MacBook Air User Guide
The Detailed Manual to Operate Your Mac (For Beginners and Seniors)
In July 2019, Apple updated the MacBook Air that was originally redesigned in October 2018. Even though there were no major updates to the MacBook Air, the enhancement led to a new butterfly keyboard which utilizes the same updated materials like the 2019 MacBook Pro, some small SSD changes, an improved display with True Tone, and a lower price tag. The MacBook Air has a T2 chip as well as fingerprint sensor for the Touch ID that can be used instead of entering password. This T2 chip is built for enhanced security on the MacBook Air by ensuring a secure boot process through Secure Enclave, and fast data encryption with an SSD controller. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users. Some of these features include the Screen Time, division of iTunes into 3 separate apps, using the iPad as a second screen, otherwise known as Sidecar and lots more. This user guide contains detailed steps on how to explore all the new features on your computer along with screenshots to make it easy for you to familiarize yourself with the workings of the macOS Catalina. Whether you are just buying a new Mac device or downloading the new software to your existing device, this book would help you to achieve better and faster productivity. Some of the things you would learn in this book include:
How to Install macOS Catalina
How to Backup and Restore your Devices on macOS Catalina
How to Organize the Mac Desktop

How to Use Find My How to Sign Documents on your Devices
How to Setup Sidecar on your Devices

In November 2019, Apple launched the 16-inch MacBook Pro which took the place of the previous 15-inch model. Currently, the lineup includes the 16-inch model and the 13-inch model. The features for the 16-inch model include an improved keyboard that has a scissor mechanism rather than a butterfly mechanism, slimmer bezels, bigger 16-inch Retina display, graphics cards from the AMD Radeon Pro 5000M Series, a maximum of 8TB storage space, and a maximum of 64GB RAM. In May 2019, the higher-end 13-inch model was refreshed by Apple, while the entry-level models were refreshed in July 2019, making them comparable to the more expensive choices. The updated features include new quad-core processors, an improved butterfly keyboard, True Tone support, T2 security chip, Touch ID, and Touch Bar. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users.
