So, when you require the ebook swiftly, you can straight get it. Its hence definitely easy and thus fats, isnt it? You have to favor to in this manner

Rules for Radicals Gateway Books

You've heard of the "Great Books"? These are their evil opposites. From Machiavelli's *The Prince* to Karl Marx's *The Communist Manifesto* to Alfred Kinsey's *Sexual Behavior in the Human Male*, these "influential" books have led to war, genocide, totalitarian oppression, family breakdown, and disastrous social experiments. And yet these authors' bad ideas are still popular and pervasive--in fact, they might influence your own thinking without your realizing it. Here with the antidote is Professor Benjamin Wiker. In his scintillating new book, *10 Books That Screwed Up the World (And 5 Others That Didn't Help)*, he seizes each of these evil books by its malignant heart and exposes it to the light of day.

The Idiot W. W. Norton &

Company

In *Redeeming "The Prince,"* one of the world's leading Machiavelli scholars puts forth a startling new interpretation of arguably the most influential but widely misunderstood book in the Western political tradition. Overturning popular misconceptions and challenging scholarly consensus, Maurizio Viroli also provides a fresh introduction to the work. Seen from this original perspective, five centuries after its composition, *The Prince* offers new insights into the nature and possibilities of political liberation. Rather than a bible of unscrupulous politics, *The Prince*, Viroli argues, is actually about political redemption--a book motivated by Machiavelli's patriotic desire to see a new founding for Italy. Written in the form of an oration, following the rules of classical rhetoric, the book condenses its main message in the final section, "Exhortation to liberate Italy from the Barbarians." There Machiavelli creates the myth of a redeemer, an ideal ruler who ushers in an era of peace, freedom, and unity. Contrary to scholars who maintain that the exhortation was added later, Viroli proves that Machiavelli composed it along

with the rest of the text, completing the whole by December 1513 or early 1514. Only if we read *The Prince* as a theory of political redemption, Viroli contends, can we at last understand, and properly evaluate, the book's most controversial pages on political morality, as well as put to rest the cliché of Machiavelli as a "Machiavellian." Bold, clear, and provocative, *Redeeming "The Prince"* should permanently change how Machiavelli and his masterpiece are understood.

Machiavelli: The Prince Modern Library

The Art of War is an enduring classic that holds a special place in the culture and history of East Asia. An ancient Chinese text on the philosophy and politics of warfare and military strategy, the treatise was written in 6th century B.C. by a warrior-philosopher now famous all over the world as Sun Tzu. Sun Tzu's teachings remain as relevant to leaders and strategists today as

they were to rulers and military generals in ancient times. Divided into thirteen chapters and written succinctly, *The Art of War* is a must-read for anybody who works in a competitive environment.

CliffsNotes Machiavelli's *The Prince* Houghton Mifflin Harcourt

THE MILLION COPY INTERNATIONAL

BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

_____ (From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to

lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, *Volume Three*, was wack. People set higher standards for me, and I love it.

Large Print Hassell Street Press
Book one of the New York Times bestselling *All Souls* trilogy—"a wonderfully imaginative grown-up fantasy with all the magic of Harry Potter and *Twilight*"

(People). Look for the hit TV series "A Discovery of Witches," streaming on AMC Plus, Sundance Now and Shudder. Season 2 premieres January 9, 2021! Deborah

Harkness's sparkling debut, *A Discovery of Witches*, has brought her into the spotlight

and galvanized fans around the world. In this tale of passion and obsession, Diana Bishop, a young scholar and a descendant of witches, discovers a long-lost and enchanted alchemical manuscript, *Ashmole 782*, deep in Oxford's Bodleian Library. Its reappearance summons a fantastical underworld, which she navigates with her leading man, vampire geneticist Matthew Clairmont. Harkness has created a universe to rival those of Anne Rice, Diana Gabaldon, and Elizabeth Kostova, and she adds a scholar's depth to this riveting tale of magic and suspense. The story continues in book two, *Shadow of Night*, and concludes with *The Book of Life*.

