At the heart of AutoCAD is the Command window, which is normally docked at the bottom of the application window. The Command window displays prompts, options, and messages. You can enter commands directly in the Command window instead of using the ribbon, toolbars, and menus. Many long-time AutoCAD users prefer this method.

An Introduction to AutoCAD for Beginners

After I activate circle, AutoCAD will tell me to specify a start point, and give an option: I can switch from specifying a start point to a center point. This time, I type the capital letter in the option, C, to specify the center point. Then AutoCAD asks me for the center point, start point, then end point consecutively.
