will complement the delivery of medical services. Further, living in the code economy will prompt people to orient their children's futures to more self-reliant pursuits and seek investments that truly serve

them and not the institutions that have traditionally dominated the financial and economic worlds.

### Cars & Parts

The Navy Yeoman (YN) is an administrative related field and is normally assigned to an administrative office. In today's Navy, the YN carries out a broad range of duties which include office procedures, typing correspondence such as official letters, instructions, notices, plan of the day, fitness and evaluation forms and forms management programs, mail management, security, legal, awards, and records disposal. YN also must demonstrate a working knowledge of pay and allowances, leave procedures, along with maintaining officer and enlisted service records, officer promotions and enlisted advancements. YN must understand the

following programs: the officer distribution control report (ODCR) and enlisted distribution verification report (EDVR), casualty assistance calls officer (CACO), social usage and protocol, travel, navy standard integrated personnel system (NSIPS), and individual personnel tempo (ITEMPO). YN also need to have an understanding of working with flag offices.

Established in 1911, The Rotarian is the official magazine of Rotary International and is circulated worldwide. Each issue contains feature articles, columns, and departments about, or of interest to, Rotarians. Seventeen Nobel Prize winners and 19 Pulitzer Prize winners – from Mahatma Ghandi to Kurt Vonnegut Jr. – have written for the magazine.

Maine Register, State Year-book and Legislative Manual  
The Red Team Field Manual (RTFM) is a no fluff, but thorough reference guide for serious Red Team members who routinely find themselves on a mission without Google or the time to scan through a man page. The RTFM contains the basic syntax for commonly used Linux and Windows command line tools, but it also

encapsulates unique use cases for powerful tools such as Python and Windows PowerShell. The RTFM will repeatedly save you time looking up the hard to remember Windows nuances such as Windows wmic and dsquery command line tools, key registry values, scheduled tasks syntax, startup locations and Windows scripting. More importantly, it should teach you some new red team techniques.