A Dialogue on the Moral Foundations of Commerce and Politics

Vintage

First published in 1971, Rules for Radicals is Saul Alinsky's impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." Written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement

with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

CliffsNotes The Prince
Profile Books

A master class in strategic thinking, distilled from the legendary program the author has co-taught at Yale for decades. For almost two decades, Yale students have competed for admission each year to the "Studies in Grand Strategy" seminar taught by John Lewis Gaddis, Paul Kennedy, and Charles Hill. Its purpose has been to prepare future leaders for responsibilities they will face, through lessons drawn from history and the classics. Now Gaddis has distilled that teaching into a succinct, sharp and potentially transformational book, surveying statecraft from the ancient Greeks to Franklin D. Roosevelt and beyond. An unforgettable guide to the art of leadership, *On Grand Strategy* is, in every way, its own master class.

The Machiavellians, Defenders of

Freedom Cambridge University Press
The third in Robert Greene's bestselling series is now available in a pocket sized concise edition. Following 48 Laws of Power and The Art of Seduction, here is a brilliant distillation of the strategies of war to help you wage triumphant battles everyday. Spanning world civilisations, and synthesising dozens of political, philosophical, and religious texts, *The Concise 33 Strategies of War* is a guide to the subtle social game of everyday life. Based on profound and timeless lessons, it is abundantly illustrated with examples of the genius and folly of everyone from Napoleon to Margaret Thatcher and Hannibal to Ulysses S. Grant, as well as diplomats, captains

of industry and Samurai swordsmen. The Meaning of Machiavelli's Masterpiece HMH The former Hollywood king reveals secret techniques with proven results on mastering the art of submission. A look inside of the mind of the master as well as a chilling peek into the shadow world. A modern-day guide parallel to *The Prince* by Machiavelli ([link](#)). This book gives a panoramic view of the psychology that goes into the complete control over others-mind, body and spirit. Secrets known by a select sect and mastered by an elite few are finally exposed. *The Pimp Game* thoroughly explains how these methods are being practiced, performed, and perfected every day, everywhere right up to, and

including the Oval office. Systems of Survival Profile Books This new edition of the acclaimed translation of Niccol-Machiavelli's *The Prince* - revised for the first time after thirty years - includes a rewritten and extended introduction by Quentin Skinner. Niccol-Machiavelli is arguably the most famous and controversial figure in the history of political thought. *The Prince* remains his best-known work, and throws down a challenge that subsequent writers on statecraft and political morality have found impossible to ignore. Quentin Skinner's introduction offers a lucid analysis of Machiavelli's text both as a response to the world of Florentine politics and as a critical engagement with the classical and Renaissance genre of advice-books for princes. This new edition also features an improved timeline of key events in Machiavelli's life, helping the reader place the work in the

context of its time, in addition to an enlarged and fully updated bibliography.

The Reason of State
University of Chicago Press

The original CliffsNotes study guides offer expert commentary on major themes, plots, characters, literary devices, and historical background. The latest generation of titles in this series also feature glossaries and visual elements that complement the classic, familiar format. In CliffsNotes on *The Prince*, you explore the Italian Renaissance in Florence in the late 1400s and early 1500s, during which Machiavelli was a statesman who took a special interest in observing the distinct intelligence that made certain rulers successful. In a nutshell, *The Prince* is an analysis of how to acquire and maintain political power. It remains one of the definitive statements of power and control and is based on what Machiavelli saw, not what he felt or imagined. This study guide carefully walks

you through *The Prince* by providing summaries and critical analyses of each chapter of the book. You'll also explore the life and background of the author. Other features that help you study include a list of people the book explores, glossaries in each chapter to define new terms, critical essays about topics like the vilification of Machiavelli and free will. A review section that tests your knowledge, a resource center with books, magazine articles, and web sites for more study, classic literature or modern modern-day treasure – you'll understand it all with expert information and insight from CliffsNotes study guides.

The Prince of the Marshes Cambridge University Press
All states and dominions which hold or have held sway over mankind are either republics or monarchies. Monarchies are either hereditary ones, in which the rulers have been for many years of

the same family, or else they are those of recent foundation. The newly founded ones are either entirely new, as was Milan to Francesco Sforza, or else they are, as it were, new members grafted on to the hereditary possessions of the prince that annexes them, as is the kingdom of Naples to the King of Spain. The dominions thus acquired have either been previously accustomed to the rule of another prince, or else have been free states, and they are annexed either by force of arms of the prince, or of others, or else fall to him by good fortune or merit. I will not here speak of republics, having already treated of them fully in another place. I will deal only with monarchies, and

will show how the various kinds described above can be governed and maintained. In the first place, in hereditary states accustomed to the reigning family the difficulty of maintaining them is far less than in new monarchies; for it is sufficient not to exceed the ancestral usages, and to accommodate one's self to accidental circumstances; in this way such a prince, if of ordinary ability, will always be able to maintain his position, unless some very exceptional and excessive force deprives him of it; and even if he be thus deprived of it, on the slightest misfortune happening to the new occupier, he will be able to regain it. We have in Italy the example of the Duke of Ferrara, who was

able to withstand the assaults of the Venetians in the year '84, and of Pope Julius in the year '10, for no other reason than because of the antiquity of his family in that dominion. In as much as the legitimate prince has less cause and less necessity to give offence, it is only natural that he should be more loved; and, if no extraordinary vices make him hated, it is only reasonable for his subjects to be naturally attached to him, the memories and causes of innovations being forgotten in the long period over which his rule has existed; whereas one change always leaves the way prepared for the introduction of another.

The Prince

Strelbytskyy
Multimedia Publishing
The Closing of the
American Mind, a

publishing phenomenon in hardcover, is now a paperback literary event. In this acclaimed number one national best-seller, one of our country's most distinguished political philosophers argues that the social/political crisis of 20th-century America is really an intellectual crisis. Allan Bloom's sweeping analysis is essential to understanding America today. It has fired the imagination of a public ripe for change.

Machiavelli for Women Cliffs Notes
Niccolò Machiavelli (1469-1527) is the most famous and controversial figure in the history of political thought and one of the iconic names of the Renaissance. The Cambridge Companion to Machiavelli brings together sixteen original essays by leading experts, covering his life, his career in

Florentine government, his reaction to the dramatic changes that affected Florence and Italy in his lifetime, and the most prominent themes of his thought, including the founding, evolution, and corruption of republics and principalities, class conflict, liberty, arms, religion, ethics, rhetoric, gender, and the Renaissance dialogue with antiquity. In his own time Machiavelli was recognized as an original thinker who provocatively challenged conventional wisdom. With penetrating analyses of *The Prince*, *Discourses on Livy*, *Art of War*, *Florentine Histories*, and his plays and poetry, this book offers a vivid portrait of this extraordinary thinker as well as

assessments of his place in Western thought since the Renaissance.

The Power Paradox
Harper Collins
Winner of the 2015 Los Angeles Times Book Prize for Current Interest. "I can't imagine a more important book for our time." –Sebastian Junger

The world is blowing up. Every day a new blaze seems to ignite: the bloody implosion of Iraq and Syria; the East-West standoff in Ukraine; abducted schoolgirls in Nigeria. Is there some thread tying these frightening international security crises together? In a riveting account that weaves history with fast-moving reportage and insider accounts from the Afghanistan war, Sarah Chayes identifies the unexpected link: corruption. Since the late 1990s, corruption has reached such an extent that some governments resemble glorified criminal gangs, bent solely on their own enrichment. These kleptocrats

drive indignant populations to extremes—ranging from revolution to militant puritanical religion. Chayes plunges readers into some of the most venal environments on earth and examines what emerges: Afghans returning to the Taliban, Egyptians overthrowing the Mubarak government (but also redesigning Al-Qaeda), and Nigerians embracing both radical evangelical Christianity and the Islamist terror group Boko Haram. In many such places, rigid moral codes are put forth as an antidote to the collapse of public integrity. The pattern, moreover, pervades history. Through deep archival research, Chayes reveals that canonical political thinkers such as John Locke and Machiavelli, as well as the great medieval Islamic statesman Nizam al-Mulk, all named corruption as a threat to the realm. In a thrilling argument connecting the Protestant

Reformation to the Arab Spring, *Thieves of State* presents a powerful new way to understand global extremism. And it makes a compelling case that we must confront corruption, for it is a cause—not a result—of global instability.
